Operation / Location: FP Land / [REDACTED] (BGR) **2**

Profile: [REDACTED] **3**

1. Situation Illegal Migration

Gemäss ungesicherten Informationen werden immer wieder Migranten an der grünen Grenze (TUR-BGR und GRC-BGR) angehalten. Es wird von ca. 50-100 versuchten Übertritten pro Tag gesprochen. [REDACTED]

Am Grenzübergang werden sehr wenige Migranten festgestellt, diese weisen sich meistens mit gefälschten Dokumenten aus und werden so entdeckt.

2. Situation Forged Documents (only [REDACTED]) **3**

Am 27.05.2021 um 02:30 Einreise aus eines FRA, m, 40-Jährig mit einem französischen Personenwagen. Im Fahrzeug waren 1 AFG, w, 30-Jährig und 1 AFG, m, 6-Jährig. Beide AFG wiesen sich mit totalgefälschten DEU-Aufenthaltstitel aus. Die Fälschungen waren leicht zu erkennen. Alle Personen wurden ermittelnden Behörde übergeben. Ich war nicht im Dienst.

Am 28.08.2021 um 18:00 versuchte eine TUR Familie, (Mann, 24-Jährig, Frau 24-Jährig, Tochter, 4-Jährig und Sohn 3-Jährig mit dem Bus von der TUR nach BGR einzureisen. Alle wiesen sich mit echten und zustehenden TUR-Reisepässen und blankogestohlenen DEU Aufenthaltskleber aus. Die Aufenthaltskleber waren alle im SIS ausgeschrieben und wurden 2016, 2018 und 2019 in DEU gestohlen. Alle Personen wurden festgenommen und der ermittelnden Behörde übergeben. Ich war nicht im Dienst.

Am 29.05.2021 um 01:00 reiste ein TUR, m, 43-Jährig im Bus ein. Bei der Kontrolle wurde festgestellt, dass der vorgewiesene NDL-Aufenthaltstitel im SIS zum Einzug ausgeschrieben ist. Der Aufenthaltstitel wurde eingezogen und die Einreise verweigert.

Allgemeine Lage am Übergang:

Der Ausreiseverkehr hat etwas zugelegt. Dabei handelt es sich um Grenzverkehr und türkischstämmige Gastarbeiter welche für die Ferien aus den Europäischen Länder in die Türkei reisen.

Der Einreiseverkehr ist weiter auf eher geringem Niveau.

Andere Fälle:

Am 24.05.2021 reisten von der TUR kommend Vater (43-Jährig) und Sohn (23-Jährig) beide BGR per Auto in die Türkei ein. Bei der Zollkontrolle wurden total 220 Schmuckstücke aus 14 Karat-Gold mit einem Gewicht 1682 g im Fahrzeug versteckt gefunden.

Seit Beginn des Jahres wurden am Grenzübergang ² [REDACTED] (BGR) in 7 Fällen total 28 kg nicht deklariertes Silber und Goldschmuck entdeckt.

Frontex deployment FINAL report

Terms and conditions

- Reporting period of deployment (SUMMARY)
- Has to be sent 48h before the Debriefing to [REDACTED] 1
- *Language: Mother tongue or English*

Reporting time: 19.04.2021 – 19.04.2021

Operation / Location: FP Land / [REDACTED] (BGR) 2

Profile: [REDACTED] 3

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

Wegen Corona und dem «lock down» in der Türkei war der Verkehr sehr gering. Vereinzelt versuchten Personen in Bussen mit gefälschten oder verfälschten Dokumenten einzureisen.

Immer wieder wurden Personen die Einreise nach Bulgarien verweigert. Dies da sie im SIS mit einer Einreiseverweigerung ausgeschrieben sind, die finanziellen Mittel fehlten oder die Visabestimmungen nicht eingehalten wurden.

Der Verkehr während meines Einsatzes hatte nur einen sehr kleinen direkten Bezug zur Schweiz. Es reisten sehr wenige Fahrzeuge aus der Schweiz ein oder aus.

Dabei handelt es sich meistens um Gastarbeiter, welche für Ferien in ihre Heimatländer reisten.

Die LKW's mit Planen werden mit Hilfe eines [REDACTED] auf versteckte Migranten kontrolliert. 7

Mit GEO-Staatsbürger haben sie immer wieder Fälle, dass sie im SIS nach Art 24 ausgeschrieben sind. Sie habe einen gültigen, echten und zustehenden Reisepass mit neuem Nachnamen. Das Einreiseverbot konnte nur nach Überprüfung der Fingerabdrücke gefunden werden. Dazu musste diese jeweils über das SIRENE-Büro in Sofia angefordert werden.

Während meines Einsatzes soll es, gemäss inoffiziellen Angaben, an der grünen Grenze immer wieder zu Übertrittsversuchen und Übertritten gekommen sein. Dies sowohl an der TUR-BGR als auch an der GEC-BGR Grenze. Es wurde, von Kollegen, jeweils von 100-200 Migranten pro Tag gesprochen.

2. Situation Forged Documents (only [REDACTED]) 3

Special cases, special forgeries, etc.

Es gab immer wieder gefälschte Dokumente. Diese waren jedoch von schlechter Qualität und wurden leicht erkannt.

Bei den Fälschungen handelte es sich meistens um Führerscheine

[REDACTED]

6

3. Health and General Safety Situation

Covid-19, etc.

2

Die Covid-Regeln werden in Bulgarien bzw. in [REDACTED] und Grenzübergang so gut wie gar nicht eingehalten/umgesetzt. Alle Restaurants und Geschäfte sind offen. Obwohl eine Maskenpflicht bestand wurde diese nicht richtig eingehalten. Allen FRONTEX MA der Kategorie 2 wurden im Frühling, durch die bulgarischen Behörden (Grenzpolizei), Ein Angebot zur Covid-Impfung gemacht. Für den 10. Mai 2021 (beim Hausarzt) und für den 14. Mail 2021 (im kantonalem Impfzentrum) hätte ich einen Termin für die erste Impfung gehabt. Diese musste ich wegen des Einsatzes absagen. Eine Impfung vor dem Einsatz war trotz meinen frühzeitigen Anfragen beim NFPOC, Arzt, Kanton und BAG nicht möglich.

4. Others Phenomenon

Concerning Switzerland

Es gab keine Ereignisse welche direkt mit der Schweiz in Verbindung gebracht werden konnte.

Bei Problemen oder Fragen bei Schweizer Fahrzeugen wurde ich beigezogen.

5. Working conditions

Issues, working with local authorities and with Frontex

5

Am Grenzübergang hatten wir ein Frontex-Büro mit [REDACTED]. Das W-Lan im Büro hat meistens einwandfrei funktioniert und war ausreichend. Mit unserem Diensttelefon waren wir bei der Arbeit und in der Freizeit gut erreichbar. Die Zusammenarbeit mit den bulgarischen Kollegen war sehr gut. Mein Fachwissen und meine Abfragemöglichkeiten wurden sehr geschätzt.

4

Ich war mit einem [REDACTED] Kollegen (Frontex-Kategorie 2) in der Schicht.
Die Arbeit mit ihm war sehr gut und er hat mich in allen belange unterstützt.

5

5

5

5

6. Personal Evaluation

6.1 Equipment and Training

(Insufficient, good, sufficient and with explanations)

Mit unserer Ausbildung und dem Material sind wir sehr gut für den Einsatz gerüstet.
Unsere Möglichkeiten wurden sehr geschätzt.

6.1 Accommodation and Transport

(Insufficient, good, sufficient and with explanations)

[REDACTED]. 7

Es gab weder an den Flughäfen noch mit dem Mietwagen Probleme.

Es wäre wünschenswert, wenn man bei der Rückreise nicht so spät in Zürich ankommt. Im Einsatz erhielt ich neue Flugdaten mit einer Landung um 21:30 Uhr in Zürich.

4
7 Meine Unterkunft ([REDACTED]) war sehr schön. Mein Zimmer war gross und verfügte über eine kleine Küche. Dies ist bei einem Aufenthalt von 2 Monaten sehr angenehm. Leider hat die [REDACTED] nur ein so grosses Zimmer mit eigener Küche. Es verfügt jedoch über eine Gemeinschaftsküche im Parterre inkl. Sitzmöglichkeiten.

- 4 Mein [REDACTED] Kollege war in einer Wohnung mit Parkplatz und Garage untergebracht. Die Wohnung wurde für ihn (Kategorie 2) durch Frontex gebucht. Diese Wohnungen wären eventuell auch eine Möglichkeit für uns. Ein entsprechendes PDF-Dok ([REDACTED]) habe ich dem Rapport beigelegt. Als Alternative zur [REDACTED] habe ich zwei weitere Hotels in der Nähe angeschaut.
- 2 Dies waren das [REDACTED] und das [REDACTED]. Beide waren ansprechend und würden für Frontex-Mitarbeiter spezielle Angebote machen.
- 2 Beide Hotels verfügen über [REDACTED] welche ausreichend gross sind. Auch haben beide einen eigenen Parkplatz.
- 2 Persönlich würde ich für einen Aufenthalt bis 1 Monat das [REDACTED] vorziehen. Es verfügt über einen relativ neuen Fitness Raum, Sauna und Whirlpool. Es wurde mir für FONTEX-Mitarbeiter ein Zimmerpreis von € 50 für das Appartement-Zimmer inkl. Frühstück, Fitness, Wellnessbereich und die Wäsche genannt. Für die Frontex-Angebote muss man das Hotel direkt anschreiben (Vermerk Frontex-Einsatz).

7. Personal Evaluation

7.1 Operational experiences

(positive/negative)

Der Einsatz war für mich interessant und lehrreich.

Die Zusammenarbeit mit den andern FRONTEX-MA und den lokalen Mitarbeitern war gut und freundlich.

Dies war mein erster Einsatz von zwei Monaten. Aus Erfahrung von den letzten einmonatigen Einsätzen und diesem muss ich sagen, dass ein Einsatz von 2 Monaten ideal ist.

Ein Monat ist zu kurz um den Grenzübergang, Verkehr und die Mitarbeiter kennen zu lernen.

Drei Monate wären wieder zu lange und wird zu eintönig.

Im Einsatz hatte ich erstmals Kontakt mit Mitarbeiter der Frontex-Kategorie 1 (Direkt bei Frontex angestellt) und Kategorie 2 (Längerfristiger Einsatz für Frontex, 2 Jahre).

FEEDBACK FROM PARTICIPANT

The participants of the operational activity are invited to fill in this template and submit to Frontex on a voluntarily basis within 7 calendar days after their deployment in the respective location of the operational activity, thus complementing the operational debriefing. The requested feedback is of high importance for the improvement, evaluation, further development and implementation of future operations. The feedback should be submitted via e-mail at [\[Address of respective operational activity\]](#).

I. PLANNING PHASE

What are the strong and weak points of the planning phase arrangements? (Operational Plan, information about deployment, financial arrangements, access to Frontex information systems, such as JORA, FOSS, etc.)

Everything was well organised and access to the necessary documents and databases was available on time.

II. PRE-DEPLOYMENT ACTIONS

How helpful was the pre-deployment on-line training for performing your duties? What kind of additional topics would you suggest to be added in order to improve the performance of the Standing Corps members during Frontex coordinated activity?

I had no special training before the mission.
This was for me also not necessary for my mission.

Which parts/topics of the Operational Briefing did you find most important as a participant? What kind of information was missing from your perspective, which you deem relevant to be included?

Nothing was missing for my mission

* Participating MS refers to the MS of origin deploying the Standing Corps officer or other participant.

III. LOGISTICS/PRACTICAL ARRANGEMENTS

What were the logistical challenges prior to and during your deployment? (*accommodation, working conditions, health and safety, others*)

For me, everything was booked and organised by my NFPOC in Switzerland. Everything has worked very well.
Only a Covid-19 vaccination should have been offered/organised by FRONTEX in the country of deployment for category 2 and 3 staff who are deployed for more than one month.

Please assess the suitability of the technical equipment provided by Frontex for the tasks assigned during your deployment. Is there any other type of equipment that you would find useful for your duties?

All the necessary material for the [REDACTED] (first line) mission is 3
part of the personal equipment of the Swiss Border Guard.
For second line checks, the [REDACTED] border crossing 1
is well equipped by the Bulgarian authorities.

Only for Standing Corps Category 1 (if applicable)

Please present pros and cons as regards the elements of Frontex uniforms, personal equipment, weapons (*lethal and non-lethal*) or other equipment provided for performing your duties within that operational activity.

To be filled in by the participant

IV. COORDINATION STRUCTURE

Was the communication with Frontex Coordinating Staff and national authorities of the host countries regular and sufficient for an effective cooperation? How do you assess the overall coordination of the activity in which you were involved (*the strongest and the weakest points*)? What are your suggestions to achieve better results?

I got all the information I needed from local authorities, my NFPOC and Frontex.

[REDACTED]

6

Please assess your integration within your respective team (*border management team, migration management team, return team*).

I was very well welcomed and accepted by the Bulgarian and FRONTEX colleagues.

V. FUNDAMENTAL RIGHTS

How do you assess the fundamental rights compliance within the operational activity you were deployed to (*identifying and referring vulnerable persons to the competent authorities, including those in need of international protection; respect of the Code of Conduct; information of the migrant about Frontex complaints mechanism*)?

No violations of fundamental rights by the Bulgarian authorities or other Frontex staff have been found.

VI. ADDITIONAL INFORMATION

Are there any comments/suggestions you would like to add? What developments (solutions) would you propose to the operational activity?

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

Bei unseren Patrouillenfahrten und Überwachungen im Einsatzgebiet [REDACTED] 1 konnten keine Migranten oder Schlepper festgestellt werden. Die Lage ist nach wie vor ruhig.

Aufgrund von Schneefällen vom 13.02 auf den 14.02 von teils bis 15cm und Temperaturen von bis -5 Grad kam verschlechterten sich die Strassenverhältnisse enorm. Je nach Lage mussten Schneeketten aufgezogen werden.

Am 14.02 mussten in der Spätschicht, aufgrund der Strassenverhältnis, zwei Fahrzeuge mittels Abschleppseil geborgen werden. Weiter wurde die griechische Polizei in einem Fall eines Auffahrunfalls (lediglich Sachschaden) unterstützt.

In den nächsten Tagen fallen die Temperaturen gemäss Prognose bis -17 Grad. Weitere Schneefälle werden nicht erwartet.

Seitens FRONTEX gibt es Forderungen, dass das monatliche Stundensaldo im März von 184 Stunden erfüllt werden muss. Aufgrund der angeordneten Quarantäne und dem Schichtplan der griechischen Polizei wäre dies aber nicht möglich.

Der Umfang dieser Stundenregelung und die genaue Forderung der Erfüllung dieser Stundenanzahl, ist zurzeit noch zwischen der griechischen Polizei und dem LCC in [REDACTED] in Abklärung. Auch ist nicht klar für Kategorie dies gelten soll.

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

Suite au briefing du jeudi 12.08.2021, on nous a expliqué que la situation est calme depuis quelques temps. Que la chaleur qu'il a fait durant ce dernier mois a probablement calmé les migrants à vouloir remonter en Europe.

Profile:	[REDACTED]	3

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

Durant notre période d'engagement, la situation a été calme. Il y a toujours des groupes de migrants qui essaient de passer en Macédoine du Nord, mais ils sont peu nombreux.

2. Situation Forged Documents (only [REDACTED]) 3

Special cases, special forgeries, etc.

Nous n'avons eu aucun document.

3. Health and General Safety Situation

Covid-19, etc.

La situation en Grèce concernant le Covid-19 est la même que partout en Europe. Une montée des cas est aussi observée. Il nous a été donné, au début de l'engagement, des masques et du désinfectant en suffisance. Aucun cas Covid n'a été décélé dans les équipes Frontex sur place.

4. Others Phenomenon

Concerning Switzerland

Nous n'avons rien à signaler concernant d'autres phénomènes.

5. Working conditions

Issues, working with local authorities and with Frontex

L'ambiance et la coopération étaient bonnes avec les autres membres Frontex. Les collègues grecques ne parlant pas toujours très bien anglais, il était parfois compliqué de discuter ou d'échanger pour avoir des informations.

6. Personal Evaluation

6.1 Equipment and Training

(Insufficient, good, sufficient and with explanations)

Pour notre engagement, tout était adapté.

6.1 Accommodation and Transport

(Insufficient, good, sufficient and with explanations)

L'hôtel [REDACTED] à [REDACTED] est très bien. Le personnel sur place est à l'écoute de ces 2 hôtes et le petit-déjeuner est bien.

7. Personal Evaluation

7.1 Operational experiences

(positive/negative)

Nous avons pu observer que les grecques *sont* fatigués de cette situation migratoire constante depuis quelques années maintenant et cela se voit sur leur manque de motivation jour après jour.

7.1 Conclusion

Dans l'ensemble, nous avons très bien été reçus, que ce soit à l'hôtel, sur le lieu de travail ou par les autres collègues Frontex. Le séjour s'est donc déroulé sans impairs.

Le mercredi 3 novembre, un collègue me fait visiter le poste de police. Il m'explique qu'ici, je vais principalement voir des documents de voyage albanais, bosniaques, croates et koso-vars. Beaucoup de Croates se rendent en Bosnie pour y effectuer divers achats (coût de la vie moins cher) mais ne respectent pas les quantités prévues et se font ainsi amender.

FEEDBACK FROM PARTICIPANT

The participants of the operational activity are invited to fill in this template and submit to Frontex on a voluntarily basis within 7 calendar days after their deployment in the respective location of the operational activity, thus complementing the operational debriefing. The requested feedback is of high importance for the improvement, evaluation, further development and implementation of future operations. The feedback should be submitted via e-mail at [\[Address of respective operational activity\]](#).

I. PLANNING PHASE

What are the strong and weak points of the planning phase arrangements? (Operational Plan, information about deployment, financial arrangements, access to Frontex information systems, such as JORA, FOSS, etc.)

We have received all the necessary information to be deployed.

II. PRE-DEPLOYMENT ACTIONS

How helpful was the pre-deployment on-line training for performing your duties? What kind of additional topics would you suggest to be added in order to improve the performance of the Standing Corps members during Frontex coordinated activity?

I didn't made any training before coming. Training in Switzerland is sufficient to come and work as a Frontex agent.

* Participating MS refers to the MS of origin deploying the Standing Corps officer or other participant.

Which parts/topics of the Operational Briefing did you find most important as a participant? What kind of information was missing from your perspective, which you deem relevant to be included?

The briefing was complete. Maybe a little bit too much. The report part was interesting. However, I think it should be shorter and focus on the important points.

We didn't have a debriefing at the end of the mission.

III. LOGISTICS/PRACTICAL ARRANGEMENTS

What were the logistical challenges prior to and during your deployment? (*accommodation, working conditions, health and safety, others*)

- 2 The hotel [REDACTED] was booked by my NFPOC and was very good with a good situation, good equipment and parking for our car. Concerning working conditions, we had an office for the Frontex agents with a good WIFI. Greek colleagues were very friendly with me. Disinfectant was available for agents.

Please assess the suitability of the technical equipment provided by Frontex for the tasks assigned during your deployment. Is there any other type of equipment that you would find useful for your duties?

No equipment provided by Frontex

Only for Standing Corps Category 1 (if applicable)

Please present pros and cons as regards the elements of Frontex uniforms, personal equipment, weapons (*lethal and non-lethal*) or other equipment provided for performing your duties within that operational activity.

-

IV. COORDINATION STRUCTURE

Was the communication with Frontex Coordinating Staff and national authorities of the host countries regular and sufficient for an effective cooperation? How do you assess the overall coordination of the activity in which you were involved (*the strongest and the weakest points*)? What are your suggestions to achieve better results?

- 2 I received some information from Frontex (demonstration of 18.12.2021 against Frontex). The rest of the information came regularly by our shift leaders in [REDACTED].

Please assess your integration within your respective team (*border management team, migration management team, return team*).

The Greek colleagues were very friendly with me and integrated me easily. Some of them didn't speak English, which made things more difficult.

V. FUNDAMENTAL RIGHTS

How do you assess the fundamental rights compliance within the operational activity you were deployed to (*identifying and referring vulnerable persons to the competent authorities, including those in need of international protection; respect of the Code of Conduct; information of the migrant about Frontex complaints mechanism*)?

Everything was ok.

VI. ADDITIONAL INFORMATION

Are there any comments/suggestions you would like to add? What developments (solutions) would you propose to the operational activity?

- 2 Traffic in [REDACTED] is currently very low due to the Covid 19 crisis. One Frontex agent per shift would be sufficient.

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

BCP [REDACTED] zwischen GRC und ALB 2

- Es gab während meiner Anwesenheit beim FP [REDACTED] 16 SIS-Treffer Art. 24 (Einreiseverweigerung) von albanischen Staatsangehörigen (Quelle griechische Polizei). 2

- Weitere 61 albanische Staatsangehörige wurden zurückgeschickt, weil sie mit einem nationalen Einreiseverbot belegt waren bzw. die Einreisevoraussetzungen nach Griechenland nicht erfüllten (Quelle griechische Polizei).
- Während meiner Anwesenheit wurden 100 albanische Staatsangehörige festgestellt, welche sich zu lange im Schengener Raum aufhielten (Overstay). Sie wurden von der griechischen Polizei dafür gebüsst (Quelle griechische Polizei).
- Vereinzelt versuchen Migranten von Griechenland aus zu Fuss über die grüne Grenze Albanien zu erreichen, um von dort weiter nach Italien zu kommen. Die Meisten werden durch die albanischen Behörden aufgegriffen und zurück nach Griechenland gebracht. Es handelt sich dabei vorwiegend um Migranten aus BGD und PAK, welche in Camps rund um [REDACTED] (GRC) leben. Selbstverständlich gibt es auch 2 Migranten, welche den umgekehrten Weg zu nehmen versuchen (Quelle Frontex).
- Buspassagiere mit Verdacht auf Overstay steigen teilweise vor der Grenze aus und umgehen den BCP [REDACTED] zu Fuss. Sie steigen anschliessend, nachdem sie die 2 Grenze passiert haben, wieder in den Bus ein. Mobile Einheiten der griechischen Polizei, welche dies verhindern könnten, sind innert nützlicher selten vor Ort. Das Problem ist bekannt. Die Mitarbeiter vom BCP [REDACTED] sind nur rein für den Grenzübergang zuständig. Wenn genügend Mitarbeiter vor Ort sind wird das Aus- und Einsteigen der Buspassagiere manchmal überwacht. [REDACTED] 4/6
[REDACTED]
- Am 29. August 2021 um 01:35 Uhr wurden in der Ausreise von Griechenland nach Albanien 4 indische Staatsangehörige festgestellt. Eine Person hatte einen gültigen Aufenthaltstitel von Italien. Die anderen drei Personen konnten nur den indischen Pass (ohne Visa und Aufenthaltstitel) vorweisen. Sie wurden für weitere Massnahmen auf die Polizeistation in Delvinaki (GRC) für weitere Massnahmen verbracht (Quelle griechische Polizei und Frontex).
- Ausserhalb der illegalen Immigration gab es diverse Treffer in der nationalen Fahndungsdatenbank von Griechenland sowie im SIS wegen versuchtem Mord, Drogenhandel, Straftaten im Zusammenhang mit Drogendelikten, verdeckte Registrierung, häuslicher Gewalt, Raub, Ausreiseverbot, Umweltzerstörung usw. (Quelle griechische Polizei).
- Vom 3. bis 13. September 2021 findet die Aktion JAD Danube 6 statt und zielt auf die Bekämpfung der illegalen Einwanderung, den Menschenhandel und den damit verbundenen Dokumentenbetrug, ab. Die JAD wird von Frontex mit Hilfe von Österreich koordiniert und der Schwerpunkt liegt auf den südöstlichen EU-Aussengrenzen und dem Westbalkan. Inwiefern die Aktion ein Erfolg wird kann ich nicht beurteilen (Quelle Frontex).

- [REDACTED] 4
[REDACTED] Erschwerend kommt hinzu, dass nur wenige wirklich gut englisch sprechen. Schlussendlich muss man einen Weg finden ihr Vertrauen zu finden, um die Zusammenarbeit zu verbessern. Ich wurde immer mal wieder angefragt, betreffend der Überprüfung von Ausweisen. Auch habe ich mich, aus eigener Initiative, oft zu den griechischen Kollegen bei der Ein- und Ausreise gestellt und versucht mitzuarbeiten. Leider sind die Polizei Applikationen alle auf Griechisch, was es nicht einfacher macht.
- Die Zusammenarbeit mit den Kollegen von Frontex verlief einwandfrei und war sehr kameradschaftlich. Es konnten diverse Kontakte geknüpft werden, welche mir bei meinem beruflichen Alltag in der Schweiz bestimmt weiterhelfen werden.

6. Personal Evaluation

6.1 Equipment and Training

(Insufficient, good, sufficient and with explanations)

- Die Ausrüstung war sehr zweckmässig und dem Einsatz angepasst.

6.1 Accommodation and Transport

(Insufficient, good, sufficient and with explanations)

- Die Unterkunft [REDACTED] war ausgezeichnet. Im Weiteren findet man in der Umgebung des Hotels alles, was man braucht (siehe Destination Guide). Man erreicht auch die Innenstadt in wenigen Minuten zu Fuss. Das Personal war jederzeit sehr freundlich und hilfsbereit. Der einzige negative Punkt ist, dass man auf den Weg zur Arbeit zuerst durch die Innenstadt fahren muss. 2
- Betreffend Hin- und Rückreise wäre es eine Überlegung wert nach [REDACTED] (GRC) 2 oder Thessaloniki (GRC) zu fliegen, um die Fahrzeit mit dem Auto von Athen (GRC) nach [REDACTED] deutlich zu verringern. 2

7. Personal Evaluation

7.1 Operational experiences

(positive/negative)

- Positiv war einmal mehr die Zusammenarbeit mit diversen Kollegen aus Europa. Diese Kontakte werden mir bestimmt bei der täglichen Arbeit in der Schweiz weiterhelfen. Trotz allen Schwierigkeiten konnte ich auch mit diversen Kollegen aus Griechenland Kontakte knüpfen.
- Negativ war die schwierige Zusammenarbeit mit den griechischen Kollegen vor Ort, welche einem oft zu verstehen gaben, [REDACTED] 4 [REDACTED] Aufgrund dessen, dass der Grenzübergang [REDACTED] vor allem 2 von Einheimischen benutzt wird, gab es ausser albanischen und griechischen Ausweispapieren praktisch keine anderen zu sehen.
- [REDACTED] 4/6

7.1 Conclusion

- Es stellt sich aus meiner Sicht die Frage, ob es wirklich einen [REDACTED] 3 beim FP [REDACTED] 2 in GRC braucht. Meine persönliche Meinung ist, dass es besser wäre einen gut ausgebildeten [REDACTED] aus der Schweiz an einem anderen Ort, wo mehr internationaler 3 Verkehr herrscht, einzusetzen. Mir ist jedoch bewusst, dass Frontex bestimmt, wer wohin entsandt wird.

8. Remarks and suggestions

- Ich bin einmal mehr sehr dankbar die Möglichkeit gehabt zu haben, diesen Auslandseinsatz als Vertreter des CHE-Zolls bzw. der Schweiz zu Gunsten von Frontex, leisten zu dürfen. Ich freue mich schon wieder auf weitere spannende Auslandseinsätze.

Die Meisten werden durch die albanischen Behörden aufgegriffen und zurück nach Griechenland gebracht. Es handelt sich dabei vorwiegend um Migranten aus BGD und PAK, welche in Camps rund um Ioannina (GRC) leben (Quelle Frontex).
- Buspassagiere mit Verdacht auf Overstay steigen teilweise vor der Grenze aus und umgehen den BCP [REDACTED] zu Fuss. Sie steigen anschliessend, nachdem sie die Grenze passiert haben, wieder in den Bus ein. [REDACTED] Das Problem ist bekannt. Die Mitarbeiter vom BCP [REDACTED] sind nur rein für den Grenzübergang zuständig. Wenn genügend Mitarbeiter vor Ort sind wird das Aus- und Einsteigen der Buspassagiere manchmal überwacht (Quelle Frontex). 2

- Bei den einen Kollegen der griechischen Polizei ist man mehr willkommen, bei den Anderen eher weniger. Man muss einfach herausfinden, wer mit Frontex zusammenarbeiten will und wer nicht.
- Die Zusammenarbeit mit Frontex ist, soweit ich dies beurteilen kann, gut.

6. Remarks and suggestions

- Anstatt mit dem Mietfahrzeug von Athen (GRC) nach [REDACTED] (GRC) zu fahren, wäre auch eine Möglichkeit von Athen nach [REDACTED] bzw. Thessaloniki (GRC) zu fliegen und das Mietfahrzeug dort in Empfang zu nehmen. Die Reisezeit würde sich erheblich verkürzen. 2 2

- Es gab diverse SIS-Treffer Art. 24 (Einreiseverweigerung) von albanischen Staatsangehörigen. Ausserdem bestand gegen einige Reisende aus Albanien ein nationales

Einreiseverbot oder sie erfüllten die Einreisevoraussetzungen in den Schengener Raum nicht. Im Weiteren wurden in der Ausreise diverse Albaner festgestellt, welche sich zu lange im Schengener Raum aufhielten. Sie wurden von der griechischen Polizei dafür gebüsst (Quelle griechische Polizei).

- Ausserhalb der illegalen Immigration gab es zwei Treffer in der nationalen Fahndungsdatenbank von Griechenland:

Am 30.08.2021, um 10:00 Uhr, wurde ein Albaner wegen eines Treffers in der nationalen Fahndungsdatenbank aufgrund von Umweltzerstörung (unerlaubtes Fällen von Bäumen) festgenommen. Der Verdächtige wurde für weitere Massnahmen zur Polizeistation in [REDACTED] (GRC) gebracht (Quelle griechische Polizei). 2

Am 04.09.2021, um 16:00 Uhr, wurde ein Albaner in der Einreise festgestellt, welcher ein Ausreiseverbot für Griechenland hat. Das Ausreiseverbot wurde durch ein griechisches Gericht verfügt. Die Person war gemäss eigener Aussage vor 15 Tagen über die grüne Grenze nach Albanien ausgereist. Sie sass vorgängig wegen Drogenschmuggel 4 Jahre in Griechenland im Gefängnis. Durch die griechische Polizei wurde ein Rapport an das zuständige Gericht verfasst. Anschliessend konnte der Albaner nach Griechenland einreisen (Quelle griechische Polizei).

- Vom 3. bis 13. September 2021 findet die Aktion JAD Danube 6 statt und zielt auf die Bekämpfung der illegalen Einwanderung, den Menschenhandel und den damit verbundenen Dokumentenbetrug, ab. FEEDBACK FROM PARTICIPANT

The participants of the operational activity are invited to fill in this template and submit to Frontex on a voluntarily basis within 7 calendar days after their deployment in the respective location of the operational activity, thus complementing the operational debriefing. The requested feedback is of high importance for the improvement, evaluation, further development and implementation of future operations. The feedback should be submitted via e-mail at [\[Address of respective operational activity\]](#).

I. PLANNING PHASE

What are the strong and weak points of the planning phase arrangements? (Operational Plan, information about deployment, financial arrangements, access to Frontex information systems, such as JORA, FOSS, etc.)

Everything was well planned.

II. PRE-DEPLOYMENT ACTIONS

How helpful was the pre-deployment on-line training for performing your duties? What kind of additional topics would you suggest to be added in order to improve the performance of the Standing Corps members during Frontex coordinated activity?

--

Which parts/topics of the Operational Briefing did you find most important as a participant? What kind of information was missing from your perspective, which you deem relevant to be included?

We got all the important informations about the actual situation in our area.

* Participating MS refers to the MS of origin deploying the Standing Corps officer or other participant.

III. LOGISTICS/PRACTICAL ARRANGEMENTS

What were the logistical challenges prior to and during your deployment? (*accommodation, working conditions, health and safety, others*)

The hotel was great and very clean. All colleagues were very kind. We got enough masks and alcohol gel to avoid covid-19 contamination.

Please assess the suitability of the technical equipment provided by Frontex for the tasks assigned during your deployment. Is there any other type of equipment that you would find useful for your duties?

No.

Only for Standing Corps Category 1 (if applicable)

Please present pros and cons as regards the elements of Frontex uniforms, personal equipment, weapons (*lethal and non-lethal*) or other equipment provided for performing your duties within that operational activity.

IV. COORDINATION STRUCTURE

Was the communication with Frontex Coordinating Staff and national authorities of the host countries regular and sufficient for an effective cooperation? How do you assess the overall coordination of the activity in which you were involved (*the strongest and the weakest points*)? What are your suggestions to achieve better results?

The contact with the local authorities and with the FTSO was very good.

Please assess your integration within your respective team (*border management team, migration management team, return team*).

Everything was correct.

V. FUNDAMENTAL RIGHTS

How do you assess the fundamental rights compliance within the operational activity you were deployed to (*identifying and referring vulnerable persons to the competent authorities, including those in need of international protection; respect of the Code of Conduct; information of the migrant about Frontex complaints mechanism*)?

Every control has been made correctly.

VI. ADDITIONAL INFORMATION

Are there any comments/suggestions you would like to add? What developments (solutions) would you propose to the operational activity?

I. PLANNING PHASE

What are the strong and weak points of the planning phase arrangements? (Operational Plan, information about deployment, financial arrangements, access to Frontex information systems, such as JORA, FOSS, etc.)

The strong point was that we had a good communication with the responsible in the area and all was clear, the accommodation was booked before and was good. The weak point was that the ██████████, and Greek colleagues have is database only in Greek speak.

II. PRE-DEPLOYMENT ACTIONS

How helpful was the pre-deployment on-line training for performing your duties? What kind of additional topics would you suggest to be added in order to improve the performance of the Standing Corps members during Frontex coordinated activity?

I didn't had this formation.

* Participating MS refers to the MS of origin deploying the Standing Corps officer or other participant.

Which parts/topics of the Operational Briefing did you find most important as a participant? What kind of information was missing from your perspective, which you deem relevant to be included?

The Briefing was too long, most of the parts was not interesting for a practice deployment of a Frontex officer.

- 6/5 The [REDACTED] part lasted [REDACTED] out of a total of [REDACTED] 5 Briefing, and it was focused on human rights, the use of weapon and how compile a proper reports when something happen in our Area of deployment.

III. LOGISTICS/PRACTICAL ARRANGEMENTS

What were the logistical challenges prior to and during your deployment? (accommodation, working conditions, health and safety, others)

- 2 The accommodation in and out of service was good, the frontex office in [REDACTED] have all the important things for work properly. We had masks, disinfectant and gloves at our disposal.
- 7 The only shortcoming is that the [REDACTED] is broken.

Please assess the suitability of the technical equipment provided by Frontex for the tasks assigned during your deployment. Is there any other type of equipment that you would find useful for your duties?

Was the communication with Frontex Coordinating Staff and national authorities of the host countries regular and sufficient for an effective cooperation? How do you assess the overall coordination of the activity in which you were involved (the strongest and the weakest points)? What are your suggestions to achieve better results?

- 4 The communication with Frontex was good, but with the Greek authorities was not excellent, this maybe because most of them can't speak English and because [REDACTED].
- [REDACTED]
- [REDACTED] This clarification must to be made by the chief of the Area.

Please assess your integration within your respective team (border management team, migration management team, return team).

With the other Frontex members I was perfectly integrated, with the Greeks colleagues this depends of the shift.

V. FUNDAMENTAL RIGHTS

How do you assess the fundamental rights compliance within the operational activity you were deployed to (identifying and referring vulnerable persons to the competent authorities, including those in need of international protection; respect of the Code of Conduct; information of the migrant about Frontex complaints mechanism)?

We didn't detect any migrants in our BCP, only overstays from ALB that they want to come back in their country. But everyone has always been treated with respect.

VI. ADDITIONAL INFORMATION

Are there any comments/suggestions you would like to add? What developments (solutions) would you propose to the operational activity?

A shorter briefing and more focused on the practical aspect.

I. PLANNING PHASE

What are the strong and weak points of the planning phase arrangements? (Operational Plan, information about deployment, financial arrangements, access to Frontex information systems, such as JORA, FOSS, etc.)

The amount of information available is sufficient and useful.

II. PRE-DEPLOYMENT ACTIONS

How helpful was the pre-deployment on-line training for performing your duties? What kind of additional topics would you suggest to be added in order to improve the performance of the Standing Corps members during Frontex coordinated activity?

Deeper knowledge of document forgery is needed.

Which parts/topics of the Operational Briefing did you find most important as a participant? What kind of information was missing from your perspective, which you deem relevant to be included?

The part about the required reports was the most informative. Nothing additional needs to be included, the briefing is already long enough.

* Participating MS refers to the MS of origin deploying the Standing Corps officer or other participant.

III. LOGISTICS/PRACTICAL ARRANGEMENTS

What were the logistical challenges prior to and during your deployment? (*accommodation, working conditions, health and safety, others*)

None.

Please assess the suitability of the technical equipment provided by Frontex for the tasks assigned during your deployment. Is there any other type of equipment that you would find useful for your duties?

BCP [REDACTED] is well equipped for document inspection. 2

Was the communication with Frontex Coordinating Staff and national authorities of the host countries regular and sufficient for an effective cooperation? How do you assess the overall coordination of the activity in which you were involved (*the strongest and the weakest points*)? What are your suggestions to achieve better results?

Frontex staff is competent and helpful. The rest of the local staff speaks mostly poor English, this is the weakest point of the cooperation

Please assess your integration within your respective team (*border management team, migration management team, return team*).

Integration was very good. All team members are helpful and nice.

V. FUNDAMENTAL RIGHTS

How do you assess the fundamental rights compliance within the operational activity you were deployed to (*identifying and referring vulnerable persons to the competent authorities, including those in need of international protection; respect of the Code of Conduct; information of the migrant about Frontex complaints mechanism*)?

No violations during the employment.

I. PLANNING PHASE

What are the strong and weak points of the planning phase arrangements? (Operational Plan, information about deployment, financial arrangements, access to Frontex information systems, such as JORA, FOSS, etc.)

Access to Operational Plan, Information and deployment organised by NFPOC Switzerland in good time. Access to JORA and FOSS received in good time for deployment.

II. PRE-DEPLOYMENT ACTIONS

How helpful was the pre-deployment on-line training for performing your duties? What kind of additional topics would you suggest to be added in order to improve the performance of the Standing Corps members during Frontex coordinated activity?

No pre-deployment online training

Which parts/topics of the Operational Briefing did you find most important as a participant? What kind of information was missing from your perspective, which you deem relevant to be included?

* Participating MS refers to the MS of origin deploying the Standing Corps officer or other participant.

The specific situation briefings by the Host Member state I found to be the most relevant to the immediate mission. The general briefing often contained information which was already known from previous missions, although this definitely useful for new participants.

III. LOGISTICS/PRACTICAL ARRANGEMENTS

What were the logistical challenges prior to and during your deployment? (*accommodation, working conditions, health and safety, others*)

We had accommodation about 30km from the BCU. Due to the time of the year (weather) as well as the COVID-situation this could challenging. Working conditions otherwise ok.

Please assess the suitability of the technical equipment provided by Frontex for the tasks assigned during your deployment. Is there any other type of equipment that you would find useful for your duties?

All equipment used provided by Switzerland () 7

Only for Standing Corps Category 1 (if applicable)

Was the communication with Frontex Coordinating Staff and national authorities of the host countries regular and sufficient for an effective cooperation? How do you assess the overall coordination of the activity in which you were involved (*the strongest and the weakest points*)? What are your suggestions to achieve better results?

Yes, communication was good with all participants. Problem was that we were stationed 30km from where most of the other participants were stationed.

Please assess your integration within your respective team (*border management team, migration management team, return team*).

ok

V. FUNDAMENTAL RIGHTS

How do you assess the fundamental rights compliance within the operational activity you were deployed to (*identifying and referring vulnerable persons to the competent authorities, including those in need of international protection; respect of the Code of Conduct; information of the migrant about Frontex complaints mechanism*)?

I. PLANNING PHASE

What are the strong and weak points of the planning phase arrangements? (Operational Plan, information about deployment, financial arrangements, access to Frontex information systems, such as JORA, FOSS, etc.)

Regarding the deployment plan, information about the deployment and financial arrangements, everything was ok and the information was provided on national level (NFPOC).

On the other hand, access to the report system ██████████ (role as ██████████) 5 3, to my own mail account and to the mailboxes of the ICC were only made available to me after several requests and, unfortunately, in some cases only about ten days after the start of the mission! These accesses are indispensable for the completion of the ██████████'s 3 tasks from the first day and therefore must be ensured urgently before the start of the mission.

II. PRE-DEPLOYMENT ACTIONS

How helpful was the pre-deployment on-line training for performing your duties? What kind of additional topics would you suggest being added in order to improve the performance of the Standing Corps members during Frontex coordinated activity?

* Participating MS refers to the MS of origin deploying the Standing Corps officer or other participant.

To my knowledge, there is no online training that would prepare the [REDACTED] for his or her assignment and performance of duties. However, this would be a helpful improvement. While there is an internal manual for the [REDACTED] at ICC [REDACTED], unfortunately this was only given to me at the beginning of the deployment and was not up to date. It would have been very helpful to have this available before the mission. Studying this document in advance would have shortened the training period considerably.

Which parts/topics of the Operational Briefing did you find most important as a participant? What kind of information was missing from your perspective, which you deem relevant to be included?

I was informed about the general administrative matters and the requirements of Frontex by the FOC in a good and informative operational briefing. Furthermore, I was given various brochures from Frontex (code of conduct, asylum processes, human rights, etc.), so I consider the information given to me as sufficient.

For the performance of the [REDACTED]'s tasks, I found the information on the organization of Frontex were the most important at the Operational Briefing.

III. LOGISTICS/PRACTICAL ARRANGEMENTS

What were the logistical challenges prior to and during your deployment? (*accommodation, working conditions, health and safety, others*)

The working conditions, health and safety were good and there were no logistical challenges, except that the workplace was difficult to reach by public transport.

Please assess the suitability of the technical equipment provided by Frontex for the tasks assigned during your deployment. Is there any other type of equipment that you would find useful for your duties?

The equipment provided by Frontex was sufficient and appropriate for the tasks to be completed during my mission.

Only for Standing Corps Category 1 (if applicable)

Please present pros and cons as regards the elements of Frontex uniforms, personal equipment, weapons (*lethal and non-lethal*) or other equipment provided for performing your duties within that operational activity.

IV. COORDINATION STRUCTURE

Was the communication with Frontex Coordinating Staff and national authorities of the host countries regular and sufficient for an effective cooperation? How do you assess the overall coordination of the activity in which you were involved (*the strongest and the weakest points*)? What are your suggestions to achieve better results?

Communication with the coordinating staff of Frontex and the national authorities of the host countries took place regularly and, due to the Covid situation, in the form of online meetings. The exchange was sufficient for effective cooperation and took place in a professional manner. I rate the overall coordination of the activity in which I was involved as sufficient. The many personnel changes had a disturbing effect. The responsibilities of the individual actors were also not always clear to me.

Please assess your integration within your respective team (*border management team, migration management team, return team*).

I was well integrated into both the ICC team and the [REDACTED]. The cooperation with the [REDACTED] deployed at the same time for a longer period works perfectly.

V. FUNDAMENTAL RIGHTS

How do you assess the fundamental rights compliance within the operational activity you were deployed to (identifying and referring vulnerable persons to the competent authorities, including those in need of international protection; respect of the Code of Conduct; information of the migrant about Frontex complaints mechanism)?

In the course of my operational activities during the period of my deployment, there were no points of contact with regard to compliance with fundamental rights.

VI. ADDITIONAL INFORMATION

Are there any comments/suggestions you would like to add? What developments (solutions) would you propose to the operational activity?

The deployment was interesting and overall I enjoyed it. I was able to get a good overview of the organization and the activities of Frontex during my first deployment. Furthermore, I could also improve my English language skills a little bit. However, due to my personal interest in being on the front line, I would prefer a future deployment as a debriefer.

I. PLANNING PHASE

What are the strong and weak points of the planning phase arrangements? (Operational Plan, information about deployment, financial arrangements, access to Frontex information systems, such as JORA, FOSS, etc.)

Everything was good.

II. PRE-DEPLOYMENT ACTIONS

How helpful was the pre-deployment on-line training for performing your duties? What kind of additional topics would you suggest to be added in order to improve the performance of the Standing Corps members during Frontex coordinated activity?

--

Which parts/topics of the Operational Briefing did you find most important as a participant? What kind of information was missing from your perspective, which you deem relevant to be included?

We got all the important information about the situation at the moment in our area.

* Participating MS refers to the MS of origin deploying the Standing Corps officer or other participant.

III. LOGISTICS/PRACTICAL ARRANGEMENTS

What were the logistical challenges prior to and during your deployment? (*accommodation, working conditions, health and safety, others*)

The hotel was great, good atmosphere during the time of working, we got masks and everything to avoid covid-19 contamination.

Please assess the suitability of the technical equipment provided by Frontex for the tasks assigned during your deployment. Is there any other type of equipment that you would find useful for your duties?

No.

Only for Standing Corps Category 1 (if applicable)

Please present pros and cons as regards the elements of Frontex uniforms, personal equipment, weapons (*lethal and non-lethal*) or other equipment provided for performing your duties within that operational activity.

IV. COORDINATION STRUCTURE

Was the communication with Frontex Coordinating Staff and national authorities of the host countries regular and sufficient for an effective cooperation? How do you assess the overall coordination of the activity in which you were involved (*the strongest and the weakest points*)? What are your suggestions to achieve better results?

We had really good contact with the local authorities and with the FTSO.

Please assess your integration within your respective team (*border management team, migration management team, return team*).

Nothing to say, everything was fine.

V. FUNDAMENTAL RIGHTS

How do you assess the fundamental rights compliance within the operational activity you were deployed to (*identifying and referring vulnerable persons to the competent authorities, including those in need of international protection; respect of the Code of Conduct; information of the migrant about Frontex complaints mechanism*)?

Every control was made correctly.

I. PLANNING PHASE

What are the strong and weak points of the planning phase arrangements? (Operational Plan, information about deployment, financial arrangements, access to Frontex information systems, such as JORA, FOSS, etc.)

We have received all the necessary information to be deployed.

II. PRE-DEPLOYMENT ACTIONS

How helpful was the pre-deployment on-line training for performing your duties? What kind of additional topics would you suggest to be added in order to improve the performance of the Standing Corps members during Frontex coordinated activity?

I didn't made any training before coming. Training in Switzerland is sufficient to come and work as a Frontex agent.

* Participating MS refers to the MS of origin deploying the Standing Corps officer or other participant.

Which parts/topics of the Operational Briefing did you find most important as a participant? What kind of information was missing from your perspective, which you deem relevant to be included?

The presentation of the region was interesting as well as the current situation of migration. For me it was my first mission for Frontex and all the briefing was interesting. I think the briefing was complete.

III. LOGISTICS/PRACTICAL ARRANGEMENTS

What were the logistical challenges prior to and during your deployment? (*accommodation, working conditions, health and safety, others*)

- 2 The hotel [REDACTED] was booked by our NFPOC and was very good with a good situation, good equipments and parking with our car. Concerning working conditions, the hours could be different.

Was the communication with Frontex Coordinating Staff and national authorities of the host countries regular and sufficient for an effective cooperation? How do you assess the overall coordination of the activity in which you were involved (*the strongest and the weakest points*)? What are your suggestions to achieve better results?

We have regularly received information regarding the situation with Covid, the earthquakes and the anarchists. FTSO was friendly and available in case of questions and/or comments. The fact that they were in our hotel is easier 

Please assess your integration within your respective team (*border management team, migration management team, return team*).

The Greek colleagues were very friendly with us and integrated us easily.

V. FUNDAMENTAL RIGHTS

How do you assess the fundamental rights compliance within the operational activity you were deployed to (*identifying and referring vulnerable persons to the competent authorities, including those in need of international protection; respect of the Code of Conduct; information of the migrant about Frontex complaints mechanism*)?

Everything was ok.

VI. ADDITIONAL INFORMATION

Are there any comments/suggestions you would like to add? What developments (solutions) would you propose to the operational activity?

I think there are things that could be improved. Indeed, we received information that there are many

anarchists in town but we had to travel 50 minutes with our patrol car, [REDACTED] 7

[REDACTED] 7

[REDACTED] 7

About schedules, we only had three days off during engagement. Two times 8 days without day off in a row. Two morning shift after one night shift. It's hard to recover and not to be tired. It would be better to have always the same rotation. For example, [REDACTED] 5

[REDACTED] 5

In our area, there is no road with Albania but only green border with mountain. Currently the passage is difficult or even impossible for migrants because there is a lot of snow. It could be maybe better to be deployed in another sector during the winter and reinforce other sectors.

II. PRE-DEPLOYMENT ACTIONS

How helpful was the pre-deployment on-line training for performing your duties? What kind of additional topics would you suggest to be added in order to improve the performance of the Standing Corps members during Frontex coordinated activity?

There should be before the deployment a training or information sheet for the [REDACTED] to do the document alerts and not after the deployment. 3

I. PLANNING PHASE

What are the strong and weak points of the planning phase arrangements? (Operational Plan, information about deployment, financial arrangements, access to Frontex information systems, such as JORA, FOSS, etc.)

There were no strong or weak point, I received all the information I needed.

II. PRE-DEPLOYMENT ACTIONS

How helpful was the pre-deployment on-line training for performing your duties? What kind of additional topics would you suggest to be added in order to improve the performance of the Standing Corps members during Frontex coordinated activity?

I am a category 3 agent, I have not made any additional training, the level of training I have in my state is more than sufficient to carry out my duties.

Which parts/topics of the Operational Briefing did you find most important as a participant? What kind of information was missing from your perspective, which you deem relevant to be included?

After having participated in several missions / briefings, the part concerning what to do and not to do, use of the weapon and human rights, are always the same, interesting is the information on the situation of the place and the orientation of the workplace.

* Participating MS refers to the MS of origin deploying the Standing Corps officer or other participant.

III. LOGISTICS/PRACTICAL ARRANGEMENTS

What were the logistical challenges prior to and during your deployment? (accommodation, working conditions, health and safety, others)

Accommodation was made by NFPOC, on the edge of the city but still in the central area.

The Greek colleagues were always helpful and kind with good knowledge of English to communicate.

I adjusted to local Covid-19 restrictions and LCC information for problems in the city or in the country and everything went well.

Please assess the suitability of the technical equipment provided by Frontex for the tasks assigned during your deployment. Is there any other type of equipment that you would find useful for your duties?

We did not get anything for deployment from Frontex

The equipment and vehicle from our NFPOC are more than enough.

IV. COORDINATION STRUCTURE

Was the communication with Frontex Coordinating Staff and national authorities of the host countries regular and sufficient for an effective cooperation? How do you assess the overall coordination of the activity in which you were involved (the strongest and the weakest points)? What are your suggestions to achieve better results?

Frontex coordination staff made good use of the means of communication (), furthermore they were housed in the same hotel as I was, I met them every 2-3 days and there was an exchange of information or opinions.

The national authority, or rather the LCC (), always kept us updated on particularly relevant situations with the same means of communication as Frontex.

Please assess your integration within your respective team (border management team, migration management team, return team).

Considering that we work for the same target, there were no problems apart one case that we immediately liquidated to prevent it from happening again.

V. FUNDAMENTAL RIGHTS

How do you assess the fundamental rights compliance within the operational activity you were deployed to (identifying and referring vulnerable persons to the competent authorities, including those in need of international protection; respect of the Code of Conduct; information of the migrant about Frontex complaints mechanism)?

In the cases where I was involved, everything was always respected.

VI. ADDITIONAL INFORMATION

Are there any comments/suggestions you would like to add? What developments (solutions) would you propose to the operational activity?

Our working area is surrounding with mountains and there is no way direct to the border (BCP).

The migrants do not walk up and down a mountain (lot of snow in that period and general in the winter) if there is a street in the valley.

We saw different migrant walking from BCP in direction to () on the main street, out from our working sector.

2

The LCC [REDACTED] should use better the Frontex “manpower”.

The shift can be done better, between the shifts there were always a break of 24 hours, I had only tree day’s off and two times with eight working days in a line.

We get the information that also in the area of [REDACTED] there are different anarchist. [REDACTED]

I. PLANNING PHASE

What are the strong and weak points of the planning phase arrangements? (Operational Plan, information about deployment, financial arrangements, access to Frontex information systems, such as JORA, FOSS, etc.)

Well planned. Everything worked properly.

II. PRE-DEPLOYMENT ACTIONS

How helpful was the pre-deployment on-line training for performing your duties? What kind of additional topics would you suggest to be added in order to improve the performance of the Standing Corps members during Frontex coordinated activity?

The online training is helpful but only one small part of the pre-deployment. In my opinion, our professional experience in the field plays a significant role in our job. We exchange experience with each other, and it helps our professional growth.

* Participating MS refers to the MS of origin deploying the Standing Corps officer or other participant.

Which parts/topics of the Operational Briefing did you find most important as a participant? What kind of information was missing from your perspective, which you deem relevant to be included?

The briefing was useful and complete. I lacked live communication with my colleagues to share our thoughts personally. As we were housed in different places, we did not have the opportunity to get to know each other.

III. LOGISTICS/PRACTICAL ARRANGEMENTS

What were the logistical challenges prior to and during your deployment? (*accommodation, working conditions, health and safety, others*)

For sure every step around COVID. The trip has become more difficult to organize due to numerous test and papers.

Please assess the suitability of the technical equipment provided by Frontex for the tasks assigned during your deployment. Is there any other type of equipment that you would find useful for your duties?

The equipment that is now at our disposal fully corresponds to our tasks.

Was the communication with Frontex Coordinating Staff and national authorities of the host countries regular and sufficient for an effective cooperation? How do you assess the overall coordination of the activity in which you were involved (*the strongest and the weakest points*)? What are your suggestions to achieve better results?

Cooperation with FSO was organized at an excellent level. The FSO was staying at the same hotel, which ensured constant contact.

Contact with Greek representatives was limited. We mostly communicated through the app [REDACTED] or our Greek colleagues.

7

Please assess your integration within your respective team (*border management team, migration management team, return team*).

We integrated well into the team. Our Greek colleagues spoke excellent English, were motivated and assisted us.

V. FUNDAMENTAL RIGHTS

How do you assess the fundamental rights compliance within the operational activity you were deployed to (*identifying and referring vulnerable persons to the competent authorities, including those in need of international protection; respect of the Code of Conduct; information of the migrant about Frontex complaints mechanism*)?

The fundamental rights were respected all the time.

Was the communication with Frontex Coordinating Staff and national authorities of the host countries regular and sufficient for an effective cooperation? How do you assess the overall coordination of the activity in which you were involved (*the strongest and the weakest points*)? What are your suggestions to achieve better results?

The communication with the Frontex FTSO was very sufficient. We got their numbers and e-mail addresses at the briefing at the beginning.

As a negative point, I wish for the next time to get a contact number of the Greek local police officer who is responsible for the shift plans. This way, we would be more flexible to change shifts in case needed (e. g. visit of a political delegation). Without having this contact, it was difficult to involve all the opinions of the locals and the officers on duty (us). The communication was only between FTSO and the local shift planner of the Greek police, the results were not satisfying for us, which could easily have been changed, if we could have just talked with the Greek shift planner in person or by phone.

Please assess your integration within your respective team (*border management team, migration management team, return team*).

We were a very good team. We were working together with 4 [REDACTED], and 2 [REDACTED] officers. All officers together were very friendly with each other, and the work was very effective. We were a good team all together. The Greek locals were leading us well, and treating us with a lot of hospitality.

V. FUNDAMENTAL RIGHTS

How do you assess the fundamental rights compliance within the operational activity you were deployed to (*identifying and referring vulnerable persons to the competent authorities, including those in need of international protection; respect of the Code of Conduct; information of the migrant about Frontex complaints mechanism*)?

We didn't encounter any migrants, so I can't assess this criterion.

Was the communication with Frontex Coordinating Staff and national authorities of the host countries regular and sufficient for an effective cooperation? How do you assess the overall coordination of the activity in which you were involved (the strongest and the weakest points)? What are your suggestions to achieve better results?

The communication with the Frontex FTSO was very sufficient. Contact to FP Coordinator was very direct and if we needed anything, she helped us in an uncomplicated way.

Please assess your integration within your respective team (border management team, migration management team, return team).

I was together with two Cat. 1 members, and one Cat. 2 member. We all got along very well with each other. We didn't see each other too often, but sometimes the shifts were matching for 4 hours. Very good cooperation.

Please assess the suitability of the technical equipment provided by Frontex for the tasks assigned during your deployment. Is there any other type of equipment that you would find useful for your duties?

I had no technical equipment provided by Frontex.

Only for Standing Corps Category 1 (if applicable)

Please present pros and cons as regards the elements of Frontex uniforms, personal equipment, weapons (*lethal and non-lethal*) or other equipment provided for performing your duties within that operational activity.

IV. COORDINATION STRUCTURE

Was the communication with Frontex Coordinating Staff and national authorities of the host countries regular and sufficient for an effective cooperation? How do you assess the overall coordination of the activity in which you were involved (*the strongest and the weakest points*)? What are your suggestions to achieve better results?

The communication with the lcc worked properly.
 What was missing, was any information about findings in other areas.
 We received such information only by chance, because colleagues from other areas were accommodated in the same accommodation, as we were.

Please assess your integration within your respective team (*border management team, migration management team, return team*).

The integration in the team was good.

V. FUNDAMENTAL RIGHTS

How do you assess the fundamental rights compliance within the operational activity you were deployed to (*identifying and referring vulnerable persons to the competent authorities, including those in need of international protection; respect of the Code of Conduct; information of the migrant about Frontex complaints mechanism*)?

NTR

VI. ADDITIONAL INFORMATION

Are there any comments/suggestions you would like to add? What developments (solutions) would you propose to the operational activity?

Generally, there was nothing to do in our area for two months. Maybe there are other places that would need support.

FEEDBACK FROM PARTICIPANT

The participants of the operational activity are invited to fill in this template and submit to Frontex on a voluntarily basis within 7 calendar days after their deployment in the respective location of the operational activity, thus complementing the operational debriefing. The requested feedback is of high importance for the improvement, evaluation, further development and implementation of future operations. The feedback should be submitted via e-mail at [\[Address of respective operational activity\]](#).

I. PLANNING PHASE

What are the strong and weak points of the planning phase arrangements? (Operational Plan, information about deployment, financial arrangements, access to Frontex information systems, such as JORA, FOSS, etc.)

In my opinion, there are no weaknesses. Everything is well planned and organised.

II. PRE-DEPLOYMENT ACTIONS

How helpful was the pre-deployment on-line training for performing your duties? What kind of additional topics would you suggest to be added in order to improve the performance of the Standing Corps members during Frontex coordinated activity?

I didn't have any pre-deployment training. I'm an experienced document fraud expert. From my site no additional training is needed.

* Participating MS refers to the MS of origin deploying the Standing Corps officer or other participant.

Which parts/topics of the Operational Briefing did you find most important as a participant? What kind of information was missing from your perspective, which you deem relevant to be included?

For me it was important to know who is the responsible person in case of emergency or some operational matters. I got all the relevant information during the Operational Briefing.

III. LOGISTICS/PRACTICAL ARRANGEMENTS

What were the logistical challenges prior to and during your deployment? (*accommodation, working conditions, health and safety, others*)

Expect to take care not to get in touch with the Corona Virus, they were no other challenges.

Please assess the suitability of the technical equipment provided by Frontex for the tasks assigned during your deployment. Is there any other type of equipment that you would find useful for your duties?

I didn't use any technical equipment from Frontex.

IV. COORDINATION STRUCTURE

Was the communication with Frontex Coordinating Staff and national authorities of the host countries regular and sufficient for an effective cooperation? How do you assess the overall coordination of the activity in which you were involved (*the strongest and the weakest points*)? What are your suggestions to achieve better results?

1. Yes
2. Strongest point: The daily cooperation with the Officers from the HMS to improve the security on the external border of the EU. Weakest point: The communication wasn't sometimes so easy because of the different level of English skills
3. I would be great to have all the time during the shift a Greek colleague beside to work together at the BCP.

Please assess your integration within your respective team (*border management team, migration management team, return team*).

I was well integrated in the international team. For that I'm very grateful.

V. FUNDAMENTAL RIGHTS

How do you assess the fundamental rights compliance within the operational activity you were deployed to (*identifying and referring vulnerable persons to the competent authorities, including those in need of international protection; respect of the Code of Conduct; information of the migrant about Frontex complaints mechanism*)?

No

VI. ADDITIONAL INFORMATION

Are there any comments/suggestions you would like to add? What developments (solutions) would you propose to the operational activity?

Thank you very much for the opportunity to work as an [REDACTED] for Frontex at FP [REDACTED] in Greece. It would be great to do it again in another mission.

Additional information about daily / monthly reports were useful, since this was my first deployment.

III. LOGISTICS/PRACTICAL ARRANGEMENTS

What were the logistical challenges prior to and during your deployment? (*accommodation, working conditions, health and safety, others*)

Only issue were the Covid regulations / restrictions

Was the communication with Frontex Coordinating Staff and national authorities of the host countries regular and sufficient for an effective cooperation? How do you assess the overall coordination of the activity in which you were involved (*the strongest and the weakest points*)? What are your suggestions to achieve better results?

Had a very good and supportive local coordinator at the BCP, he was always available, also in his holidays and free time.

Please assess your integration within your respective team (*border management team, migration management team, return team*).

Was well integrated by the Frontex, as well as the local colleagues. Was regularly informed about interesting cases by the shiftleader, even if I was not directly involved.

V. FUNDAMENTAL RIGHTS

How do you assess the fundamental rights compliance within the operational activity you were deployed to (*identifying and referring vulnerable persons to the competent authorities, including those in need of international protection; respect of the Code of Conduct; information of the migrant about Frontex complaints mechanism*)?

Have not been involved in a case with illegal migrants nor knowledge of any at the BCP. Could not see any issues or problems concerning the Code of Conduct.

II. PRE-DEPLOYMENT ACTIONS

How helpful was the pre-deployment on-line training for performing your duties? What kind of additional topics would you suggest to be added in order to improve the performance of the Standing Corps members during Frontex coordinated activity?

I didn't have any online trainings from Frontex

Which parts/topics of the Operational Briefing did you find most important as a participant? What kind of information was missing from your perspective, which you deem relevant to be included?

5 The whole briefing took about ██████████ The briefing went over lunchtime. To follow a online briefing needs much more concentration then to a "reel" one. I recommend to make every hour a ten minutes

* Participating MS refers to the MS of origin deploying the Standing Corps officer or other participant.

- 6 break. [REDACTED]. There is for me no need to make a introduction with every deployed officer.

III. LOGISTICS/PRACTICAL ARRANGEMENTS

What were the logistical challenges prior to and during your deployment? (*accommodation, working conditions, health and safety, others*)

- 7 [REDACTED]. As there was no place at the BCP I`ve had to bring it to the BCU in [REDACTED]. It 2 would be great to have a solution [REDACTED] at the BCP. 7

Was the communication with Frontex Coordinating Staff and national authorities of the host countries regular and sufficient for an effective cooperation? How do you assess the overall coordination of the activity in which you were involved (*the strongest and the weakest points*)? What are your suggestions to achieve better results?

I`ve had a national briefing and I received my duty roster very fast.

Please assess your integration within your respective team (*border management team, migration management team, return team*).

I expected more a working together in a small group with 1 or 2 guest officers and 1 or 2 Bulgarian police officers. For me this is the best way to get in touch with each other and also to fullfill our tasks. For the important cases the secondline officer always asked us for support when needed.

V. FUNDAMENTAL RIGHTS

How do you assess the fundamental rights compliance within the operational activity you were deployed to (*identifying and referring vulnerable persons to the competent authorities, including those in need of international protection; respect of the Code of Conduct; information of the migrant about Frontex complaints mechanism*)?

The fundamental rights were all the time well followed.

██ 5

* Participating MS refers to the MS of origin deploying the Standing Corps officer or other participant.

- 3 Many information was not regarding my duty and the role of [REDACTED]. In my opinion the Briefing has to be shorter and with essentials information.

III. LOGISTICS/PRACTICAL ARRANGEMENTS

What were the logistical challenges prior to and during your deployment? (*accommodation, working conditions, health and safety, others*)

For the accommodation and car were provided from my NFPOC Switzerland

The Frontex office has the necessary for work well (Wifi and air conditioning) but I in my opinion, to have a printer with scanner it is also important.

and in the BCP, the anti-Covid measures are respected

Please assess the suitability of the technical equipment provided by Frontex for the tasks assigned during your deployment. Is there any other type of equipment that you would find useful for your duties?

I'm SC category 3, so all the technical equipment is provided from my country.

Was the communication with Frontex Coordinating Staff and national authorities of the host countries regular and sufficient for an effective cooperation? How do you assess the overall coordination of the activity in which you were involved (*the strongest and the weakest points*)? What are your suggestions to achieve better results?

I can say only that I have never seen the FSTO, because he was in Warsaw and I saw the coordinator from Frontex and national authorities 2 times in one month. For me was very helpful the presence of the staff from Frontex (European Border Guards category 1 and 2).

Please assess your integration within your respective team (*border management team, migration management team, return team*).

I did not work with a specific Team, I worked with everybody. The only problem was sometimes the communication in English language with local Police.

V. FUNDAMENTAL RIGHTS

How do you assess the fundamental rights compliance within the operational activity you were deployed to (*identifying and referring vulnerable persons to the competent authorities, including those in need of international protection; respect of the Code of Conduct; information of the migrant about Frontex complaints mechanism*)?

In my opinion the fundamental rights were respected.

VI. ADDITIONAL INFORMATION

Are there any comments/suggestions you would like to add? What developments (solutions) would you propose to the operational activity?

My suggestions for help The BCP of [REDACTED], is to renewing all the structure, and the informatic system, because everything is obsolete. They have not the AFIS, the data base software is only in Greek language, ecc....

The Operational Briefing was complete with all information I needed.

III. LOGISTICS/PRACTICAL ARRANGEMENTS

What were the logistical challenges prior to and during your deployment? (*accommodation, working conditions, health and safety, others*)

The accommodation and the Patrol car were provided from the NFPOC Switzerland.

The BCU in [REDACTED], is very old and without a Frontex Office.
For write our reports we use to stay in the kitchen or outside in the garden. The anti-Covid measures were respected.

In this mission, we had two FTSO and the communication was good, for every request they try to help us.

Please assess your integration within your respective team (*border management team, migration management team, return team*).

I did not work with a specific Team, I worked with everybody. The GRC Police are friendly and collaborative. The only problem was sometimes the communication in English language.

V. FUNDAMENTAL RIGHTS

How do you assess the fundamental rights compliance within the operational activity you were deployed to (*identifying and referring vulnerable persons to the competent authorities, including those in need of international protection; respect of the Code of Conduct; information of the migrant about Frontex complaints mechanism*)?

Nothing to report, the fundamental rights were respected.

VI. ADDITIONAL INFORMATION

Are there any comments/suggestions you would like to add? What developments (solutions) would you propose to the operational activity?

The BCU of [REDACTED], need to be renewed, because in winter, I think they will have a lot of problem with snow, rain and cold.

The detention room is unacceptable, very old, very dirty and the toilet stink a lot, (Human rights are not

2

respected with the detention !!!!)

I. PLANNING PHASE

What are the strong and weak points of the planning phase arrangements? (Operational Plan, information about deployment, financial arrangements, access to Frontex information systems, such as JORA, FOSS, etc.)

The planning, the online documentation and the Frontex burotyka were very good and performing. The preparation for use is also excellent. I don't find any weaknesses in this area.

II. PRE-DEPLOYMENT ACTIONS

How helpful was the pre-deployment on-line training for performing your duties? What kind of additional topics would you suggest to be added in order to improve the performance of the Standing Corps members during Frontex coordinated activity?

The Frontex briefing underlined, as always, the important points related to our employment. Useful and complete. Perhaps the only flaw is the fact that it is a bit repetitive.

* Participating MS refers to the MS of origin deploying the Standing Corps officer or other participant.

Which parts/topics of the Operational Briefing did you find most important as a participant? What kind of information was missing from your perspective, which you deem relevant to be included?

I believe that the most important parts of the operational briefing relate to the case history data. This allows us to focus better and be more efficient.

III. LOGISTICS/PRACTICAL ARRANGEMENTS

What were the logistical challenges prior to and during your deployment? (*accommodation, working conditions, health and safety, others*)

Working away from home and adapting to the working method of the host country are very exciting challenges.

Please assess the suitability of the technical equipment provided by Frontex for the tasks assigned during your deployment. Is there any other type of equipment that you would find useful for your duties?

At the focal point of [REDACTED] the internet router and the supplied computer are rather old and not very efficient. For the rest, we had everything we needed to reverse our work properly.

Was the communication with Frontex Coordinating Staff and national authorities of the host countries regular and sufficient for an effective cooperation? How do you assess the overall coordination of the activity in which you were involved (*the strongest and the weakest points*)? What are your suggestions to achieve better results?

Communication and cooperation between Frontex colleagues, superiors and local authorities has always been excellent. I cannot find any points for improvement in this area.

Please assess your integration within your respective team (*border management team, migration management team, return team*).

So explained above, thanks to an excellent collaboration, I could immediately integrate myself into the team and this allowed the development of an excellent working environment.

V. FUNDAMENTAL RIGHTS

How do you assess the fundamental rights compliance within the operational activity you were deployed to (*identifying and referring vulnerable persons to the competent authorities, including those in need of international protection; respect of the Code of Conduct; information of the migrant about Frontex complaints mechanism*)?

Throughout the use, the checks were carried out in full compliance with the rules. Nothing to say about it.

VI. ADDITIONAL INFORMATION

Are there any comments/suggestions you would like to add? What developments (solutions) would you propose to the operational activity?

I can give an excellent evaluation of the job done. Except the office automation and the intermittent internet connection I have no point of improvement to add.

What are the strong and weak points of the planning phase arrangements? (Operational Plan, information about deployment, financial arrangements, access to Frontex information systems, such as JORA, FOSS, etc.)

It was my 3rd time in the same country and second time on the same place. So I already know what to expect. I also get all the information as I need before the deployment. I didn't use JORA in this time, only FOSS. FOSS was working without problems.

II. PRE-DEPLOYMENT ACTIONS

How helpful was the pre-deployment on-line training for performing your duties? What kind of additional topics would you suggest to be added in order to improve the performance of the Standing Corps members during Frontex coordinated activity?

* Participating MS refers to the MS of origin deploying the Standing Corps officer or other participant.

I already had it in my last deployment, so it was nothing new for me. In my opinion, ■ were too long to pay attention to 5 power point presentations.

Which parts/topics of the Operational Briefing did you find most important as a participant? What kind of information was missing from your perspective, which you deem relevant to be included?

I found it important to know how to write the daily report.
Also about human rights and where to write if necessary.

III. LOGISTICS/PRACTICAL ARRANGEMENTS

What were the logistical challenges prior to and during your deployment? (*accommodation, working conditions, health and safety, others*)

Handling everything during Covid19 time was more difficult.
Working night shifts doesn't make sense if there is no traffic anymore after the main season. It would make more sense if we are free with our shifts.

Please assess the suitability of the technical equipment provided by Frontex for the tasks assigned during your deployment. Is there any other type of equipment that you would find useful for your duties?

Wi-Fi doesn't work well, it's too slow to work properly. I have brought all the equipment I needed by myself. Enough masks and gloves were available.

Only for Standing Corps Category 1 (if applicable)

Please present pros and cons as regards the elements of Frontex uniforms, personal equipment, weapons (*lethal and non-lethal*) or other equipment provided for performing your duties within that operational activity.

IV. COORDINATION STRUCTURE

Was the communication with Frontex Coordinating Staff and national authorities of the host countries regular and sufficient for an effective cooperation? How do you assess the overall coordination of the activity in which you were involved (*the strongest and the weakest points*)? What are your suggestions to achieve better results?

The coordination and the communication with the LCC worked really well. I could contact him if I needed something or also for questions.

Please assess your integration within your respective team (*border management team, migration management team, return team*).

Soso, sometimes I was more involved, sometimes less.

V. FUNDAMENTAL RIGHTS

How do you assess the fundamental rights compliance within the operational activity you were deployed to (*identifying and referring vulnerable persons to the competent authorities, including those in need of international protection; respect of the Code of Conduct; information of the migrant about Frontex complaints mechanism*)?

In this time it was difficult in Croatia with the irregular migrant situation. It was also present on TV. But those problems were only on the green border. Cases like this were not on the BCP.

Handling everything during Covid19 time was more difficult.
Working night shifts doesn't make sense if there is no traffic anymore after the main season. It would make more sense if we are free with our shifts.

Please assess the suitability of the technical equipment provided by Frontex for the tasks assigned during your deployment. Is there any other type of equipment that you would find useful for your duties?

Wi-Fi doesn't work well, it's too slow to work properly. I have brought all the equipment I needed by myself. Enough masks and gloves were available.

Only for Standing Corps Category 1 (if applicable)

Please present pros and cons as regards the elements of Frontex uniforms, personal equipment, weapons (*lethal and non-lethal*) or other equipment provided for performing your duties within that operational activity.

IV. COORDINATION STRUCTURE

Was the communication with Frontex Coordinating Staff and national authorities of the host countries regular and sufficient for an effective cooperation? How do you assess the overall coordination of the activity in which you were involved (*the strongest and the weakest points*)? What are your suggestions to achieve better results?

The coordination and the communication with the LCC worked really well. I could contact him if I needed something or also for questions.

Please assess your integration within your respective team (*border management team, migration management team, return team*).

Soso, sometimes I was more involved, sometimes less.

V. FUNDAMENTAL RIGHTS

How do you assess the fundamental rights compliance within the operational activity you were deployed to (*identifying and referring vulnerable persons to the competent authorities, including those in need of international protection; respect of the Code of Conduct; information of the migrant about Frontex complaints mechanism*)?

In this time it was difficult in Croatia with the irregular migrant situation. It was also present on TV. But those problems were only on the green border. Cases like this were not on the BCP.

VI. ADDITIONAL INFORMATION

Are there any comments/suggestions you would like to add? What developments (solutions) would you propose to the operational activity?

To be filled in by the participant

FEEDBACK FROM PARTICIPANT

The participants of the operational activity are invited to fill in this template and submit to Frontex on a voluntarily basis within 7 calendar days after their deployment in the respective location of the operational activity, thus complementing the operational debriefing. The requested feedback is of high importance for the improvement, evaluation, further development and implementation of future operations. The feedback should be submitted via e-mail at [\[Address of respective operational activity\]](#).

I. PLANNING PHASE

What are the strong and weak points of the planning phase arrangements? (Operational Plan, information about deployment, financial arrangements, access to Frontex information systems, such as JORA, FOSS, etc.)

The planning phase has been done from NFPOC in Switzerland, I received all the information that I need and Frontex provided the access to Foss, all this arrangement provided to make my employment clear with all the information to perform the tasks.

II. PRE-DEPLOYMENT ACTIONS

How helpful was the pre-deployment on-line training for performing your duties? What kind of additional topics would you suggest to be added in order to improve the performance of the Standing Corps members during Frontex coordinated activity?

I didn't receive any training, I'm already trained as a Border Guard in my country, I was following the online

operational briefing, of course it is related the actual situation and it was related also to my deploying area.

Which parts/topics of the Operational Briefing did you find most important as a participant? What kind of information was missing from your perspective, which you deem relevant to be included?

Well, in my opinion the information was be done are sufficient, further or more info we can find in Foss.

III. LOGISTICS/PRACTICAL ARRANGEMENTS

What were the logistical challenges prior to and during your deployment? (*accommodation, working conditions, health and safety, others*)

While in the Covid-19 period, I felt safe thanks to the measures taken both by the hotel that hosted me as well as at work. I have not encountered any problems at the logistic level.

Please assess the suitability of the technical equipment provided by Frontex for the tasks assigned during your deployment. Is there any other type of equipment that you would find useful for your duties?

Where I was employ, Frontex has made available an office with wi-fi network. As [REDACTED] all the equipment in the second line is missing. I'm a Swiss category 3 agent, for this reason I have access to databases such as [REDACTED]. Frontex lacks in this area and missing equipment for forensic examination of documents. Clearly, this affects the quality and professionalism in the drafting of document alerts.

Only for Standing Corps Category 1 (if applicable)

Please present pros and cons as regards the elements of Frontex uniforms, personal equipment, weapons (*lethal and non-lethal*) or other equipment provided for performing your duties within that operational activity.

Was the communication with Frontex Coordinating Staff and national authorities of the host countries regular and sufficient for an effective cooperation? How do you assess the overall coordination of the activity in which you were involved (*the strongest and the weakest points*)? What are your suggestions to achieve better results?

Yes, it was regular and sufficient.

Please assess your integration within your respective team (*border management team, migration management team, return team*).

In my case on the border team, I found a good collaboration and sufficient integration.

V. FUNDAMENTAL RIGHTS

How do you assess the fundamental rights compliance within the operational activity you were deployed to (*identifying and referring vulnerable persons to the competent authorities, including those in need of international protection; respect of the Code of Conduct; information of the migrant about Frontex complaints mechanism*)?

Nothing to say, no case found concerning the subject

VI. ADDITIONAL INFORMATION

Are there any comments/suggestions you would like to add? What developments (solutions) would you propose to the operational activity?

I reiterate the problem described in paragraph 3

I. PLANNING PHASE

What are the strong and weak points of the planning phase arrangements? (Operational Plan, information about deployment, financial arrangements, access to Frontex information systems, such as JORA, FOSS, etc.)

The national and online briefing from Frontex gave me all the important information.

II. PRE-DEPLOYMENT ACTIONS

How helpful was the pre-deployment on-line training for performing your duties? What kind of additional topics would you suggest to be added in order to improve the performance of the Standing Corps members during Frontex coordinated activity?

7 [REDACTED] gave me all the information.

Which parts/topics of the Operational Briefing did you find most important as a participant? What kind of information was missing from your perspective, which you deem relevant to be included?

The information about the counterfeiting and migration situation was very helpful.

* Participating MS refers to the MS of origin deploying the Standing Corps officer or other participant.

III. LOGISTICS/PRACTICAL ARRANGEMENTS

What were the logistical challenges prior to and during your deployment? (*accommodation, working conditions, health and safety, others*)

Nothing special, traveling with the weapon was no problem.

The confirmation of deployment document for the permit was available. All logistic was made by MS NFPOC.

Please assess the suitability of the technical equipment provided by Frontex for the tasks assigned during your deployment. Is there any other type of equipment that you would find useful for your duties?

The internet was unfortunately very slow and did not always work. The Frontex card arrived in the third week of deployment. At FP we would need new equipment for checking documents ([REDACTED] ...) 7

IV. COORDINATION STRUCTURE

Was the communication with Frontex Coordinating Staff and national authorities of the host countries regular and sufficient for an effective cooperation? How do you assess the overall coordination of the activity in which you were involved (*the strongest and the weakest points*)? What are your suggestions to achieve better results?

Very good, you had a regular exchange with the local coordinator and the Frontex team. If you had any questions you could always contact them.

Please assess your integration within your respective team (*border management team, migration management team, return team*).

I was very integrated; very welcome and accepted as a team member.

V. FUNDAMENTAL RIGHTS

How do you assess the fundamental rights compliance within the operational activity you were deployed to (*identifying and referring vulnerable persons to the competent authorities, including those in need of international protection; respect of the Code of Conduct; information of the migrant about Frontex complaints mechanism*)?

The code of conduct was respected at all times.

VI. ADDITIONAL INFORMATION

Are there any comments/suggestions you would like to add? What developments (solutions) would you propose to the operational activity?

No suggestions, everything was satisfactory.

I. PLANNING PHASE

What are the strong and weak points of the planning phase arrangements? (Operational Plan, information about deployment, financial arrangements, access to Frontex information systems, such as JORA, FOSS, etc.)

We got all the information we need from our Nfpoc and the FTSO. Very happy with this.

II. PRE-DEPLOYMENT ACTIONS

How helpful was the pre-deployment on-line training for performing your duties? What kind of additional topics would you suggest to be added in order to improve the performance of the Standing Corps members during Frontex coordinated activity?

I didn't have this online training.

Which parts/topics of the Operational Briefing did you find most important as a participant? What kind of information was missing from your perspective, which you deem relevant to be included?

The specificity of the area.

* Participating MS refers to the MS of origin deploying the Standing Corps officer or other participant.

III. LOGISTICS/PRACTICAL ARRANGEMENTS

What were the logistical challenges prior to and during your deployment? (*accommodation, working conditions, health and safety, others*)

The problem of communication during the patrol when we were with a Greek colleague who was not able to speak good English.

Please assess the suitability of the technical equipment provided by Frontex for the tasks assigned during your deployment. Is there any other type of equipment that you would find useful for your duties?

Very good. We got all the equipment for covid protection.

Good except the problem of communication I already explained above.

Please assess your integration within your respective team (*border management team, migration management team, return team*).

Very good. We have been well integrated and we had a great time.

V. FUNDAMENTAL RIGHTS

How do you assess the fundamental rights compliance within the operational activity you were deployed to (*identifying and referring vulnerable persons to the competent authorities, including those in need of international protection; respect of the Code of Conduct; information of the migrant about Frontex complaints mechanism*)?

Good. We had no issues with fundamental rights not respected.

VI. ADDITIONAL INFORMATION

Are there any comments/suggestions you would like to add? What developments (solutions) would you propose to the operational activity?

Which parts/topics of the Operational Briefing did you find most important as a participant? What kind of information was missing from your perspective, which you deem relevant to be included?

The topic point of the operational Briefing is the possibility to know the FTSO and the chief of the Area. Another important thing is that all was explained in the Briefing and then distributed to us via e-mail. (Power point presentation, e-mail, schedules,...).

III. LOGISTICS/PRACTICAL ARRANGEMENTS

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

Après avoir passé 5 semaines sur place nous n'avons pas rencontré un seul migrant durant notre déploiement dans notre zone d'activité.

² [REDACTED] Il est vrai que suite à l'ouvrage d'une barrière de 12,5 km construite entre le BCU de [REDACTED] jusqu'au fleuve Evros, celle-ci laisse que peu de chance aux éventuels passages de migrants.

D'autre part, le secteur est sécurisé par de nombreuses [REDACTED] ainsi que par l'armée (positions fixes et statiques). ⁷

Nous étions donc un échelon supplémentaire en cas  e besoin.

Les rapports Frontex, font toutefois état de quelques passages dans le sud de la région de [REDACTED].

5. Working conditions

Issues, working with local authorities and with Frontex

Aucun souci rencontré lors du déploiement, nous étions toujours accompagnés d'un agent de police Grec qui parlait bien l'anglais.
Il faut savoir que 400 jeunes agents de police viennent d'être formés (4 mois d'école) l'été dernier et sont maintenant affectés aux contrôles en frontières.

Nous étions également quasiment chaque jour engagés avec 2 patrouilles de Police [REDACTED] avec qui nous entretenions d'excellents contacts.

4 3
Quant à Frontex, nous recevions les informations nécessaires via les [REDACTED].
La majorité des communications se déroule via [REDACTED].

7
Nous avons également eu la visite lors d'un service, d'une délégation Frontex venue sur place dans la région.

6. Personal Evaluation

6.1 Equipment and Training

(Insufficient, good, sufficient and with explanations)

Comme à chaque mission, nous disposons d'un très bon équipement et de qualité.

Le véhicule de service est idéal pour ce genre de terrain.

Les nouveaux abonnements Swisscom avec communications illimitées + 10Go de data = parfait.

7
Il serait malgré tout bien d'intégrer dans le véhicule une paire de [REDACTED] (j'ai déjà fait par 3 fois cette demande...). En cas d'engagement [REDACTED] ceci est plus que nécessaire pour assurer la coordination entre nous. 7

7
Une [REDACTED] serait également plus sécuritaire, notamment lors des déplacements (voyages avec matériel).

7
Côté [REDACTED], celle-ci est parfaite et adéquate. Il serait juste bien de voir si un détail pourrait être modifié.

En effet, il serait pratique de pouvoir fermer le véhicule en pouvant laisser l'accès au coffre déverrouillé. Ceci notamment si nous devons fermer le véhicule [REDACTED] 7

7 [REDACTED]

7 [REDACTED] → jamais utilisé, prend beaucoup de place pour rien.

6.1 Accommodation and Transport

(Insufficient, good, sufficient and with explanations)

Transport + accommodation durant les voyages = parfait.

Sur place = Hôtel + personnel agréables.

7. Personal Evaluation

7.1 Operational experiences

(positive/negative)

1 [REDACTED] →

Bonne collaboration avec les collègues Frontex et Police Locale

3

Travail ennuyeux et pas adapté pour un [REDACTED].

L'hôtel n'était également pas adéquat pour un [REDACTED].

7

1 [REDACTED] →

Je relève également une très bonne collaboration et une parfaite entente avec nos collègues Frontex.

Il est vrai que pour le travail effectué sur place, l'engagement d'un [REDACTED] 3

7 [REDACTED] n'est pas idéal. Frontex aurait pu engager le [REDACTED] dans un autre environnement plus adéquat. 7

La situation actuelle plutôt calme pour la région contraste nettement avec celle vécue l'année dernière. Ceci ainsi que les récentes mesures prises (construction de la barrière, armée, nouveaux policiers...) est également à prendre en considération, et explique le peu d'activité durant notre déploiement.

7.1 Conclusion

1 [REDACTED] →

Pour ce genre de mission en statique ou le [REDACTED] 7 n'est pas utilisé cela ne sert à rien d'envoyer un [REDACTED]. En effet, cela fait beaucoup trop de contraintes pour ne pas l'utiliser. 3

1 [REDACTED] →

Bien que notre travail sur place n'a pas été des plus gratifiants, nous avons quand même marqué notre présence et motivation à la tâche.

Je regrette cependant le peu d'activité et surtout le manque de réaction de Frontex voire des autorités locales. 7 

Avec notre véhicule ainsi que le [REDACTED], nous aurions certainement été plus efficace et sollicités dans d'autres régions de Grèce (notamment sur [REDACTED] où nous avons œuvré l'année dernière). 2

8. Remarks and suggestions

1 [REDACTED] →

3

Lors de l'envoi d'une [REDACTED], il est vraiment important de savoir avant la mission le type de travail à effectuer sur place.

La mission s'est bien déroulée et bonne collaboration avec mon collègue.

1 [REDACTED] →

Malgré le peu d'activité nous avons pu entretenir d'excellents contacts avec nos collègues d'autres pays, ceci apporte toujours une plus-value et me permet d'agrandir le réseau de contacts.

Quant à la collaboration avec mon binôme et son [REDACTED], celle-ci a été, comme l'année dernière très bonne. 7

Reporting time: 24.01.2020 – 26.02.2020

Operation / Location: FOA 2021 [REDACTED] 2

Profile: [REDACTED] 3

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

Bei unseren Patrouillenfahrten und Überwachungen im Einsatzgebiet [REDACTED] 2 konnten keine Migranten oder Schlepper festgestellt werden. Gemäss lokalem Mitarbeiter ist die Lage ruhig.

Am Dienstag 02.02.2021 soll im benachbarten Einsatzgebiet [REDACTED] 2 drei Migranten aufgegriffen worden sein. Zwei Wochen später am 17.02.2020 soll ebenfalls in [REDACTED] 2-3 2 Migranten durch das dort eingesetzte [REDACTED] 3 Frontex-Team angehalten worden sein.

Durch Kpl [REDACTED] 1 wurde am 20.02.2020 im Einsatzgebiet [REDACTED] 2 ein Sprengkörper (vermutlich «Mills Bomb» aus Partisanenzeit 1941-1949) festgestellt. Die zuständige Polizeistation wurde avisiert. Am Montag 22.02.2020 übernahm die Kampfmittelbeseitigung der Armee die weitere Erledigung.

2. Situation Forged Documents (only [REDACTED]) 3

3. Health and General Safety Situation

Covid-19, etc.

Aufgrund der COVID-19 Pandemie gab es zu Beginn die Auflage, dass sich alle Personen in eine 7 Tägige Quarantäne begeben müssen. Bezüglich einer Ausnahme für FRONTEx wurden entsprechende Anfragen gestellt, welche durch das verantwortliche Departement (Innenministerium) erteilt wurden. Aufgrund der Tatsache, dass diese Ausnahme an Bedingungen geknüpft war - Rapid-Tests am ersten, dritten und sechsten Tag - und bereits zwei Drittel der Quarantäne verstrichen war wurde entschieden die verbleibenden Tage ebenfalls in Quarantäne zu verbleiben. Die Entscheidung hierfür wurde durch den FTSO gefällt.

Zusätzliche Restriktionen während dem Einsatz gab es lediglich grösseren Städten wie Athen, wo die Ausgangssperren verlängert wurden.

Positive COVID-19 Fälle, in Bezug auf den Einsatz und des Einsatzgebiets wurden keine bekannt.

4. Others Phenomenon

5. Working conditions

Issues, working with local authorities and with Frontex

In der letzten Einsatzwoche kam es zu verschiedenen Änderungen des Schichtplans, dies da angeblich die Mindestanzahl Stunden, für das eingesetztes Frontex-Personal nicht erreicht wurden. Eine Sonderschichteinlage wurde infolgedessen in letzter Minute, am 16.2 für den folgenden Tag verfügt. Aufgrund der Differenzen zwischen der Stundenabrechnung der Frontex-Mitarbeiter und der griechischen Polizei kann dies auch in Zukunft nicht ausgeschlossen werden.

- 7  Wegen eines Defekts der Zusatzbatterie des Einsatzfahrzeuges, funktionierte zu Beginn die Einsatzmittel () nicht. Diese musste mit der Hilfe eines Fahrzeugverantwortlichen in Bern geprüft werden. Anschliessend konnte mittels Unterstützung unseres Kollegen von der Hellenischen Polizei, ein entsprechender Ersatz organisiert werden. Aufgrund der Art und Weise wie die Zusatzbatterie im Kofferraum befestigt wurde, war es nicht möglich die Batterie resp. die Grundplatte zerstörungsfrei auszubauen. Die Beschädigung hat bezüglich Einsatzfähigkeit keinen Einfluss. Die Reparatur sollte bei Rückkehr des Fahrzeuges veranlasst werden. Während der Zeit des defektes war es nötig das Fahrzeug an das Stromnetz anzuschliessen. Zu diesem Zweck musste ein Übergangsstecker und Verlängerungskabel organisiert werden, das sich im Fahrzeug befindende Kabel ist für eine alleinige Verwendung in der Regel zu Kurz.

Eine Erweiterung der Ausrüstung mit einem CH-EU Adapter und einem längeren Anschlusskabel ist zu prüfen.

7 Bei der Überprüfung des Materials () wurde festgestellt, dass die Akkus des FLIR entladen waren und das Nachtsichtgerät noch eingeschaltet war. Das Laden der Akkus und der Ersatz der Batterien des Nachtsichtgerätes stellt in diesem Fall kein Problem dar.

Um einen erhöhten Organisationsaufwand zu vermeiden, wie z.B. der Austausch eines defekten  wäre es besser, das Material vor der Übergabe in Bern zu überprüfen.

7

6. Personal Evaluation

6.1 Equipment and Training

(Insufficient, good, sufficient and with explanations)

Der Umfang und der Zustand des Materials sowie des Einsatzfahrzeuges war, abgesehen von den oben erwähnten Punkt gut. Dies gilt vor allem für das Einsatzfahrzeug. Aufgrund der Topografischen Verhältnisse (Schnee, Unbefestigte Strasse, etc.) in der Einsatzregion war es mehrfach nötig vom Allrad und der Untersetzungsfunktion des Fahrzeuges Gebrauch zu machen.

Diesbezüglich wäre die Durchführung eines Offroad Fahrkurses wünschenswert. So könnte die Sicherheit das Fahren eines solchen Fahrzeugs, in den Bergen und bei entsprechenden Verhältnissen verbessert werden.

6.1 Accommodation and Transport

(Insufficient, good, sufficient and with explanations)

Die Unterbringung im gebuchten Hotel ² [REDACTED], war für die Dauer von ein paar Wochen in Ordnung. Für eine längere Unterbringung ist dies jedoch aufgrund der Grösse und Ausstattung nicht empfehlenswert.

Bezüglich der Unterbringung auf dem Kreuzfahrtschiff während der Überfahrt von Italien nach Griechenland wäre eine Aussenkabine wünschenswert. Dies vor allem dann, wenn auf dem Schiff aufgrund der wenigen Buchungen so viele Kabinen frei sind.

Die Unterbringung zum Schluss im ² [REDACTED] war sehr gut und entspricht den Bedürfnissen.

7. Personal Evaluation

7.1 Operational experiences

(positive/negative)

Gemäss den lokalen Behörden kommt es, aufgrund der Nähe zu Albanien, in der Grenzregion um den BCU [REDACTED] öfters zu Aufgriffen im Bereich des Drogenschmuggels und weniger der Migration. ²

Durch die aktuelle Pandemie galten während des Einsatzes für die Bevölkerung verschiedene Einschränkungen. Diese umfassten unter anderem Ausgangssperren und Reisebeschränkungen. Zusammen mit der Tatsache, dass auch kleiner Grenzübergänge geschlossen waren und teils winterliche Verhältnisse herrschten war die Lage eher ruhig.

Die Zusammenarbeit mit den lokalen Behörden wie der hellenischen Polizei aber auch z.B. dem griechischen Militär empfand ich als sehr angenehm. Als negative Punkte sehe ich vor allem die kurzfristige Änderung der Einsatzpläne wie oben bereits erwähnt.

7.1 Conclusiones

Insgesamt empfand ich den Einsatz als sehr interessant und erfahrungsreich.

Spezielle Feststellungen / Modus Operandi:

Vermerkt wurden versuchte illegale Migrationsbewegungen von Griechenland nach Italien mit Fähren registriert. Patra und Igoumenitsa sind die beiden wichtigsten Häfen mit entsprechenden Fährverbindungen nach Italien. Die Ausreise erfolgt dabei mit Verwendung von gefälschten Dokumenten oder in Verstecken in Transportmitteln. Es sind nur wenige Vorfälle mit Beteiligung von Fahrervermittlern bekannt. In einigen Fällen konnten jedoch mit Zustimmung des Fahrers speziell angefertigte Verstecke innerhalb der Ladung von LKWs festgestellt werden, die sich sowohl für den Transport von Drogen oder Schmuggelgut als auch Migranten eignen. Die Verwendung von teuren Autos für den Transport von Migranten wird ebenfalls registriert. Bei den Migranten handelt es sich hauptsächlich um Personen aus Afghanistan (im Zusammenhang mit dem allgemeinen Anstieg der Anlandungen von Afghanen).

Verstösse / Rechtsverletzungen:

Während der Einsatzzeit wurden mehrfach Belästigungsmanöver registriert, bei denen sich türkische Küstenwache- oder Militärboote an der Grenzlinie oder teilweise auch bereits in den territorialen griechischen Hoheitsgewässern an Frontex-Patrouillenboote annäherten. Die Annäherungen erfolgten dabei oftmals in einer Weise, welche nicht im Einklang mit den internationalen Navigationsregeln standen und eine Gefahr darstellten. Aufgrund der Annäherungswinkel in Kollisionskurs waren die Patrouillenboote der Frontex mehrfach gezwungen, die Motoren zu stoppen, um den türkischen Küstenwache- oder Militärbooten auszuweichen und eine Kollision zu vermeiden. Zudem verursachten die Annäherungen mit grosser Geschwindigkeit jeweils grosse Wellen, die sowohl die Besatzung als auch die Frontex-Patrouillenboote selbst in Gefahr brachten und eine unsichere und instabile Sicherheitslage schufen.

Covid-19, etc.

Persönlich:

- Negativer Covid-PCR-Test am 13.06.2021
- Erstimpfung am 14.06.2021 (Moderna)
- Termin Zweitimpfung am 19.07.2021

Situation Griechenland:

- Sicherheit: NTR
- Covid-Situation:
 - o Im Verlauf der Einsatzzeit war zu Beginn eine abnehmende und gegen Ende des Einsatzes eine sehr stark zunehmende Tendenz von Neuinfektionen und Todesfällen in Griechenland zu verzeichnen.
 - o Die angeordneten Covid-Schutzmassnahmen waren tendenziell strenger als in der Schweiz (Maskentragpflicht im Freien, Testpflicht auf Fähren etc.), wurden nach meinen Beobachtungen jedoch nur ungenügend eingehalten.

5. Working conditions

Issues, working with local authorities and with Frontex

- Ich wurde am 16.06.2021 vom leitenden FOC und FTSO sowie vom Team freundlich empfangen. Es erfolgte eine gute Einweisung in die zu erfüllenden Aufgaben und Verantwortlichkeiten durch den direkten Vorgesetzten [REDACTED] ([REDACTED]). Über die allgemeinen administrativen Angelegenheiten und die Vorgaben von Frontex wurde ich durch den FOC im Rahmen eines guten und informativen operationellen Briefings orientiert. Im Weiteren wurden zu Beginn des Einsatzes die erforderlichen Ausweise und Badges für den Zugang zu den Büroräumlichkeiten sowie diverse Broschüren von Frontex abgegeben (Verhaltenskodex, Asylprozesse, Menschenrechte etc.)
- Die Arbeitszeiten waren klar geregelt ([REDACTED])
- 1 [REDACTED] (FOC) merkte zu Beginn an, dass für ihn persönlich ein Einsatz als Guest für die Dauer von nur einem Monat und gleichzeitig zusammen mit einem fixen [REDACTED] wenig Sinn macht (zu kurze Einsatzzeit, keine Aufgabenerledigung in Eigenverantwortung, weshalb man von einem solchen Einsatz auch persönlich wenig profitiert). Ich teile diesbezüglich seine Ansicht im Falle einer Einfachbesetzung.

6. Personal Evaluation

6.1 Equipment and Training

(Insufficient, good, sufficient and with explanations)

- Ausstattung Material - gut:
 - o Der Arbeitsplatz war gut eingerichtet [REDACTED] und am ersten Tag wurde mir ein Laptop von Frontex zur Verfügung gestellt (das Arbeiten mit EZV-IKT-Mittel ist nicht erforderlich).
- Ausstattung Zugriffe auf IT-Umgebung - unzureichend:
 - o Die Zugriffe zum Rapport-System [REDACTED] (Rolle als [REDACTED]), zum eigenen Mailaccount und zu den Postfächern des ICC standen mir leider erst rund zwei Wochen nach Einsatzbeginn zur Verfügung! Diese Zugriffe sind für die Aufgabenerledigung des [REDACTED] unverzichtbar und daher dringend vor Einsatzbeginn zu beantragen und freizugeben.
 - o Die selbständige Erfüllung der zugewiesenen Aufgaben wäre mir aufgrund der dargestellten Umstände während längerer Zeit nicht möglich gewesen. Da die Funktion des [REDACTED] während meines Einsatzes doppelt besetzt war, bestand meine Aufgabe in erster Linie in der Unterstützung des längerfristig eingesetzten [REDACTED] .
- Schulung - unzureichend:
 - o Bei Einsatzaufnahme wurden mir die Guidelines bzw. das "Manual" für den [REDACTED] zur Verfügung gestellt. Es wäre sehr hilfreich gewesen, dieses bereits vor dem Einsatz zur Verfügung zu haben. Das vorgängige Studium dieses Dokuments hätte die Einarbeitungszeit wesentlich verkürzt (gerne stelle ich dieses Manual den zukünftig als [REDACTED] im Einsatz stehenden Mitarbeitenden der EZV zur Verfügung und schlage als Vorbereitung zudem ein Erfahrungsaustausch mit den Betroffenen vor deren Einsatz vor).

6.2 Accommodation and Transport

(Insufficient, good, sufficient and with explanations)

- Flüge – **gut**:
 - Die Flüge und das Hotel waren durch die Bundesreisezentrale gut organisiert und die entsprechenden Reservationen und Tickets wurden rechtzeitig zur Verfügung gestellt. Das Zusatzgepäck konnte problemlos vor den Abflügen dazu gebucht werden.
- Unterkunft – **ungenügend**:
 - 2 ○ Das Hotel [REDACTED] ist als Unterkunft nicht zu empfehlen (alt und sehr abgenutzt, unbequeme Betten, mangelhafte Sauberkeit, keine tägliche Reinigung aufgrund Covid-Vorschriften, starke Lärmemission da direkt an der Hauptverkehrsachse von Piräus gelegen, Lage aufgrund der grossen Distanz zum Arbeitsplatz nicht optimal, 40min Gehzeit und mit ÖV nur schlecht zu erreichen).
 - Aufgrund eines Besuchs bei einem Arbeitskollegen empfehle ich als Alternative das [REDACTED] Hotel [REDACTED] 2
- Transport – **ausreichend**:
 - Monatskarte für den öffentlichen Verkehr ist dennoch zu empfehlen (Athens-Card, für alle Verkehrsmittel im Grossraum Athen exkl. Flughafen, 27 Euro).
 - Gratis-Shuttle im inneren der Hafenanlage mit Halt vor dem Arbeitsplatz (verkehrt nur in unregelmässigen Zeitabständen)

7. Personal Evaluation

7.1 Operational experiences

(positive/negative)

- **Positiv**:
 - Der Einsatz hat mir einen guten ersten Einblick über die Organisation und die operativen Aufgaben von Frontex vermittelt. Zu erwähnen ist natürlich, dass 3 man bei einem Einsatz als [REDACTED] in einem International Coordination Centre (ICC) einen umfassenderen Einblick in die Tätigkeiten von Frontex erhält, als dies bei 3 einem Einsatz als [REDACTED], [REDACTED] oder [REDACTED] der Fall sein dürfte. 3/3
 - Durch den gleichzeitigen Einsatz eines [REDACTED] mit längerfristigem Deployment war es möglich sich sorgfältig einzuarbeiten und so rasch einen guten Überblick über die zu erledigenden Aufgaben zu gewinnen. Die Aufgabenerledigung erfolgte so während des gesamten Einsatzes unter Arbeitsteilung mit dem längerfristig eingesetzten [REDACTED]. 3
 - Am 29.06.2021 wurde ich im Namen des Botschafters Olaf Kjelsen auf einen Kaffee und Austausch auf der schweizerischen Botschaft in Athen eingeladen, und durfte einen Einblick in meine Tätigkeit vor Ort zu geben. In Rücksprache 1 mit [REDACTED] habe ich dieser Einladung zugesagt. Die entsprechende Absenz vom 16.07.2021 (letzter Arbeitstag) war mit dem zuständigen Leiter des 2 ICC [REDACTED] vereinbart und bewilligt.
 - Im Gespräch erkundigte sich der Botschafter insbesondere über die Aufgaben und die organisatorische Einbettung der Funktion des [REDACTED] bei 3 Frontex, die Zusammenarbeit mit Mitarbeitenden und anderen Behörden sowie über die persönliche Erfahrung und Beurteilung des Einsatzes. Das Gespräch war angenehm und beinhaltete keine Fragen zu speziellen Vorfällen oder Frontex-internen Informationen.

- **Negativ:**

- o Siehe auch Pt. 5, 6.1 und 6.2
- o Hätte ich die Funktion als alleiniger  ländiger  umgehend übernehmen müssen wäre ich zu wenig darauf vorbereitet gewesen. Die Übergabe und Einführung in üblicherweise 1-2 Tagen hätte nicht ausgereicht. Zudem unterscheiden sich die Aufgaben des  offenbar je nach Einsatzgebiet. So haben sich die bei einem LCC eingesetzten 's im Unterschied zu einem ICC auch mit der Eingabe und Validierung von Vorfällen im Rapportsystem JORA sowie weiteren Aufgaben zu befassen, was mehr Verantwortung und Arbeitslast mit sich bringt und entsprechende Vorkenntnisse der elektronischen Systeme bedingt.
- o Die Unterstellungsverhältnisse und Verantwortlichkeiten im ICC waren unklar und es gab zahlreiche Wechsel beim Personal vor Ort. Bis am Ende des Einsatzes war mir nicht klar, wem der  letztlich innerhalb des ICC unterstellt ist und wer für was verantwortlich war. Im Weiteren spürte ich eine gewisse Zurückhaltung seitens der FOC, NO und FTSO im Umgang mit den 's. Ich führe das darauf zurück, dass diesen ebenfalls nicht ganz klar ist, was unsere Aufgabe ist und wem wir unterstellt sind (die  rapportieren meist direkt nach Warschau und innerhalb des eigenen ).

7.2 Conclusion

- Der Einsatz war interessant und hat mir alles in allem Spass gemacht.
- Die Aufgaben bestanden zwar mehrheitlich in der Überprüfung und dem Quervergleichen von vorliegenden Daten, was sich aber aufgrund der neuen, unbekannten Materie doch auch als ansprechend und spannend erwies.
- Insgesamt profitierte ich vor allem mit dem Kennenlernen der Organisation Frontex und damit verbunden von den entstandenen Kontakten mit den Team-Kollegen.
- Im Weiteren konnte ich auch meine Sprachkompetenz in Englisch ein wenig verbessern.
- Aufgrund des persönlichen Interesses an der "Front" mitzuwirken und aufgrund meiner beruflichen Qualifikationen und Erfahrungen würde ich jedoch einen künftigen Einsatz als Debriefler bevorzugen.

8. Remarks and suggestions

- Siehe Pt. 5 - 7
- 3 - Der Einsatz als  ist aufgrund des benötigten Vorwissens und der Komplexität nur für Poolmitglieder welche bereits Frontex-Erfahrung haben sowie nur für einen längerfristigen Einsatz (mind. 2-3 Monate) oder aber in Doppelbesetzung zu empfehlen.

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

In einem Fall waren in einem, in der Türkei, immatrikulierten Bus, 6 Personen unter dem Personen Gang versteckt. Die Versteckten Personen konnten keine Pässe vorweisen. Sie gaben an aus dem Irak zu sein.

Im 2. Fall waren 7 Palästinenser mit DEU Aufenthaltstitel in einem, in Deutschland immatrikulierten, Van unterwegs Richtung Deutschland. Bei der Durchsuchung des Fz fanden sie 2 versteckte, minderjährige Kinder, welche nur über PSE Pässe ohne Aufenthaltstitel verfügten.

Die Palästinensischen Pässe werden nur von 3 Schengenstaaten anerkannt, u.a. von Deutschland.

Es wurden diverse Einreiseverweigerungen ausgesprochen. Viele Türken ohne Visum, oder ohne genügend Geld. Ebenfalls gab es viele SIS Treffer/Einreiseverweigerungen bei Georgiern. Oft haben sie die Namen geändert.

2. Situation Forged Documents (only [REDACTED]) 3

Special cases, special forgeries, etc.

Diverse totalgefälschte Führerscheine, vor allem aus Polen und Schweden. Diese wurden von Türkischen Staatsangehörigen mit Aufenthalt im jeweiligen EU-Land vorgewiesen.

3 totalgefälschte FRA «Récépissé constatant le dépôt d une demande d asile».

Ebenfalls vorgewiesen von Türkischen Staatsangehörigen.

3. Health and General Safety Situation

5. Working conditions

Issues, working with local authorities and with Frontex

Das Büro vor Ort ist sehr gut ausgerüstet. Das WLAN ist sehr stark.

- 3 Ich habe zusammen mit einer Frontexmitarbeiterin Kat. 1 gearbeitet. Sie war als [REDACTED] im Einsatz. [REDACTED] 7

Die Zusammenarbeit mit einem Guest Officer Kat. 2 oder 3 wäre einfacher gewesen.

6. Personal Evaluation

6.1 Equipment and Training

(Insufficient, good, sufficient and with explanations)

- Unsere Ausrüstung war, wie immer perfekt. Was mühsam ist, dass man [REDACTED] 7
2 immer in [REDACTED] bei der Polizeistation deponieren muss und diese nicht am Grenzübergang lassen kann.

6.1 Accommodation and Transport

(Insufficient, good, sufficient and with explanations)

- Die Unterkunft im [REDACTED] war perfekt. Ebenfalls das Mietauto gibt einem viele Freiheiten. 2

7. Personal Evaluation

7.1 Operational experiences

(positive/negative)

Der Secondline Officer kam zu uns, wenn er Fragen hatte. Das lief relativ gut.

Ich hatte mehr erwartet, dass wir vor Ort in einem gemischten Team mit Guestofficern und Bulgaren zusammenarbeiten. Das war leider nicht der Fall. Ebenfalls war es schwierig um mit den Bulgaren ins Gespräch zu kommen, da sie über keinen Aufenthaltsraum verfügen, wo man mal zusammen hätte Kaffee trinken können. Unser Schichtleiter konnte kein Englisch sprechen, dementsprechend war es nicht immer so einfach.

Sie haben hier ein sehr gut ausgerüstetes Urkundenlabor. Sie haben hier alle Fälschungen selber entdeckt. Aus meiner Sicht braucht es hier vor allem Experten für gestohlene Fahrzeuge. Deutsch ist hier auch sehr wichtig, da hier sehr viele Deutsche, Österreichische und Schweizerische Fz in die Ferien aus- und einreisen.

1 Monat ist, wie überall wo man als Focal Point unterwegs ist, eher zu wenig. Die Leute kommen erst auf einen zu, wenn man sich langsam kennt. Hier in Bulgarien war es für mich besonders schwierig weil, wie schon geschrieben, ein Aufenthaltsraum zum gemeinsamen Kaffee Trinken oder Essen gefehlt hat.

7.1 Conclusion

Ich hatte hier eine gute Zeit. Das Kennenlernen der verschiedenen Mentalitäten ist für mich immer sehr spannend. Der Schichtbetrieb fand ich für uns Guestofficers nicht optimal. Gerade zwischen den Nachtstunden von 03.00-06.00 Uhr brauchte es niemanden.

Wie die Bulgaren an diesem riesigen Grenzübergang arbeiten hat mich fasziniert.

Die Kontrollen sind sehr umfänglich. Der Zoll, sowie auch die Polizei nutzen das [REDACTED] 7
7 [REDACTED] für die Fz rund um die Uhr. Die Bilder sind sehr hochwertig. Ebenfalls werden viele Personenwagen vom Zoll kontrolliert.

8. Remarks and suggestions

Für die Übergabe an den nächsten Schweizer Kollegen reichen 2 Tage völlig aus. So wie es nun bei mir war, hatte ich viel ungenutzte Zeit vor Arbeitsaufnahme und auch nach dem offiziellen Debriefing vom 13.07., da meine Rückreise erst am 17.07. war. Niemand wollte, dass ich nach dem Debriefing noch zur Arbeit komme. Schlussendlich konnte ich doch noch einen Tag mit der [REDACTED] Kollegin arbeiten.

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

2

La situazione migratoria nella zona di [REDACTED] era molto calma, l'unica volta che abbiamo visto dei migranti nel nostro settore di impiego era la prima settimana. Gli stessi si trovavano però già alla centrale di Polizia di [REDACTED]. Si trattava di 6 se- 2
dicenti cittadini del Bangladesh, che a loro dire avevano sbagliato strada.

Altri casi con migranti nel settore non ve ne sono mai stati, questo presumibilmente 2
perché l'area è molto montagnosa e difficilmente praticabile, le uniche volte che ab-
biamo avvistato migranti era nel viaggio di ritorno o di andata, fra la città di [REDACTED] 2
e [REDACTED], da informazioni avute grazie al nostro collega svizzero con profilo [REDACTED] a 3
[REDACTED], i migranti sovente arrivano e attraversano il confine in quel punto dirigen-
dosi in Albania. Quindi il routing in quell'area è probabilmente [REDACTED] 2
[REDACTED], anche perché il terreno e la strada è maggiormente pianeggiante e priva di pe-
ricoli o ostacoli naturali, quali montagne e fiumi.

2. Situation Forged Documents (only [REDACTED]) 3

Special cases, special forgeries, etc.

-

3. Health and General Safety Situation

Covid-19, etc.

La situazione COVID nell'area di impiego mi é parsa tranquilla, in quanto i paesi sono semi disabitati e vige uno stretto lock down imposto dalle autorità.

[REDACTED]

7

4. Others Phenomenon

Concerning Switzerland

Niente da dire.

5. Working conditions

Issues, working with local authorities and with Frontex

[REDACTED]

7

La seconda problematica era inerente al livello di inglese delle autorità locali, alcuni agenti che hanno collaborato con noi avevano dimestichezza con la stessa, altri arrivavano forse a 50 vocaboli di base. Per il resto i colleghi che abbiamo avuto sono stati molto collaborativi e veramente delle ottime persone.

6. Personal Evaluation

6.1 Equipment and Training

(Insufficient, good, sufficient and with explanations)

A parte alcuni dubbi iniziali inerenti i rapporti di servizio, i quali sono stati poi prontamente chiariti con la mia collega ed i FTSO, trovo che l'equipaggiamento e la preparazione siano stati più che buoni.

6.1 Accommodation and Transport

(Insufficient, good, sufficient and with explanations)

L'alloggio era molto buono, il viaggio di andata e ritorno, soprattutto nella fase da e per andare all'aeroporto sono state un po' lunghe. Magari in futuro si potrebbe vedere se vi sono dei collegamenti con l'aeroporto di [REDACTED]. 2

7. Personal Evaluation

7.1 Operational experiences

(positive/negative)

Per essere la mia prima missione direi positive, peccato per il poco traffico dovuto alla situazione COVID che non ci ha permesso di lavorare a pieno regime.

7.1 Conclusion

Come prima esperienza in seno a Frontex la reputo positiva, credo che nel prossimo futuro con la situazione COVID migliore vi sarà molto più lavoro da fare.

8. Remarks and suggestions

Nulla da dire.

⁴
We were guarding along a 12km fence, we didn't see a migrant during this month. But it could change in a second, if ⁴ sends out migrants to the borders like it happened one year ago. So I still see the sense why they send Frontex officers to this area.

7.1 Conclusion

I would do this mission everytime again, it was very nice and I made a lot of good experiences, during work with the Greeks as well as during private time with the colleagues from different countries.

Positive: It was nice to see another BCP at the external border, and to make this experience. Negative: I was not getting too involved in their business, because they didn't come to get advices and also they didn't always have a second line officer on duty, which would be necessary to the amount of traffic, in order to make checks.

Operation / Location: JO Focal Points Land / BCP [REDACTED] ²

Profile: [REDACTED] ³

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

Die aktuelle Lage betreffend illegaler Migration ist eher ruhig am BCP [REDACTED]. Es gab im letzten Monat ein Fall eines Kosovaren, der versuchte in der Nähe des BCP die Grenze illegal zu überschreiten.

Die anderen festgestellten illegalen Grenzübertritte fanden alle an der grünen Grenze statt, teilweise mit Hilfe von Menschenschmugglern, die mit ihren Fahrzeugen die Personen transportieren oder nach der Grenze auf sie warteten.

2. Situation Forged Documents (only [REDACTED]) ³

Special cases, special forgeries, etc.

Keine relevanten Ereignisse, einige gefälschte PCR Zertifikate konnten festgestellt werden, hauptsächlich von ALB.

3. Health and General Safety Situation

Covid-19, etc.

In Kroatien gibt es wenige Massnahmen, alle Restaurants müssen um Mitternacht schliessen, es gilt Maskenpflicht in den Geschäften, wenige halten sich aber daran. Man braucht für die Einreise nach Kroatien ein gültiges Covid-19 Zertifikat, Ausnahme für den Transit durch Kroatien, dafür hat man 12 Stunden Zeit.

Eine Zertifikatspflicht für Restaurants, Museen etc., gibt es nicht, ausser für Spitalbesuche.

Im Frontex Büro sind genügend Handschuhe und Gesichtsmasken vorhanden, auch stehen in jeder Kontrollkabine Handdesinfektionsspender.

4. Others Phenomenon

Concerning Switzerland

Feststellung diverser SIS Treffer, verdeckte Registrierung, verlorene Dokumente etc.

Diverse Versuche von Kosovaren nach BIH zu reisen, diese wissen jeweils nicht, dass dies nicht möglich ist, da BIH den Kosovo nicht als Staat anerkennt.

Diese Personen werden jeweils darauf hingewiesen, dass Bosnien sie nicht einreisen lässt. Sie sollen umkehren und den Weg via Dubrovnik - Montenegro nehmen, dies wäre möglich, da es sich dort nur um eine Transitstrecke durch Bosnien handelt. Bedeutet aber einen Umweg von 3 Stunden.

5. Working conditions

Issues, working with local authorities and with Frontex

Es war sehr angenehm mit den lokalen Behörden zusammen zu arbeiten, man wurde sehr gut integriert und akzeptiert. Obwohl einige kein Englisch sprechen.

Wichtig finde ich, dass man ihnen zeigt, dass man da ist bei ihnen auf der Strasse und arbeiten möchte, dann kommen sie auch auf einem zu.

Auch mit den anderen Frontex Member war der Austausch sehr gut, teilweise speziell mit der Kat. 1., [REDACTED] 6

6. Personal Evaluation

6.1 Equipment and Training

(Insufficient, good, sufficient and with explanations)

Als [REDACTED] kann man nur mit seinem eigenen Equipment arbeiten ([REDACTED] 3/7 [REDACTED]), da es leider auf dem BCP kein [REDACTED] gibt. 7

Aber sonst war alles zufriedenstellend, der Zugriff auf alle [REDACTED] war jederzeit möglich, obwohl das Internet sehr langsam war. 7

Auch die Vorbereitung auf den Einsatz war ausreichend, alle wichtigen Informationen erhält man an den diversen Briefings und die Unterlagen für den Einsatz (Flugplan, Mietauto etc.) erhält man mit einem separaten USB-Stick, was ich sehr nützlich finde.

6.1 Accommodation and Transport

(Insufficient, good, sufficient and with explanations)

Hotel:

Die Unterkunft war ok für einen Monat. Sie waren jederzeit sehr hilfsbereit und konnten einem bei Fragen weiterhelfen. Da es ein kleines Hotel ist, wussten sie immer wer man ist, was man zum Frühstück wollte etc.

Leider bieten sie ausser Frühstück keine Verpflegung an. Das gute war, dass ich einen Kühlschrank und einen Wasserkocher im Zimmer hatte.

Auch befindet sich das Hotel direkt an der sehr gut befahrenen Hauptstrasse, die Fenster sind schlecht isoliert. Zudem werden momentan in der ganzen Stadt die Trottoirs neu gemacht, das heisst ohne Oropax konnte man nicht schlafen.

In der letzten Woche habe ich durch einen Arbeitskollegen vom kroatischen Zoll erfahren, dass er ein Appartement habe, dass er auch schon an Frontex Leute vermietet habe. Auf Grund dieser Information konnte ich dann meiner Nachfolgerin, diesen Kontakt vermitteln.

Mietauto:

Ich war sehr zufrieden mit meinem Mietauto, Renault Clio, neues Modell. Die Übernahme am Flughafen Split verlief reibungslos, es wurde mir alles erklärt.

Für mich war die Grösse perfekt, da man in Kroatien immer Parkplätze suchen muss.

Auch war es mit allen neusten Technologien ausgestattet.

Die Rückgabe verlief schnell und unkompliziert.

7. Personal Evaluation

7.1 Operational experiences

(positive/negative)

Habe viel Neues dazugelernt, wie man an einer Schengengrenzengrenze arbeitet, wie der ganze Ablauf des Betriebes ist, mit den Abfertigungen der Lastwagen, den Reisebussen und den privaten Fahrzeugen.

7.1 Conclusion

Habe viele neue Erfahrungen sammeln können, wie es ist in einem anderen Land zu arbeiten, wie die Bedingungen sind und auch wie das ganze Leben in Kroatien ist, der Lebensstandard.

Man schätzt wieder was man in der Schweiz hat, sei es beruflich oder privat.

Aber das Beste, man lernt viele neue Leute kennen, bis man aber jeden kennt ist der Monat schon fast vorbei.

8. Remarks and suggestions

Ich persönlich würde es vorziehen in einem Appartement untergebracht zu sein.

Da es schon ziemlich erdrückend sein kann, nur in einem Hotelzimmer zu sein, zudem hat man keine Küche um selber was zu kochen.

6.1 Equipment and Training

(Insufficient, good, sufficient and with explanations)

Pour moi il s'agissait de ma première mission. J'ai eu beaucoup de plaisir à y participer et à découvrir le fonctionnement des missions Frontex. Je suis content d'être parti avec [REDACTED] 1 car il parle français et a beaucoup d'expérience et il a pu m'expliquer beaucoup de chose.

Il est important pour un premier engagement de pouvoir s'appuyer sur quelqu'un qui a déjà fait des missions et qui peut nous appuyer et répondre à nos différentes questions.

Je pense qu'il est primordial de partir avec quelqu'un parlant la même langue.

Je pense que la formation et le briefing est suffisant pour pouvoir être déployé comme agent Frontex et avec l'expérience des différentes missions cela deviendra une habitude.

6.1 Accommodation and Transport

(Insufficient, good, sufficient and with explanations)

L'hôtel était parfait. Très belle chambre, petit-déjeuner très bien, repas très bien et le personnel très gentil. Nous avons un parking à disposition pour le véhicule de service. L'hôtel nettoyait nos habits gratuitement et rapidement ce qui est très agréable. Le wifi est aussi de très bonne qualité. Les équipements comme le Fitness et la piscine est un plus non négligeable.

Concernant le trajet, je pense que le mieux est de faire le trajet depuis [REDACTED] 2 comme nous 2 l'avons fait. Il y a également un aéroport à [REDACTED] qui se trouve à 500 mètres de l'hôtel et 2 qui fait des liaisons régulières avec [REDACTED]. Peut-être serait-il possible de faire les arrivées et les départs depuis [REDACTED] ?

2

7. Personal Evaluation

7.1 Operational experiences

(positive/negative)

2

Je pense que le secteur [REDACTED] où nous étions ne devrait pas être forcément tenu par Frontex en tout cas durant l'hiver. En effet, il n'y a aucune route qui relie l'Albanie et les passages sont impossible en montagne actuellement car il y a de la neige. Peut-être qu'il serait plus utile de tenir un autre secteur avec une autre équipe Frontex en alternant les tournus.

Les horaires sont bizarres. En effet, notre première série de travail a duré 8 jours sans congé. Nous avons eu uniquement trois jours de congé isolé durant le mois d'engagement. Nous avons également fait deux fois les matins après une nuit et il est difficile de récupérer.

Nous avons eu un problème avec un collègue grec qui a très vite été réglé. Sinon les autres collègues grecs ont été super sympa avec nous et nous avons pu beaucoup échanger.

Beaucoup de positif durant cette engagement.

7.1 Conclusion

Je suis très content de ma première mission Frontex et je souhaite repartir. Je pense que l'idéal est deux missions par année. J'aimerais également être déployé comme [REDACTED] 3 pour découvrir encore autre chose tout en ayant suivi la formation nécessaire.

6.1 Equipment and Training

(Insufficient, good, sufficient and with explanations)

Good briefing before the deployment with all necessary information. Everything went as planned.

Good equipment for daily service.

6.1 Accommodation and Transport

(Insufficient, good, sufficient and with explanations)

2 The [REDACTED] is on a good spot, close to restaurants, shops etc.

Very good food and swimming pool.

Clean rooms and very friendly and helpful staff.

7. Personal Evaluation

7.1 Operational experiences

(positive/negative)

2

Our operational area, [REDACTED], is surrounded by high mountains determining the border with Albania. Therefore, there is not much cross border activity. The collaboration with Hellenic police officers was very good nevertheless. They know the area very well. Due to changes in the operational needs, most of the equipment useful for border surveillance was moved to the border with Turkey some time ago, thus it is impossible to observe the border without a lot of patrolling and the mountainous streets are taking its toll on the heavy patrol car.

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

- 2 A la station de police de [REDACTED], les ressortissants sont principalement croates et bosniaques. Le coût de la vie étant moins cher en Bosnie-Herzégovine, beaucoup de Croates s'y rendent pour y faire leurs courses mais ne respectent pas les quantités et se font amender lors de leur entrée en Croatie.

Concernant les ressortissants non-Schengen désireux de se rendre en Europe, ils sont pour la plupart albanais, kosovars et serbes.

Il y a également quelques ressortissants européens venant rendre visite à leur famille, restée au pays.

2. Situation Forged Documents (only [REDACTED])

Special cases, special forgeries, etc.

Le mardi 23 novembre, à la sortie de Croatie, nous contrôlons un ressortissant monténégrin. La personne se justifie avec un passeport MNE authentique. Elle nous donne également un permis de conduire MNE authentique avec un certificat d'immatriculation GBZ contrefait. Lors du contrôle des effets personnels, nous trouvons un passeport fantaisie. La personne a déclaré se servir de se passeport dans le cadre de son travail, lors de meetings. La personne était en Autriche, Allemagne, France et se rentrait chez elle au Monténégro.

Covid-19, etc.

Nous avons dans un premier temps reçu des consignes concernant le Covid-19, les masques sont principalement portés à l'intérieur des grands centres commerciaux.

Par la suite, le gouvernement croate a annoncé de nouvelles mesures sanitaires. Pour pouvoir travailler à la station de police par exemple, il faut être vacciné ou faire régulièrement un test PCR (entre deux et trois jours d'intervalle).

4. Others Phenomenon

Concerning Switzerland

Le vendredi 19 novembre, tous les membres FRONTEX ont eu un briefing online avec Varsovie. Une opération a lieu du 15 novembre au 10 décembre, il est question de mettre l'accent sur la falsification de documents et de timbres.

Lors de la présentation, la Suisse est ressortie comme étant un pays de transit pour les réseaux criminels.

5. Working conditions

Issues, working with local authorities and with Frontex

Les conditions de travail sont très bonnes. Les collègues croates parlent pour la plupart l'anglais et m'ont très bien accueilli. Il en va de même pour les collègues FRONTEX.

6. Personal Evaluation

6.1 Equipment and Training

(Insufficient, good, sufficient and with explanations)

Nous avons des gants, masques et du gel hydroalcoolique en suffisance.

6.1 Accommodation and Transport

Lors du local briefing, il nous a été demandé de rester un maximum dans les guérites avec les collègues afin de pouvoir leur dire – en cas de besoin – quelles personnes il serait intéressant de contrôler, à quoi faire attention lors du contrôle du véhicule, etc.

7.1 Conclusion

Dans l'ensemble, la mission s'est très bien déroulée. J'ai été très bien reçu par les collègues croates, FRONTEX et par les propriétaires de l'appartement. Tout s'est donc déroulé sans impairs.

Cette route marque la frontière entre les actuelles Croatie et Bosnie-Herzégovine.

En Yougoslavie, il n'y avait pas de distinction entre les nations, tous ses citoyens étaient donc yougoslaves. Lors de dissolution de cette dernière, il y a donc commencé à y avoir des frontières. Ainsi, des familles ont été séparées car une partie vivait sur territoire croate et l'autre partie sur territoire bosniaque.

Aujourd'hui, sur cette partie du territoire, il y a une forme de tolérance. Lorsqu'une personne passe de l'autre côté de la route (à pied ou avec sa voiture privé) et qu'elle peut justifier avoir de la famille de l'autre côté de la route, le passage est autorisé.

Il y a tout de même une douane pour les personnes ne vivant pas dans la région et désireuses de traverser la frontière.

Reporting time: 24.02.2021 – 24.03.2021
Operation / Location: BCP [REDACTED] (HRV) 2
Profile: [REDACTED] 3

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

Die Situation ist ruhig. In der Region gab es wenige illegale Grenzübertritte gemäss den kroatischen Behörden. Es wurden wöchentlich ein bis zwei kleinere Gruppierungen von illegalen Migranten (10 – 15 Personen) in der Region aufgegriffen. Gemäss den kroatischen Behörden konnte in diesem Zusammenhang lediglich ein Schlepper festgenommen werden.

Am 02.03.2021 wurde bei einem ALB-Staatsangehörigen eine SIS-Ausschreibung zur Einreiseverweigerung (Art. 24 von der Schweiz) festgestellt. [REDACTED] 6

[REDACTED]

Am 22.03.2021 ereignete sich ein tödlicher Unfall mit einem LKW welcher Migranten transportiert hatte. Der Unfall ereignete sich auf der Autobahn auf der Höhe der Ortschaft Okucani in Richtung Zagreb. Bei diesem Unfall wurden 17 Personen verletzt und 4 starben.

In der gesamten Einsatzzeit von mir, gab es mehrere Einreiseverweigerungen an dem Grenzübergang [REDACTED]. Die Personen wurden aus verschiedenen Gründen 2 zurückgewiesen:

2 x UAE «E»; Aufenthaltswitz zweifelhaft
2 x UKR «E»; Aufenthaltswitz zweifelhaft
1 x TUR «C»; kein gültiges Visum
2 x TUR «E»; Aufenthaltswitz zweifelhaft
7 x MNE «E»; Aufenthaltswitz zweifelhaft
33 x ALB «E»; Aufenthaltswitz zweifelhaft

2. Situation Forged Documents (only [REDACTED]) 3

Special cases, special forgeries, etc.

Durch die Einreisebeschränkungen in Kroatien konnten während meines Einsatzes insgesamt ungefähr 23 totalgefälschte PCR-Tests (Covid-19) bei den Reisenden festgestellt werden.

Merkmale der gefälschten Covid-19 Test:

- Die Stempel waren alle aufgedruckt. (Tinten- oder Tonerbasierendes Verfahren)
- Probeentnahmezeit und Auswertungszeit bei allen Tests gleich oder nur kleine Änderungen.
- Die Rapportnummer der Test um ein Vielfaches zu unterschiedlich oder sogar gleich.
- Von gleichen Ärzten verschiedene Unterschriften.
- Die Dokumente sind online nicht auf der richtigen Homepage abgelegt.

Der QR-Code auf den Tests konnte ausgewertet werden und die Dokumente waren Online hinterlegt! Meistens sind die Tests nicht im Originalzustand hinterlegt und auf der falschen Internetseite abgelegt. (gemäss Abklärungen)

Gemäss den kroatischen Behörden, konnten in letzter Zeit vermehrt wegen den Einreisebeschränkungen in Kroatien gefälschte PCR-Test (Covid-19) bei Reisenden festgestellt werden.

Am 24.03.2021 wurde ein totalgefälschter UKR Führerausweis festgestellt. Ein kroatischer Grenzpolizist hatte den Verdacht, dass es sich um eine Fälschung handeln könnte. Der Verdacht wurde durch mich bestätigt und die weitere Abhandlung wurde durch die kroatischen Behörden vorgenommen.

1/6

Das gesamte Dokument wurde in einem tintenbasierendem Verfahren nachgeahmt, welches nicht dem originalem Druckverfahren entspricht.

3. Health and General Safety Situation

Covid-19, etc.

Am 01.03.2021 wurden aufgrund der sinkenden Fallzahlen die Restaurants und Bars (nur Aussenberiech) wieder geöffnet. Am 25.03.2021 wurden diese Öffnungen wieder aufgehoben, aufgrund der wieder steigenden Fallzahlen in der Region.

Für die Einreise nach Kroatien muss in der Regel ein negativer PCR Test für Covid-19 vorgewiesen werden, welcher nicht älter als 48 Stunden ist. Dadurch gab es kaum Verkehr auf den Grenzübergängen.

4. Others Phenomenon

Concerning Switzerland

“NTR”

5. Working conditions

Issues, working with local authorities and with Frontex

- + Die Zusammenarbeit mit den kroatischen Behörden war gut. Wir konnten uns gut austauschen und Synergien nutzen.
- + Die Zusammenarbeit mit den FRONTEX Kollegen (1 x [REDACTED] / 1 x [REDACTED] / 1 x [REDACTED] / 1 x [REDACTED] / 1 x [REDACTED]) war sehr gut. Wir tauschten Informationen untereinander aus und halfen einander.

6. Personal Evaluation

6.1 Equipment and Training

(Insufficient, good, sufficient and with explanations)

Die Ausrüstung für den Einsatz seitens EZV ist gut. Ich hätte mir persönlich ein Dokumentenprüfgerät «[REDACTED]» mit 15 x Vergrößerung gewünscht, weil 7 unsere Dokumentenprüfgeräte nur eine 10 x Vergrößerung haben.

Der BCP [REDACTED] ist für eine eingehende und effiziente Dokumentenprüfung nicht 2 ausreichend gut ausgerüstet. [REDACTED] 7

Es gab seitens FRONTEX keine Informationen oder Training vor dem Einsatz für die Erstellung eines Dokuments «Alerts».

6.1 Accommodation and Transport

(Insufficient, good, sufficient and with explanations)

Die Unterkunft war ausreichend für einen kurzfristigen Einsatz. Das nötigste war im Hotel vorhanden. Es handelt sich um ein Familienhotel mit sehr freundlichen Angestellten. Ein Mietwagen in dieser Region ist Pflicht, weil es kaum andere Transportmöglichkeiten gibt.

7. Personal Evaluation

7.1 Operational experiences

(positive/negative)

- + Der Austausch mit dem [REDACTED] [REDACTED] im Bereich Dokumente. 4/3
- + Der Austausch und die Zusammenarbeit mit den anderen FRONTEX Mitarbeitern.
- + Die Zusammenarbeit mit der kroatischen Grenzpolizei.

- [REDACTED] . 4

7.1 Conclusion

8. Remarks and suggestions

Manche Mitarbeiter der kroatischen Grenzpolizei waren sehr froh, dass ein FRONTEX Mitarbeiter kroatisch sprechen konnte. So wurden viel mehr Nachfragen in allen Bereichen (Dokumentenüberprüfung, Fahrzeugkriminalität usw.) getätigt und somit konnten mehr Erfolge erzielt werden.

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

I casi che elenco sotto sono riferiti a fermi che sono avvenuti durante lo spostamento dal hotel al BCU o di rientro in presenza del collega poliziotto greco alla quale si dava un passaggio:

- In 2 casi abbiamo fermato e consegnato dei migranti senza documenti.
- In altri 2 casi i migranti erano in possesso di permessi di soggiorno per asilo per la Grecia.

[REDACTED]

6

In poche parole, a parte un caso, tutte gli altri fermi o telefonate erano fuori dal nostro settore di lavoro.

2. Situation Forged Documents (only [REDACTED])

3

Special cases, special forgeries, etc.

La maggior parte delle persone fermate erano senza documenti personali, in altri casi hanno potuto presentare un permesso Greco per asilo in formato cartaceo o un altro documento formato carta di credito plastificato senza sicurezze. Secondo i colleghi greci sono validi.

3. Health and General Safety Situation

Covid-19, etc.

Al nostro arrivo vi era l'obbligo del porto della mascherina anche all'esterno, ristoranti e bar chiusi, il spostarsi era autorizzati ma con una autodichiarazione con indicazione del motivo e orario.

Durante la nostra permanenza, vi è stato un generale incremento di casi in tutta la Grecia.

Nel distretto di ² [REDACTED], sono stati aumentati le restrizioni e chiusure di negozi non essenziali, seguiti poi da certi allentamenti.

Del resto la zona/regione è sicura.

Abbiamo percepito un terremoto con epicentro a 135 km da noi e successive scosse di assestamento.

4. Others Phenomenon

Concerning Switzerland

Ad Atene vi è stata una rivolta dei anarchici contro la polizia.

Abbiamo ricevuto informazioni di eventuali dimostrazioni da parte dei anarchici di

² [REDACTED] e di evitare spostamenti inutili con il veicolo di servizio.

Una domenica vi è stato un corteo di protesta ma pacifica.

5. Working conditions

Issues, working with local authorities and with Frontex

In generale si sono fatte parecchie pattuglie e osservazioni del territorio, pochi controlli statici e controllo di veicoli perché è un territorio con bassissima densità di popolazione, ci sono 2 paesi senza abitanti e diversi con solo una decina. Essendo il settore montuoso e non avendo strade che arrivano direttamente dal confine vi era poco traffico.

In generale vi è stato una buona collaborazione con le autorità locali e il/la collega di pattuglia, avevano buone conoscenze del territorio e padronanza della lingua inglese.

C'è stato un collega poliziotto greco che abbiamo, in accordo con FTSO, dovuto riportare nel "shift report" per un suo comportamento non conforme ai suoi doveri. A suo scapito, il suo dipartimento ha aperto un caso disciplinare e inflitta una multa.

Abbiamo avuto sovente dei scambi di informazioni con FTSO anche dovuto al motivo che alloggiavamo tutti nello stesso hotel.

6. Personal Evaluation

6.1 Equipment and Training

(Insufficient, good, sufficient and with explanations)

L'equipaggiamento e l'istruzione è più che sufficiente per poter operare.

Essendo zona di montagna e pattugliando anche su strade sterrate, il 7 si adatta benissimo alla zona.

6.2 Accommodation and Transport

(Insufficient, good, sufficient and with explanations)

Buono lo standard dell'hotel, zona tranquilla, ambiente pulito, camere spaziose con buona connessione di internet.

Personale molto gentile e cordiale, sempre disponibili.

Menu speciale per Frontex per la cena al prezzo di 10 Euro.

Piscina esterna (non utilizzata perché troppo freddo), piccola palestra con varie attrezzature tutte nuove. Spa in allestimento.

Lavanderia compresa nel prezzo della camera.

Nessun problema con il noleggio del veicolo aeroporto – albergo – aeroporto.

7. Personal Evaluation

7.1 Operational experiences

(positive/negative)

In generale ho avuto una esperienza di lavoro positiva.

6

Come descritto nel punto 1, la maggior parte dei fermi o avvistamenti di migranti sono avvenuti fuori dal settore di competenza. 1

A mio parere, l'“intelligence” di 1, avrebbe potuto sfruttarci meglio se ci facevano lavorare con il collega greco nella zona di transito dei migranti invece di lasciarci in un settore senza riscontri.

7.1 Conclusion

Pur essendoci state le restrizioni Covid-19, la città ha tanto da offrire, anche avendo avuto pochi giorni di libero, non posso recriminare niente.

Però se mi si dovesse presentare la richiesta di fare ancora una missione a Ioannina o l'opzione da un'altra parte, sceglierei la nuova destinazione.

Buona l'intesa con il collega 1, rifarei una missione con lui, ho anche migliorato il mio francese. 1

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

Illegal migration situation in our operational area was calm due to the natural obstructions in the form of mountains. At BCP [REDACTED] we could prevent some illegal migration towards Albania by stopping Albanian citizens trying to avoid passport control. 2

2. Situation Forged Documents (only [REDACTED]) 3

NTR

3. Health and General Safety Situation

Covid-19, etc.

The Covid-19 situation is similar to Switzerland in terms of cases and hospitalizations. Nearly everything was open, masks were mandatory whenever inside.

4. Others Phenomenon

Concerning Switzerland

NTR since there was not yet an increase in Afghan refugees during our deployment.

5. Working conditions

Issues, working with local authorities and with Frontex

Collaboration with Hellenic police was very good. Our designated officers know the operational area very well and have a lot of experience.

6. Personal Evaluation

6.1 Equipment and Training

(Insufficient, good, sufficient and with explanations)

On a downside, most surveillance equipment was moved to Evros to tackle migration some years ago so all we had for use was our own equipment brought from Switzerland. Also, our patrol car is almost too heavy for the rocky, mountainous roads of [REDACTED], which took 2 it's toll especially on the brakes.

6.1 Accommodation and Transport

(Insufficient, good, sufficient and with explanations)

- 2 The [REDACTED] is very good. Clean rooms, fine food and you can reach the old city centre with all the restaurants and stores within 10min by foot. Although, to get to work we would need to pass the centre by car, which can take some 20min for 3km on weekend evenings.
- 2 The trip from Athens to [REDACTED] is around 4.5hrs and 95% on highways, so it is ok.

7. Personal Evaluation

7.1 Operational experiences

(positive/negative)

Operational experience was positive. An interesting area to work with some serious problems in drug trafficking, mostly in previous years.

7.1 Conclusion

The overall conclusion is it was a very interesting mission that can be repeated without protest.

Dans la zone de compétence nous étant dédiée nous ne constatons pas de franchissement illégal de la frontière. Cependant nous pouvons relever du mouvement migratoire dans les deux sens sur la route menant au BCP de [REDACTED]. Kommentiert [REDACTED] 1:

2. Situation Forged Documents (only [REDACTED]) 3

Special cases, special forgeries, etc.

3. Health and General Safety Situation

Covid-19, etc.

Lors de notre arrivée mi-juin la situation sanitaire s'améliorait et la Grèce sortait tranquillement d'un Lock Down (14 mai). Les mesures se sont petit à petit assouplies. Avec l'arrivée de l'été et des touristes début juillet la situation s'est dégradée pour arriver en zone orange mi-juillet. Depuis lors il y a régulièrement des lockdown locaux (Mykonos, Zakynthos, La Canée) A l'heure actuelle la situation peine à se débloquer. L'Epire, moins touristique est restés en zone orange sans vivre de mesures supplémentaires.

Depuis 1 mois la Grèce est en situation caniculaire extrême ce qui entraîne des situations de danger d'incendie très élevé. Il est interdit de pénétrer dans les forêts et recommander d'éviter les déplacements inutiles. La région d'Athènes, l'île d'Eubée et le Péloponnèse sont ravagés depuis 2 semaines par des incendies violents qui paralysent parfois les autoroutes, routes nationales et trafic aérien. Ils font fuir des milliers de gens de leur domicile.

4. Others Phenomenon

Concerning Switzerland

Suite à l'Open call pour les périodes 8-9 émis par le NFPOC, nous apprenons qu'un

3 [redacted] s'était porté volontaire. Cependant FRONTEX a refusé l'engagement d'un [redacted]. Des 2 collègues de FRONTEX [redacted] engagés 4
3 comme nous au BCU [redacted], l'un est [redacted] 3
2 [redacted]
7 [redacted]

Nous avons récupéré la voiture avec une coupure sur la portière droite, nous n'avons pas relevé la casse en présence des collègues que nous relevions. Il est utile de faire le tour du véhicule en présence des 2 teams. Nous avons dû procéder en deux fois aux changements de plaquettes de freins du véhicule. Le véhicule n'étant pas contrôlé régulièrement par un garage, il est nécessaire que les collaborateurs l'utilisant soient attentifs aux différents à l'état du véhicule et fasse contrôle immédiatement.

5. Working conditions

Issues, working with local authorities and with Frontex

2 Le bureau LCC de [redacted] n'est pas flexible pour octroyer des jours de congés, ils nous demandent de s'adresser vers eux le plus tôt possible afin qu'ils aient le temps nécessaire pour se prononcer sur la demande et organisé la rotation. Le [redacted] a fait une demande préalable par courriel fin avril, rééditée à l'arrivée (15 juin.) cette dernière a été validée uniquement par sms le 12 juillet, et mise sur papier le 30.07. Le congé ayant été accordé le [redacted] 1
1 [redacted] en est redevable. Cependant il paraît possible avec le laps de temps à disposition de se prononcer et s'organiser plutôt. 1

Le planning des shifts nous est arrivé [redacted] le 29 et le 30 du mois précédent. Il serait plus agréable de le recevoir au minimum 10 jours avant le début du mois planifié

6. Personal Evaluation

6.1 Equipment and Training

(Insufficient, good, sufficient and with explanations)

L'équipement fourni est optimal pour l'engagement. Cependant la ceinture de charge complète prend beaucoup de place dans les bagages et n'est pas nécessaire. Un [redacted], 7
7 [redacted] seraient suffisants étant donné que le port du [redacted] et du [redacted] 7
7 [redacted] sont interdits.

1
Kommentiert [redacted]:

Par souci de discrétion pendant l'engagement, un véhicule banalisé serait plus approprié. Il paraît impossible d'appréhender des personnes qui à la vue de notre véhicule se réfugie dans la forêt.

6

[REDACTED]

6.1 Accommodation and Transport

(Insufficient, good, sufficient and with explanations)

- 2 Le trajet en véhicule jusqu'à Athènes [REDACTED] et long et fastidieux. Un aéroport desservi
2 quotidiennement depuis Athènes se situe à [REDACTED]. Le vol de [REDACTED]-Athènes coûte en 2
2 moyenne [REDACTED]. L'aéroport se situe à [REDACTED] de l'hôtel. L'aéroport de 2
2 Thessalonique se situe à [REDACTED] et dessert également très bien la Suisse. La voiture louée
2 pour le transport d'Athènes à [REDACTED] est trop petite pour deux personnes partant en enga-
2 gement pour deux mois. Pour faire [REDACTED] un minimum de confort serait agréable.

Merci à l'agence de voyage de tenir compte du lieu de résidence des collaborateurs pour la réservation des vols (Genève, Zurich ou Bâle).

- 2 Le [REDACTED] est optimal pour l'engagement, situation, services... Le manager est très ar-
rangeant et à l'écoute de nos besoins. L'équipement à disposition est très appréciable pour
le temps libre (Belle piscine, fitness, prêts de vélo, accords pour location de voiture.)

Un excellent choix.

- Sur le chemin du retour nous avons malheureusement crevé la roue arrière droite à peine
engagé sur l'autoroute. Après avoir contacté Sixt, nous avons dû constater que l'agence de
2 location n'a guère de siège à [REDACTED]. L'agence l'a plus proche si située à Thessalonique et
ne pouvait donc pas nous venir en aide. Le contrat ne couvre pas non plus les pneus. Nous
avons donc décidé nous-même de changer la roue et sommes retournés au garage Nissan
2 de [REDACTED] afin de remplacer la roue de secours par un nouveau pneu.

Afin d'éviter un stress supplémentaire le matin, il aurait fallu réserver une chambre directe-
ment à l'hôtel situé à l'aéroport. 2 bonnes heures nous ont été nécessaire pour rendre le vé-
hicule et effectuer le check-in.

7. Personal Evaluation

7.1 Operational experiences

(positive/negative)

L'engagement global est positif, les collègues très sympathiques, ouverts et parlent très bien
l'anglais.

- 2 Le lieu d'engagement BCO [REDACTED] n'est pas des plus intéressant car beaucoup plus
2 calme que les autres. Aucun BCP ne se situe dans la zone du BCO [REDACTED].

7.2 Conclusion

Nous sommes très satisfaits de notre engagement tant avec le lieu, l'hôtel et les collègues Grecs. Nous aurions plaisir de revenir ici. Nous relevons toutefois qu'en cas de lockdown la mission de 2 mois pourrait être longue et un peu ennuyeuse.

8. Remarks and suggestions

Le team CHE¹ 1 était un très bon team et serait très heureux de pouvoir collaborer à nouveau lors de missions futurs.

L'appui du NFPOC Suisse est aussi très bon, toujours disponible et atteignable. Il répond à toute nos demandes.

Profile: [REDACTED] 3

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

I casi inerenti la migrazione si suddividevano principalmente in due categorie. Migranti che partono dai campi di Ioannina in direzione Albania, i quali cercano di attraversare il confine nella zona di [REDACTED], sulla parte sinistra del valico, dalla nostra 2
posizione essi non sono praticamente mai visibili, si potevano riscontrare maggiormente durante il viaggio di andata e ritorno dal lavoro.

Gli altri casi di migrazione erano inerenti i cittadini albanesi [REDACTED] uscita dalla Grecia, ogni giorno in uscita dal territorio vi sono 4 bus che si fermano prima del valico, quando ci è stato concesso abbiamo fatto perimetro con gli altri agenti Frontex, per evitare che molti di essi scendessero nei sentieri sotto il valico parte destra e così facendo potessero sottrarsi ai controlli. Nei 6 turni nei quali abbiamo fatto perimetro (18 bus) abbiamo riscontrato all'incirca 30-40 overstay e 4 hit nelle banche dati SIS II art. 24.

2. Situation Forged Documents (only [REDACTED]) 3

Special cases, special forgeries, etc.

Per tutta la durata dell'impiego, presso il valico di confine di [REDACTED] potevano transi- 2
tare in entrata unicamente cittadini Greci o Albanesi residenti in Grecia. La limitazione era inoltre estesa ad un massimo di 400 persone al giorno più autisti professionali, va da sé che gli unici documenti controllati siano stati in prevalenza carte di identità Greche o passaporti biometrici albanesi. Qui presso il valico è presente pure il database sulla migrazione, nel quale sono registrati i permessi di soggiorno, gli unici documenti che differenziavano erano presenti in uscita dalla Grecia, ma erano molto sporadici. Nessun documento contraffatto o falsificazione è stata riscontrata.

3. Health and General Safety Situation

Covid-19, etc.

A livello generale i casi di COVID-19 erano in diminuzione, da parte di Frontex sono stati forniti tutti i mezzi necessari per la salute, mascherine, guanti, disinfettanti.

Le restrizioni in entrata al valico di [REDACTED] erano ancora presenti, come detto solo 400 cittadini greci o albanesi residenti in Grecia potevano attraversare il valico in entrata, più autisti professionali di camion, con relativo PLF(tracciamento) e PCR negativo. 2

4. Others Phenomenon

Concerning Switzerland

Nulla da dire.

5. Working conditions

Issues, working with local authorities and with Frontex

La collaborazione con gli altri colleghi Frontex è stata ottima, un buon momento per condividere esperienze e aiutarci l'un l'altro. Con le autorità greche ciò è dipeso molto dal capogruppo presente nel turno, alcune volte accettavano la nostra presenza ed anzi avevano piacere di averci presenti, altre volte non volevano la nostra presenza. È stato un po' un periodo nel quale bisognava cercare di capire i colleghi greci e cercare con i dovuti modi di entrare nella loro realtà lavorativa.

6. Personal Evaluation

6.1 Equipment and Training

(Insufficient, good, sufficient and with explanations)

La mia preparazione, grazie alla formazione ricevuta in Svizzera era perfetta per il lavoro quaggiù. [REDACTED] 7

6.1 Accommodation and Transport

(Insufficient, good, sufficient and with explanations)

L'alloggio era buono, ma non molto isolato per essere una struttura nuova e con un prezzo di 87 euro a notte. Il viaggio di andata e ritorno, come detto nella mia scorsa missione, soprattutto nella fase da e per andare all'aeroporto è stato troppo lungo. Magari in futuro si potrebbe vedere se vi sono dei collegamenti con l'aeroporto di Ioannina.

7. Personal Evaluation

7.1 Operational experiences

(positive/negative)

Come seconda missione, in una zona adiacente quella del mio ultimo impiego trovo che il tutto sia andato per il meglio. Ho potuto osservare come viene svolto il lavoro in un valico lontano da casa e conoscere persone di altri paesi con le quali condividere momenti di lavoro e di tempo libero, le quali potranno essere importanti anche per collaborazioni future.

7.1 Conclusion

In conclusione trovo che questa esperienza sia positiva, peccato ancora una volta per la poca mole di traffico e per i documenti presentati poco variati e soprattutto per non aver trovato nessuna contraffazione / falsificazione.

8. Remarks and suggestions

Nulla da dire.

Reporting time: 20.04.2021-17.06.2021

Operation / Location: FOA Land [REDACTED] 2

Profile: [REDACTED] 3

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

In unserer Region konnten in obengenanntem Zeitraum keine Feststellungen im Bereich Illegal Migration gemacht werden.

Ab und zu konnten, auf unseren Arbeitsweg, auf der Hauptstrasse zwischen [REDACTED] 2 und [REDACTED] mutmassliche Migranten beobachtet werden.

2

2. Situation Forged Documents (only [REDACTED]) 3

Special cases, special forgeries, etc.

-

3. Health and General Safety Situation

Covid-19, etc.

Während den ersten zwei Wochen befand sich Griechenland in einem nationalen Lockdown, welcher das erste Mal am 03.05.2021 (Öffnung von Aussenbereichen in Restaurants) und das zweite Mal am 14.05.2021 (Aufhebung der Reisebeschränkungen, Öffnung für Touristen) gelockert wurde.

Generell würde ich die Region um [REDACTED] als sicher bezeichnen, uns wurde lediglich abgeraten, das Einsatzfahrzeug irgendwo in der Stadt zu parkieren, um allfällige Beschädigungen durch Linksextremisten zu vermeiden. 2

4. Others Phenomenon

Concerning Switzerland

NTR

5. Working conditions

Issues, working with local authorities and with Frontex

Die Zusammenarbeit mit den griechischen Kollegen funktionierte einwandfrei.

Mein Frontexausweis wurde mir erst etwa 3 Wochen nach Beginn meines Einsatzes zugestellt.

Die Einsatzplanung durch das LCC [REDACTED] war unumstösslich, obwohl uns am Briefing versprochen wurde, dass allfällige Schichtwechsel problemlos möglich seien, war keine Flexibilität von deren Seite zu erwarten.

[REDACTED] im BCU [REDACTED]

6. Personal Evaluation

6.1 Equipment and Training

(Insufficient, good, sufficient and with explanations)

Das Equipment, sowie das Dienstfahrzeug eignen sich gut für einen Einsatz in dieser Region. Die [REDACTED] funktionierte nicht, wurde aber auch nie benötigt. Für den Einsatz in [REDACTED] wird keine zusätzliche Ausbildung benötigt.

6.1 Accommodation and Transport

(Insufficient, good, sufficient and with explanations)

- 2 Die Hinreise von Athen nach [REDACTED] gestaltete sich etwas schwierig, da Europcar ihr Büro etwa 10 Autominuten vom Flughafen entfernt hatte, so musste zuerst ein Shuttle organisiert werden.
- Auf dem Retourweg mit AVIS funktionierte alles einwandfrei.
- 2 Das Hotel [REDACTED] war gut. Die Lage ist ein guter Kompromiss zwischen Arbeitsweg und Nähe zur Stadt. Der benötigte Wäscheservice war im Zimmerpreis inbegriffen.

7. Personal Evaluation

7.1 Operational experiences

(positive/negative)

Positiv: Wir arbeiteten mit einem sehr netten griechischen Kollegen, welcher sehr gut Englisch sprach.

Negativ: Es war absolut nichts zu tun in dieser Region.

7.1 Conclusion

Es waren erfahrungsreiche 2 Monate was die Zusammenarbeit mit anderen Behörden betrifft. Es konnten auch gute Kontakte zu anderen Behörden in anderen Ländern geknüpft werden.

Was jedoch die Arbeit an und für sich angeht, war 2 Monate nichts zu tun.

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

Few cases with illegal migrants. Mostly families or people travelling alone with false documents. No cases where facilitator was involved. Some people were refused entry due to Covid restrictions or SIS Art. 24.

2. Situation Forged Documents (only [REDACTED]) 3

Special cases, special forgeries, etc.

False or falsified documents were detected regularly, but no special cases nor modus operandi. Mostly either driving licenses or illegal migration.

3. Health and General Safety Situation

Covid-19, etc.

Due to Covid restrictions, it is very quiet at the moment. Covid cases in general are at a very low level.

5. Working conditions

Very good introduction and briefing given by the local coordinator. Always available if questions occurred, also during his holidays and free time. Also helped organizing PCR test. Local shift leader informed us about interesting cases, even if we were not directly involved in the case. Working with local colleagues uncomplicated and easygoing.

6. Personal Evaluation

6.1 Equipment and Training

(Insufficient, good, sufficient and with explanations)

Since we are provided with a laptop and a cell phone, [REDACTED] the tasks can be done very efficiently

7

6.1 Accommodation and Transport

(Insufficient, good, sufficient and with explanations)

Both very well organized and had no issues at all.

7. Personal Evaluation

7.1 Operational experiences

(positive/negative)

I think the one month deployments are very short, since it needs time to get to know the colleagues and the local working habits.

7.1 Conclusion

The Frontex deployment was a very good experience and I would recommend it to everyone. This was my first deployment, so I was glad that they were some experienced colleagues at the BCP. Otherwise I think it could be difficult, depending on the place of deployment.

One more experience in Frontex. The shifts were very long because we had almost nothing to do during 8 hours. Fortunately, we were a very good team (swiss & greek colleague) so I had great time instead of the lack of work. I again learnt many things from my own experience and met wonderful people.

7.1 Conclusion

Even if it was special because of the covid, I appreciated it. I'm looking forward to make the next mission which I hope will be more interesting concerning the border guard job.

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

Durante i nostri pattugliamenti di sorveglianza nella zona di [REDACTED] 2, non sono stati rilevati né migranti né passatori.

Secondo informazioni della autorità locali, la situazione resta tranquilla.

Gruppi di migranti sono stati regolarmente avvistati lungo il ciglio della strada durante i nostri spostamenti da e verso l'area di pattugliamento.

Venerdì 10 settembre 2021, 14 migranti (diversi gruppi) sono stati visti dirigersi verso sud lungo la strada principale durante i viaggi di andata e ritorno verso l'area di pattugliamento.

Sabato 25 settembre 2021 sono stati avvistati 3 migranti che camminavano lungo la strada principale in direzione del confine.

Giovedì 30 settembre 2021 sono stati avvistati 4-5 migranti che camminavano lungo la strada principale sempre in direzione del confine.

Domenica 2 ottobre 2021, gruppi di 6 e 2 migranti ciascuno sono stati avvistati a piedi.

[REDACTED] 6

Inoltre, il 30 settembre 2021, 4 migranti sono stati avvistati nel villaggio di [REDACTED] 2, gli stessi erano già stati fermati dalla polizia e sono stati riportati presso il BCU di [REDACTED] 2

2 [REDACTED], secondo quanto riportato successivamente dalle autorità GRC.

Nella notte tra l'11 e il 12 settembre 2021, durante i controlli dei bus all'uscita del valico di frontiera di [REDACTED], sono stati scoperti alcuni migranti nascosti, sono stati in seguito consegnati alla polizia per ulteriori sviluppi.

2. Situation Forged Documents (only [REDACTED]) 3

Special cases, special forgeries, etc.

3. Health and General Safety Situation

Covid-19, etc.

Riguardo la situazione COVID-19, la autorità GRC hanno imposto l'obbligo del certificato vaccinale, o in alternativa, l'obbligo del test antigenico rapido / test PCR, per l'accesso a tutti i luoghi chiusi.

Hanno inoltre reso obbligatorio un test antigenico rapido / test PCR, per tutti i lavoratori residenti e non, eccezion fatta per i turisti, da presentare settimanalmente.

5. Working conditions

Issues, working with local authorities and with Frontex

Durante il periodo di servizio abbiamo avuto problemi tecnici riguardo al veicolo di servizio (batteria e freni); gli stessi sono stati sistemati sul posto.

La collaborazione con le autorità GRC è stata ottimale: 3 colleghi della polizia GRC si sono alternati affiancandoci durante i nostri pattugliamenti.

6. Personal Evaluation

6.1 Equipment and Training

(Insufficient, good, sufficient and with explanations)

Buono - tutto l'equipaggiamento era funzionale all'impiego. Come già descritto abbiamo avuto dei problemi con l'autovettura di servizio (normale usura) ripristinati sul posto.

6.1 Accommodation and Transport

(Insufficient, good, sufficient and with explanations)

Buono – l’hotel e i servizi connessi erano di buona qualità. Nessun problema occorso durante i trasferimenti dall’aeroporto.

7. Personal Evaluation

7.1 Operational experiences

(positive/negative)

Positivo – l’impiego è stato ben pianificato e i contatti con Frontex tramite FTSO erano costanti in quanto, lo stesso, alloggiava presso la nostra medesima struttura.

I turni di servizio erano ben organizzati e il LCC ha potuto soddisfare le nostre esigenze di servizio cambiando all’occorrenza.

La tipologia di lavoro ha soddisfatto pienamente le mie aspettative; la zona di pattugliamento era vasta e necessitava di parecchi spostamenti.

I colleghi GRC sono sempre stati molto cortesi ad illustrarci particolarità della zona di pattugliamento e generi di traffico e di attività illegali.

Negativo – personalmente non ho trovato punti negativi.

7.1 Conclusion

L’impiego è stato ben organizzato anche in virtù di una ciclicità metodica di Frontex in quest’area, rispetto ad altri impieghi a cui ho partecipato.

La situazione migratoria tranquilla nell’area, non ha permesso di scoprire casi eclatanti e di conseguenza l’efficacia del nostro operato durante il servizio è quindi rimasto a titolo preventivo.

In definitiva una buona esperienza su un territorio con caratteristiche geofisiche simile ma operativamente differenti dal nostro.

Profile: [REDACTED] ³

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

Ogni giorno si vedono sulla strada principale che porta da Ioannina a [REDACTED] ², gruppi di migranti principalmente del Pakistan e Afganistan, che entrano ed escono illegalmente dalla Grecia, con destinazione finale Germania. ²

Queste persone sfruttano i boschi adiacenti alla dogana di [REDACTED].

La polizia di confine non ha risorse per impedire questi passaggi illegali.

In dogana qualsiasi persona che arriva con il Bus e vuole evitare il controllo di polizia, scende dal veicolo e attraversa il confine utilizzando dei sentieri esistenti nelle vicinanze della dogana stessa "a 5m di distanza". Tutto questo succede sotto gli occhi della Polizia.

2. Situation Forged Documents (only [REDACTED]) ³

Special cases, special forgeries, etc.

La polizia di confine ha come obiettivo di fare passare più viaggiatori possibili al giorno e di controllare la documentazione Covid, a discapito dei controlli di Polizia. I controlli nell'ambito falsificazione di documenti, sono inesistenti.

Da parte mia, controlli in prima linea sono veramente difficile per via della totale disorganizzazione nel gestire veicoli e persone.

4. Others Phenomenon

Il lavaggio dei vestiti è compreso, ma non vengono stirati.

7. Personal Evaluation

7.1 Operational experiences

(positive/negative)

Esperienza positiva è vedere con i propri occhi come lavorano le autorità locali di ogni paese.

Esperienza negativa, poca collaborazione con gli agenti del valico.

7.1 Conclusion

Nella zona Schengen, i confini esterni dovrebbero essere valorizzati di più, sono il nostro primo posto di controllo, ma l'unione europea non fa niente di concreto per mettere in condizione di lavorare in maniera ottimale questi paesi.

- 2 Il valico di [REDACTED] è vecchio e non più idoneo per il tipo di traffico che deve affrontare. (2 milioni di persone ogni anno transitano da questo valico).

8. Remarks and suggestions

In questo valico, la nostra presenza potrebbe essere molto utile se le autorità locali ne comprendessero l'importanza.

- (Ho saputo che a maggio la commissione di valutazione Schengen ha esaminato il posto di confine di [REDACTED] ed ha chiesto alle autorità greche, informazioni nel contesto della migrazione illegale che ogni giorno si svolge nelle adiacenze della Dogana e il comandante del posto è stato tenuto a dare spiegazioni).

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

La situation était relativement calme et le trafic très faible dû à la crise du Covid-19. Le 99% des passages à la frontière concernaient des ressortissants albanais et grecs.

Certains ressortissants albanais, très probablement en séjour illégal, évitent le poste frontière de [REDACTED] en passant soit à droite soit à gauche du poste pour éviter le contrôle et l'amende. [REDACTED] 2
[REDACTED] 4/6

[REDACTED] L'appui d'une patrouille [REDACTED] de temps en temps serait idéal mais apparemment le sujet est sensible. 3

Nous avons eu un peu plus de trafic avant Noël mais principalement des voyageurs grecs et albanais allant retrouver leurs familles pour les fêtes. Très peu de touristes.

2. Situation Forged Documents (only [REDACTED]) 3

Special cases, special forgeries, etc.

Un collègue grec est venu vers moi le 24.12.2021 afin de contrôler un passeport des Seychelles qui s'est avéré être totalement contrefait. A l'intérieur du passeport un timbre d'entrée Schengen des Pays-Bas très certainement contrefait également. Le passeport était accompagné d'une carte d'identité ainsi que d'un permis de conduire les deux des Seychelles et totalement contrefait également. La personne a été prise en charge par la police et a été présentée à un tribunal. Il s'agissait d'un ressortissant du Cameroun qui a déclaré vouloir se rendre à Tirana pour chercher du travail comme footballeur. Après plusieurs minutes de discussion en français, celui-ci m'informe avoir travaillé 3 mois gratuitement dans les champs d'oliviers près de Athènes et comme salaire il a reçu ces documents contrefaits.

3. Health and General Safety Situation

Covid-19, etc

Le Covid 19 a fait son retour en Grèce comme partout dans le monde. Actuellement, le pass sanitaire est la norme pour absolument tout (Restaurants en intérieur et extérieur, hôtels, magasins de vêtements, musées, ...) Du 24.12.2021 au 02.01.2022 le port du masque était obligatoire également en extérieur.

A voir ce que les autorités grecques décideront concernant la 3^{ème} dose du vaccin. En effet, il faudra y être attentif afin de renseigner les prochains agents se rendant en Grèce pour des missions en 2022.

J'ai appris que les collègues de la police grec qui ne sont pas complètement vaccinés auront une retenue sur le salaire à partir du 01.01.2022.

4. Others Phenomenon

5. Working conditions

Issues, working with local authorities and with Frontex

La collaboration avec les collègues grecs était très bonne. Ceux-ci m'ont très bien accueilli. Nous avons à disposition un bureau avec un bon WIFI et le bureau peut être fermé quand nous le quittons.

Certains collègues grecs ne parlaient pas anglais ce qui peut compliquer un peu la communication durant les services. Mais en général il y en avait toujours un qui parlait anglais.

J'ai senti parfois que certains collègues grecs pensaient que nous étions là pour les contrôler et ceux-ci se sentaient gênés par notre présence. Et au contraire, d'autres prenaient le temps de nous expliquer certaines spécificités de leurs documents et comment ils travaillent quotidiennement. Heureusement, la majorité aimait bien échanger avec moi.

Concernant le contrôle des passeports, au vu du trafic très faible, le 99% des passeports sont albanais et grecs et les collègues locaux les connaissent très bien.

6. Personal Evaluation

6.1 Equipment and Training

(Insufficient, good, sufficient and with explanations)

L'équipement que j'avais à disposition était suffisant. Le fait d'avoir un bon WIFI au poste permet également d'avoir accès à toutes les informations dans [REDACTED]. 7

6.1 Accommodation and Transport

(Insufficient, good, sufficient and with explanations)

L'hôtel était parfait. Très belle chambre, petit-déjeuner très bien, repas très bien et le personnel très gentil. Il dispose d'un grand parking pour stationner gratuitement le véhicule de location. L'hôtel nettoie nos habits gratuitement et rapidement ce qui est très agréable. Le wifi est aussi de très bonne qualité. Les équipements comme le Fitness et la piscine (en été) est un plus non négligeable. Dorénavant, nous avons droit à 2 massages gratuits d'une heure par mois

La route depuis Athènes est longue quand tu voyages seul mais c'est l'autoroute tout le long et celle-ci est de bonne qualité. Par contre, si un vol est disponible entre Athènes et [REDACTED] 2 sans devoir attendre plusieurs heures à Athènes celui-ci pourrait être une bonne solution.

7. Personal Evaluation

7.1 Operational experiences

5 Beaucoup de positif durant cet engagement. Les collègues sont sympas et les horaires plutôt agréable. [REDACTED] et ensuite [REDACTED]. C'est toujours inté- 5 ressant également de pouvoir échanger avec les collègues d'autres pays.

J'étais également très content de découvrir ces 3 documents contrefaits.

3 Cependant, je pense que mes prochains engagements seront plutôt comme [REDACTED] 3 et non pas comme [REDACTED]. En effet, je préfère patrouiller et faire des surveillances dans la nature que de rester 9h dans un poste frontière. Mais j'ai toujours été comme ça 😊

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

Durante il periodo d'impiego abbiamo eseguito diciotto (18) turni come da pianificazione inoltrata precedentemente.

Malgrado il numero di pattuglie al confine [REDACTED] è limitato, in termini numerici, i fermi di migranti eseguiti durante la sorveglianza 24/7, in collaborazione con altre pattuglie Frontex e con i colleghi GRC, sono esponenzialmente aumentati settimana dopo settimana da undici (11) nella prima settimana, a trenta (30) nella seconda, a cento trenta (130) nella terza per finire con due cento cinquanta quattro (254) nella quarta per un totale di quattro centoventicinque (425).

I passatori identificati ed arrestati sono stati in totale due (02).

I fermati, in base alle indicazioni fornite dai colleghi GRC, erano prevalentemente registrati regolarmente in GRC e tentavano di uscire dalla zona Schengen per raggiungere la Macedonia del Nord e proseguire seguendo la rotta dei Balcani verso i Paesi del Nord d'Europa (Secondary Movements all'interno della zona Schengen). Questi migranti, dopo essere stati fermati, venivano trasportati all'interno del Paese in luogo a noi sconosciuto ed in seguito rilasciati.

Pochi i casi di entrata o soggiorno illegale a conferma di un flusso migratorio che in questa zona GRC al confine con la Macedonia del Nord riguarda quasi esclusivamente l'uscita illegale dal territorio Schengen.

Da parte nostra abbiamo comunque constatato alcuni casi di soggiorno illegale di migranti in provenienza dalla Macedonia del Nord. Questi migranti, se non in casi spo-

radici, non vengono generalmente trattati dai colleghi GRC come tali ma allontanati all'interno del Paese come per coloro regolarmente registrati in GRC.

I Paesi di provenienza dei migranti sono stati prevalentemente PAK, SYR, BGD ed AFG, in minor misura IRQ, SOM e TUR. Generalmente si trattava di maschi (solo 04 le donne fra i fermati) di età fra i 20 ed i 40 anni che si spostavano sempre in gruppi composti mediamente da una decina di persone o più.

Particolarità la presenza di alcuni cittadini CUB fra i migranti, nel periodo d'impiego due (02) i casi accertati. Questi migranti raggiungono la Macedonia del Nord con visto turistico per poi cercare di entrare illegalmente nel territorio Schengen. Per quel che concerne il disbrigo dei casi dove abbiamo collaborato al fermo, 1 persona è stata arrestata per entrata illegale mentre altre 3, un nucleo familiare, allontanati all'interno del Paese come per i migranti regolarmente registrati.

In base ai timbri nei passaporti ed alle domande poste ai migranti, risulta che i citt. CUB siano entrati in Macedonia del Nord dapprima per la via aerea atterrando a Belgrado e Mosca, destinazioni per le quali non è richiesto un Visto d'entrata, per poi procedere verso la Macedonia del Nord con mezzi pubblici.

Conclusione:

Malgrado l'incremento di fermi nelle ultime settimane, allo stato attuale, non esistono indicatori che facciano presagire ad un incremento di arrivi in massa di migranti, provenienti dalla Rotta dei Balcani, ai confini interni della CHE maggiormente confrontati con flusso migratorio in arrivo dalla Rotta del Mediterraneo Centrale.

Tenendo comunque presente la situazione migratoria attuale piuttosto dinamica, l'uso del condizionale è d'obbligo in quanto la situazione potrebbe cambiare repentinamente. Per questo motivo resta necessario monitorare costantemente la situazione

2. Situation Forged Documents (only [REDACTED]) 3

Special cases, special forgeries, etc.

3. Health and General Safety Situation

Le misure d'inasprimento delle restrizioni sono entrate in vigore il 13.09.2021. Per l'accesso a bar, ristoranti, teatri, manifestazioni sportive o culturali, palestre, ecc., è necessario esibire il Green Pass o il certificato che comprova di aver contratto il SARS-COV-2 negli ultimi 6 mesi e di esserne guariti. In alternativa, per i non vaccinati, vige l'obbligo di esibire un Test antigenico rapido non più vecchio di 48 ore.

Dal 30.09.2021, tutta la zona del Centro Macedonia comprendente (Thessaloniki, Larissa, Kilkis, Halkidiki) è diventata zona rossa / livello 4, con nuove restrizioni (coprifuoco dalle 01:00 alle 06:00 e niente eventi musicali), per il resto rimane tutto uguale.

Per quel che concerne l'attività lavorativa, sia nel settore pubblico che privato, gli impiegati non vaccinati devono esibire la prova di essersi sottoposti ad un Test antigenico rapido 1 volta alla settimana. Il test che aveva un costo iniziale di 10 EUR poi ridotto a EUR 07.00, è a carico dei lavoratori.

Come già comunicato via E-mail, anche gli agenti di Polizia e, di conseguenza, il personale Frontex non vaccinato sottostà alle nuove inasprite disposizioni. La copertura dei costi viene sostenuta da Frontex che effettuerà il rimborso anche ai membri di Cat 3.

4. Others Phenomenon

Concerning Switzerland

I migranti che sono stati fermati, hanno espresso il desiderio di raggiungere la Germania, Olanda e Francia, destinazioni con un'alta probabilità di transito sulla Svizzera.

Per i cittadini CUB, l'importante è entrare nello spazio dell'Unione Europea, senza una meta specifica.

5. Working conditions

Issues, working with local authorities and with Frontex

Le condizioni di lavoro non sono ottimali, il Posto mobile di [REDACTED] è vecchio, mal 2 tenuto, non c'è spazio per tutti gli agenti, non c'è un ufficio per gli agenti Frontex. Gli agenti si devono adattare, sfruttando la cucina o un tavolo fuori dalla struttura sotto un portico del Posto di Polizia.

In inverno credo che le condizioni di lavoro non siano più accettabili, anche perché non sempre funziona il riscaldamento.

Gli agenti di Polizia GRC, sono collaborativi e cercano di assecondare le nostre richieste.

6. Personal Evaluation

6.1 Equipment and Training

(Insufficient, good, sufficient and with explanations)

L'equipaggiamento nel veicolo è completo e più che sufficiente per il lavoro di [REDACTED], 3 bisogna adeguare i mezzi ausiliari al tipo di lavoro (il generatore, gabbia dei cani, ecc .. non erano dispensabili) occupavano troppo spazio.

Il veicolo è adatto a tutti i terreni, anche i più estremi, anche se adesso necessita di una revisione totale, i freni sono da controllare, specchietto retrovisore destro vibra, vetro finestrino sinistro anteriore vibra, ecc...

6.1 Accommodation and Transport

(Insufficient, good, sufficient and with explanations)

L'Hotel [REDACTED], si trova a 15 minuti a piedi dal centro, è fornito di una piccola palestra, lavatrice, ha stanze grandi, piccolo angolo cottura, tutto pulito ed è tranquillo. 2

L'aeroporto dista 45 minuti da [REDACTED]. 2

L'Hotel [REDACTED] è situato in centro città, offre agli agenti Frontex per 95 Euro al giorno, 2 "tutto incluso" con colazione, cena (cena con convenzione con diversi ristoranti in città), palestra, servizio lavanderia, ecc...

7. Personal Evaluation

7.1 Operational experiences

(positive/negative)

Anche questa missione è stata un'esperienza utile, è la seconda volta che vengo a lavorare in Grecia, la qualità del lavoro può migliorare... ma bisogna capire la situazione e adattarsi, come ogni posto che si va....

7.1 Conclusion

Per concludere, non ripeterei a breve un'altra esperienza in Grecia, preferirei vedere altri paesi con il profilo di [REDACTED] (più soddisfazioni professionali). 3

8. Remarks and suggestions

Non ho niente da suggerire, alla fine non ci sono stati grossi problemi.

Frontex deployment FINAL report

Terms and conditions

- Reporting period of deployment (SUMMARY)
- Has to be sent 48h before the Debriefing to [REDACTED] 1
- *Language: Mother tongue or English*

Reporting time: 19.05.2021 – 19.06.2021
Operation / Location: Focal Point Land
Profile: [REDACTED] 3

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

La situazione migratoria, presso [REDACTED] ed il confine verde Croato, è risultata, nel periodo dell'impiego, molto tranquilla. 2

Le numerose restrizioni COVID e le limitazioni legate ai viaggiatori, hanno influito pesantemente sul volume del traffico transfrontaliero, limitando lo spostamento delle persone e dei migranti.

2. Situation Forged Documents (only [REDACTED]) 3

Special cases, special forgeries, etc.

Gli unici casi di falsificazione riscontrati, riguardano unicamente i certificati PCR o di vaccinazione. Probabilmente, a causa dei costi medici elevati, sono stati riscontrati infatti molteplici certificati di vaccinazione e di esami PCR falsificati.

Per la maggior parte questi certificati falsi provenivano dall'Albania e dalla Bosnia.

3. Health and General Safety Situation

Covid-19, etc.

La situazione COVID, come spiegato in precedenza, ha influito pesantemente sul volume del traffico transfrontaliero.

Nessun problema da segnalare.

4. Others Phenomenon

Concerning Switzerland

Sono stati eseguiti degli esiti importanti in ambito di furti di veicoli e di merce.

Questo fenomeno, si è dimostrato presente in tutta Europa.

Un'importante dettaglio riguarda la destinazione dei veicoli e della merce rubata: solitamente, tali refurtive, sono destinate a paesi come l'Albania e la Serbia.

È possibile pertanto dedurre che tali proventi illeciti, transitino anche dalla Svizzera.

5. Working conditions

Issues, working with local authorities and with Frontex

La collaborazione con le autorità locali e con i colleghi Frontex è sempre stata perfetta e proficua.

La polizia locale si è sempre dimostrata molto cortese, disponibile e collaborativa.

Il FP coordinator si è sempre preoccupato che il nostro soggiorno avvenisse al meglio.

Ho apprezzato molto lo scambio di esperienze e l'obiettivo comune dimostrato, durante l'impiego.

6. Personal Evaluation

6.1 Equipment and Training

(Insufficient, good, sufficient and with explanations)

Formazioni, briefing e de briefing soddisfacenti.

Il materiale messo a disposizione da Frontex, per combattere il fenomeno del COVID, si è dimostrato essere sufficiente ed adatto alla situazione.

La burocratica presente nell'ufficio Frontex di [REDACTED] si è dimostrata abbastanza vetusta e obsoleta. Il router Internet spesso non funzionava ed il computer risultava estremamente lento. Questo ha reso difficoltoso lo svolgimento del servizio, in alcuni giorni. 2

6.1 Accommodation and Transport

(Insufficient, good, sufficient and with explanations)

Tutto bene. Nulla da segnalare.

7. Personal Evaluation

7.1 Operational experiences

(positive/negative)

Esperienza molto positiva ed arricchente, sia a livello professionale che umana.

Buona l'organizzazione.

Nessun punto negativo o problema da segnalare.

7.1 Conclusion

Soddisfatto pienamente dell'impiego, della preparazione e della conclusione dello stesso.

8. Remarks and suggestions

Nessun suggerimento.

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

Big problems with migrants at the green border. (has been also in medias) They are coming on the balkan route, from BIH, and want to go to Europa.
FX officers are not involved in those cases. (push-backs)

2. Situation Forged Documents (only [REDACTED]) 3

Special cases, special forgeries, etc.

Nothing special, only what I already describe in the weekly reports. No special modus operandi.

3. Health and General Safety Situation

Covid-19, etc.

Covid cases rise in HRV. Mask is only mandatory in a store. Except from this, nobody cares about wearing a mask. Covid certificate is not necessary in restaurants, bars or anywhere else, only for entering Croatia at the border.
Local police officers only wear a mask during a check.

In BIH are still party's every weekend. Nobody cares about Mask or certificates there.

4. Others Phenomenon

Concerning Switzerland

Many travelers who are living in Switzerland return from Balkan states.

5. Working conditions

Issues, working with local authorities and with Frontex

Working with the local staff is sometimes difficult. (Maybe only my team) They just want to do their job, checking passports and stamp them, but nothing else. They are not really interested to check driver's license, I had always to ask for it.

Clarifications regarding Documents with other Frontex officers worked well.

6.1 Accommodation and Transport

(Insufficient, good, sufficient and with explanations)

An apartment for a JO in Croatia is the best option instead of a hotel. The possibility to cook something for yourself is much better. You have space to spend your free time in the apartment, probably with garden, instead of sitting in a hotel room. Especially during Corona time. The apartment Galov is new, very clean and good located near the center in [REDACTED]. Everything is in walking distance. The owners take really care of you, show you different things and are very helpful. 2

Europcar would not be my first choice for the rental car. I had to go to change the car after almost two weeks, because they already sold the car.

Travelling by plane and after by train was the best option for me to go back to Basle.

7. Personal Evaluation

7.1 Operational experiences

(positive/negative)

After August/September when the season is over, the traffic is very low. Sometimes I did not feel that they use us here.

7.1 Conclusion

It would be better to be there during the holiday season.

Operation / Location: JO Focal Point Land / [REDACTED] BCP, GRC 2

Profile: [REDACTED] 3

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

There is no problem with migration in the region, much less with fundamental rights. In [REDACTED] migrants pass undisturbed both in and out of the border line\$. 2

2. Situation Forged Documents (only [REDACTED]) 3

Special cases, special forgeries, etc.

Two cases that occurred during my employment, the first a GND citizen identified as an impostor. The second person was claim as Afghani whit GRC resident permit fals and AFG passport counterfeit.

3. Health and General Safety Situation

Covid-19, etc.

The measures taken during use reflect the rules dictated by local and European health rules

4. Others Phenomenon

Concerning Switzerland

nothing relevant, but below I list some cases that contribute to maintaining the image of Switzerland abroad:

- On 02.10.2021 at around 15:00 hrs, TMs suspected that in one bus with ALB registration plates which was exiting GRC some persons might try to avoid border checks. TMs spotted 2 ALB males trying to hide one on a seat at the end of the bus and one in the toilet compartment. The 2

suspects together with the 2 ALB drivers were detained by the GRC police and transferred to [REDACTED] Police Station for further inquiries. 2
TMs assisted in checking the clothing and luggage, the bus, and in providing details to the GRC police for the investigation.

- On 11.10.2021 at around 13:00 hrs, a team from [REDACTED] Police Station 2 apprehended and brought to [REDACTED] BCP a male, pretending to be 2 originally from GNB, with PRT ID and driving licence. TMs interviewed the person (with some assistance from the PRT TM off duty who said that the person couldn't speak Portuguese), checked the documents and belongings, and concluded that the documents were genuine, no hit in SIS, but suspecting that the person might have been an impostor. The person was taken to [REDACTED] Police Station for further inquiries. 2
- On 28.10.2021 at 04:15, on the exit side 1 AFG, 21 years old, traveling by bus, presented a counterfeit Greek Residence Permit and a genuine AFG passport, with the identification page and the last page falsified. The suspect said he paid €300.00 for the residence permit and €500.00 for the passport. The person was arrested, and the residence permit and the passport seized. The suspect was taken to [REDACTED] Police Station for 2 further action (Tm involved in checking the documents and interviewing the suspect).

5. Working conditions

Issues, working with local authorities and with Frontex

I found a good collaboration and sufficient integration.

6. Personal Evaluation

6.1 Equipment and Training

(Insufficient, good, sufficient and with explanations)

Where I was employ, Frontex has made available an office with wi-fi network. As [REDACTED] all 3
the equipment in the second line is missing. I'm a Swiss category 3 agent, for this [REDACTED] 7/5/4

6.1 Accommodation and Transport

(Insufficient, good, sufficient and with explanations)

Good accommodation, The [REDACTED] in [REDACTED] are cozy and comfortable, transport 2
I used a rental vehicle of the company SiXT, even the latter was more than enough.

7. Personal Evaluation

7.1 Operational experiences

(positive/negative)

On the whole, everything has been carried out in the best possible way, a good harmony with our Frontex colleagues from [REDACTED], [REDACTED] and [REDACTED]. 4

Sufficient interaction with local authorities.

The border crossing offers almost only local traffic, which is therefore not very interesting at the operational level.

7.1 Conclusion

Good on the whole engagement.

8. Remarks and suggestions

In my opinion, an expert in documents would only be necessary in periods of high traffic influence such as summer holidays.

Profile: [REDACTED] 3

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

Bei unseren Patrouillenfahrten und Überwachungen im Einsatzgebiet [REDACTED] 2 konnten keine Migranten oder Schlepper festgestellt werden. Gemäss lokalen Mitarbeitern ist die Lage ruhig.

Hingegen wurden bei den Verschiebungsfahrten zu und vom Einsatzgebiet regelmässig Gruppen von Migranten an der Strassenseite gesichtet. So wurden am Freitag 10.09.2021 beim Nachtdienst auf der Hin- und Rückreise zum Einsatzgebiet jeweils 14 Migranten (unterschiedliche Gruppen) entlang der Hauptstrasse zu Fuss unterwegs in südlicher Richtung festgestellt. Am Samstag 25.09.2021 wurden 3 Migranten entlang der Hauptstrasse zu Fuss in Richtung Grenze gesichtet. Am Donnerstag 30.09.2021 wurden 4-5 Migranten entlang der Hauptstrasse zu Fuss in Richtung Grenze unterwegs gesichtet. Am Sonntag sind 2 Gruppen von jeweils 6 und 2 Migranten zu Fuss unterwegs gesichtet worden. [REDACTED] 6

[REDACTED] 2

Ferner wurden am 30.09.2021 4 Migranten in der Ortschaft [REDACTED] gesichtet, welche jedoch bereits durch die Polizei angehalten worden waren und gemäss späterer Rückmeldung zurück nach [REDACTED] gebracht wurden. 2

Während dem Einsatz in der Nacht 11./12.09.2021 bei Buskontrollen bei der Ausreise am Grenzübergang [REDACTED] wurden verschiedene Illegale Migranten festgestellt, welche sich in den Bussen versteckt hatten. Übergabe an die Polizei zur weiteren Erledigung. 2

2. Situation Forged Documents (only [REDACTED]) 3

Special cases, special forgeries, etc.

3. Health and General Safety Situation

Covid-19, etc.

Riguardo la situazione COVID-19, la autorità GRC hanno imposto l'obbligo del certificato vaccinale, o in alternativa, l'obbligo del test antigenico rapido / test PCR, per l'accesso a tutti i luoghi chiusi.

Hanno inoltre reso obbligatorio un test antigenico rapido / test PCR, per tutti i lavoratori residenti e non, eccezion fatta per i turisti, da presentare settimanalmente.

5. Working conditions

Issues, working with local authorities and with Frontex

Durante il periodo di servizio abbiamo avuto problemi tecnici riguardo al veicolo di servizio (batteria e freni); gli stessi sono stati sistemati sul posto.

La collaborazione con le autorità GRC è stata ottimale: 3 colleghi della polizia GRC si sono alternati affiancandoci durante i nostri pattugliamenti.

6. Personal Evaluation

6.1 Equipment and Training

(Insufficient, good, sufficient and with explanations)

Mit Ausnahme der oben erwähnten Punkte war die Ausrüstung und das Einsatzfahrzeug sehr umfangreich und kam verschiedentlich zur Anwendung. Wie in der vorherigen Frontexeinsatz-Rückmeldung wäre in Anbetracht der örtlichen Gegebenheiten (Topographie und Wetter) ein vorgängiger Offroad-Fahrkurs nützlich.

Die Ausbildung und Informationen war ansonsten in Ordnung.

6.1 Accommodation and Transport

Reporting time: 24.01.2020 – 26.02.2020

Operation / Location: FOA 2021 [REDACTED] 2

Profile: [REDACTED] 3

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

Bei unseren Patrouillenfahrten und Überwachungen im Einsatzgebiet [REDACTED] 2 konnten keine Migranten oder Schlepper festgestellt werden. Gemäss lokalem Mitarbeiter ist die Lage ruhig. 2

2 Am Dienstag 02.02.2021 soll im benachbarten Einsatzgebiet [REDACTED] drei Migranten aufgegriffen worden sein. Zwei Wochen später am 17.02.2020 soll ebenfalls in [REDACTED] 2-3 Migranten durch das dort eingesetzte LVA Frontex-Team angehalten worden sein.

Aufgrund von Schneefällen vom 13.02 auf den 14.02 von teils bis 15cm und Temperaturen von bis -5 Grad verschlechterten sich die Strassenverhältnisse enorm. Je nach Lage mussten Schneeketten aufgezogen werden. Am 14.02 mussten in der Spätschicht, aufgrund der Strassenverhältnisse, zwei Fahrzeuge mittels Abschleppseil geborgen werden. Weiter wurde die griechische Polizei in einem Fall eines Aufahrunfalls (lediglich Sachschaden) unterstützt. 1

2 Durch [REDACTED] 1 wurde am 20.02.2020 im Einsatzgebiet [REDACTED] 2 ein Blindgänger (vermutlich «Mills Bomb» aus der Partisanenzeit 1941-1949) festgestellt. Die zuständige Polizeistation wurde avisiert und am Montag 22.02.2020 übernahm die Kampfmittelbeseitigung der Armee die weitere Erledigung.

2. Situation Forged Documents (only [REDACTED]) 3

Special cases, special forgeries, etc.

3. Health and General Safety Situation

Covid-19, etc.

Aufgrund der COVID-19 Pandemie gab es zu Beginn die Auflage, dass sich alle Personen in eine 7 Tägige Quarantäne begeben müssen. Bezüglich einer Ausnahme für FRONTEX wurden entsprechende Anfragen gestellt, welche durch das verantwortliche Departement (Innenministerium) erteilt wurden. Aufgrund der Tatsache, dass diese Ausnahme an Bedingungen geknüpft war - Rapid-Tests am ersten, dritten und sechsten Tag - und bereits zwei Drittel der Quarantäne verstrichen war wurde entschieden, die verbleibenden Tage ebenfalls in Quarantäne zu verbleiben. Die Entscheidung hierfür wurde durch den FTSO gefällt.

Zusätzliche Restriktionen während dem Einsatz gab es lediglich in grösseren Städten wie Athen, wo die Ausgangssperren verlängert wurden.

Positive COVID-19 Fälle, in Bezug auf den Einsatz und des Einsatzgebiets wurden keine bekannt.

4. Others Phenomenon

Concerning Switzerland

Keine Phenomena bezüglich Schweiz.

5. Working conditions

Issues, working with local authorities and with Frontex

In der letzten Einsatzwoche kam es zu verschiedenen Änderungen des Schichtplanes, angeblich weil gemäss neuen Instruktionen die Mindestanzahl Stunden für das eingesetzte Frontex-Personal nicht erreicht wurde. Eine Sonderschichteinlage wurde infolgedessen in letzter Minute am 16.2 für den Folgetag verfügt. Aufgrund der Differenzen zwischen der Stundenabrechnung der Frontex-Mitarbeiter und der griechischen Polizei kann dies auch in Zukunft nicht ausgeschlossen werden.

Aufgrund eines Defektes der Zusatzbatterie des Einsatzfahrzeuges funktionierten zu Beginn die Einsatzmittel ([REDACTED]) nicht. Diese musste

mit der Hilfe eines Fahrzeugverantwortlichen in Bern geprüft werden. Anschliessend wurde mittels Unterstützung unseres Kollegen bei der Hellenischen Polizei ein entsprechender Ersatz organisiert. Aufgrund der Art und Weise wie die Zusatzbatterie im Kofferraum befestigt wurde, war es nicht möglich die Batterie resp. die Grundplatte zerstörungsfrei auszubauen. Die Beschädigung hat bezüglich Einsatzfähigkeit keinen Einfluss. Die Reparatur sollte bei Rückkehr des Fahrzeuges veranlasst werden.

Während der Zeit des Defektes musste das Fahrzeug an das Stromnetz angeschlossen werden. Zu diesem Zweck musste ein Übergangsstecker und Verlängerungskabel organisiert werden, dass sich im Fahrzeug befindende Kabel ist für eine alleinige Verwendung in der Regel zu Kurz. Eine Erweiterung der Ausrüstung mit einem CH-EU Adapter und einem längeren Anschlusskabel ist zu prüfen.

Bei der Überprüfung des Materials ([REDACTED]) wurde festgestellt, dass die Akkus des [REDACTED] entladen waren und das [REDACTED] noch eingeschaltet war. Das Laden der Akkus und der Ersatz der Batterien des [REDACTED] stellt in diesem Fall kein Problem dar.

Um einen erhöhten Organisationsaufwand zu vermeiden, wie z.B. der Austausch eines defekten [REDACTED] oder [REDACTED] wäre es besser, das Material vor der Übergabe in Bern zu überprüfen.

Die Mitarbeit mit dem zugewiesenen lokalen GRC-Mitarbeiter war sehr gut.

6. Personal Evaluation

6.1 Equipment and Training

(Insufficient, good, sufficient and with explanations)

Mit Ausnahme der oben erwähnten Punkten war die Ausrüstung des Einsatzfahrzeugs sehr umfangreich und kam verschiedentlich zur Anwendung. In Anbetracht der örtlichen Gegebenheiten bezüglich Topographie sowie des Wetters würde ein vorgängiger Offroad-Fahrkurs nützlich erscheinen.

Die Ausbildung und Informationen war ansonsten in Ordnung.

6.1 Accommodation and Transport

(Insufficient, good, sufficient and with explanations)

Angesichts der immer-wechselnden Covid-Verordnungen der verschiedenen Staaten sowie der damit verbundenen Unwägbarkeiten der Transportunternehmen ist eine Beurteilung schwierig. Allerdings wäre es empfehlenswert, wenn für eine See- oder Fährreise eine Aus-sen-Kabine gebucht wird (Gefahr Seekrankheit), selbst wenn diese nicht sofort buchbar ist. Der erste Hinreisetag war sehr lange (Abfahrt CH 06:00, Boarding Fähre 19:30), zweiter Reisetag in Ordnung. Die Rückreise war ebenfalls lange aber ertragbar (Abreise Hotel 09:30, Ankunft Zuhause 20:30 Uhr)

Für einen kurzen Aufenthalt war das Hotelzimmer in Ordnung, jedoch für eine längere Bleibe weniger geeignet (Hygiene, Grösse, Probleme mit Heizung in der ersten Woche)

Für die letzten 3 Nächte wurde zu einem neuen Hotel in [REDACTED] gewechselt. Dieses Hotel ist sehr gut.

7. Personal Evaluation

7.1 Operational experiences

(positive/negative)

Kennenlernen eines neuen Einsatzgebietes. Da die Situation aber ruhig war und keine Aufgriffe getätigt wurden konnte auch keine direkte Einsatzerfahrung mit den lokalen Behörden gesammelt werden. Wegen der Nähe zur albanischen Grenze wäre diese in normalen Zeiten aber jederzeit möglich (v. a. Drogentransporte)

Im Gespräch mit der örtlichen Bevölkerung wurde oft deren Wertschätzung für unsere Anwesenheit erwähnt.

7.1 Conclusion

Der Einsatz war eine positive Erfahrung, trotz der teils widrigen Umstände und der Tatsache, dass ein guter Teil davon in Quarantäne verbracht wurde.

Deployment location (If Air BCP, please specify IATA code)	██████ / BCU ██████ / GRE 2 2

I. PLANNING PHASE

What are the strong and weak points of the planning phase arrangements? (Operational Plan, information about deployment, financial arrangements, access to Frontex information systems, such as JORA, FOSS, etc.)

I could have an early good contact with FTSO, which permits me to organise myself for those 2 Months. The work schedule could arrive earlier. We receive them in the end of the previous months for the next months.

II. PRE-DEPLOYMENT ACTIONS

How helpful was the pre-deployment on-line training for performing your duties? What kind of additional topics would you suggest to be added in order to improve the performance of the Standing Corps members during Frontex coordinated activity?

For the first mission as Frontex ██████, I would prefer have a 3 Foss connections earlier to have time to read it and become

* Participating MS refers to the MS of origin deploying the Standing Corps officer or other participant.

more comfortable with that applications. A Smartphone App will be perfect.

Which parts/topics of the Operational Briefing did you find most important as a participant? What kind of information was missing from your perspective, which you deem relevant to be included?

As first mission was the completely briefing interesting.
However, I can understand that for an [REDACTED] which is used 3 to the topics become to repetitive.

III. LOGISTICS/PRACTICAL ARRANGEMENTS

What were the logistical challenges prior to and during your deployment? (*accommodation, working conditions, health and safety, others*)

ing while this COVID-19 time is a challenge. You never know what will happened in the next days. Many Forms are necessary to fly and to go in another country, which can be complicated. Otherwise was everything's fine.

Please assess the suitability of the technical equipment provided by Frontex for the tasks assigned during your deployment. Is there any other type of equipment that you would find useful for your duties?

The equipment we do have now fits perfectly the tasks we need to accomplish

Only for Standing Corps Category 1 (if applicable)

Please present pros and cons as regards the elements of Frontex uniforms, personal equipment, weapons (*lethal and non-lethal*) or other equipment provided for performing your duties within that operational activity.

To be filled in by the participant

IV. COORDINATION STRUCTURE

Was the communication with Frontex Coordinating Staff and national authorities of the host countries regular and sufficient for an effective cooperation? How do you assess the overall coordination of the activity in which you were involved (*the strongest and the weakest points*)? What are your suggestions to achieve better results?

- 3 The transmission which [REDACTED] are going to work in which BCU could be more clear, in the facts, 1 week before we
3 left, the BCU we left didn't knew the name of the next [REDACTED] which are following us

Please assess your integration within your respective team (*border management team, migration management team, return team*).

The team we met integrate us very quickly and nicely.

V. FUNDAMENTAL RIGHTS

How do you assess the fundamental rights compliance within the operational activity you were deployed to (*identifying and referring vulnerable persons to the competent authorities, including those in need of international protection; respect of the Code of Conduct; information of the migrant about Frontex complaints mechanism*)?

In the situations we saw, every things was optimal

VI. ADDITIONAL INFORMATION

Are there any comments/suggestions you would like to add? What developments (solutions) would you propose to the operational activity?

I would love have a quick border recognize before starting the mission. Will be easier to know the geographical situation in the region.

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

Die Daten beziehen sich ausschliesslich auf die Operation Poseidon (JO Poseidon) und aufgrund deren Verfügbarkeit jeweils für den Zeitraum vom Donnerstag der Vorwoche bis am Mittwoch der laufenden Woche!

Übersicht der Ereignisse vom 10.06. – 16.06.2021:

Allgemeine Informationen:

Die Aktivitäten im Bereich Migration sind weiterhin auf sehr tiefen Niveau stabil.

See-Operationen:

1 Seerettung Insel Kos (7 Migranten)

1 Migrationsbewegung Insel Lesbos (Ankunft von 24 Migranten)

13 verhinderte Abfahrten in der Türkei (403 Migranten, Zahl gem. TR-Behörden)

Land-Operationen:

10 Migrationsbewegungen in Patras (16 Migranten, 1 Schlepper)

2 Migrationsbewegungen in Igoumenitsa (7 Migranten, 2 Schlepper)

Detailliertere Erkenntnisse stehen mir mangels Zugang zu den entsprechenden Datenquellen zur Zeit nicht zur Verfügung.

2. Situation Forged Documents (only [REDACTED]) ³

Special cases, special forgeries, etc.

- Keine relevanten Erkenntnisse

3. Health and General Safety Situation

Covid-19, etc.

Persönlich:

- Negativer Covid-PCR-Test am 13.06.2021
- Erstimpfung am 14.06.2021 (Moderna)

5. Working conditions

Issues, working with local authorities and with Frontex

- Ich wurde am 16.06.2021 / 09:15 Uhr vom Team sehr freundlich empfangen
- Der Arbeitsplatz ist gut eingerichtet (tolle Aussicht über den gesamten Hafen)
- Am ersten Tag wurde mir ein Laptop von Frontex zur Verfügung gestellt (das Arbeiten mit dem eigenen Laptop ist nicht erwünscht/möglich). Die Zugangsdaten (Login) für den Frontex-Laptop sowie ein Account für das System [REDACTED] wurde am ersten Tag beantragt (JORA 2 Zugang hätte ich bereits vorgängig selber beantragen sollen/können. Mangels Unterstützung des Internet-Explorers und dem Silverlight-Plugin in der IT-Umgebung der EZV schlug dies jedoch fehl). Am zweiten Arbeitstag wurden die angeforderten Zugangsdaten vom Frontex - IT-Support zur Verfügung gestellt.
- Am zweiten Tag habe ich ebenfalls den Zugangs-Batch zum Arbeitsplatz erhalten.
- 2 - Zurzeit ist das ICC [REDACTED] aufgrund der ruhigen Migrations-Situation mit unüblich wenig Personal von Frontex besetzt. Nebst mir arbeiten nachfolgende Personen im ICC:
 - [REDACTED]
 - 1 ○ [REDACTED]
 - [REDACTED]
 - [REDACTED]
 - [REDACTED]
- Gute Einweisung in Aufgaben und Verantwortlichkeiten erhalten
- Gutes operationelles Briefing erhalten

- 2 - Unterkunft im [REDACTED] ist akzeptabel jedoch nicht zu empfehlen (Sauberkeit, kaum Reinigung aufgrund Covid-Vorschriften, Lärmemission da direkt an der Hauptverkehrsachse in [REDACTED], Lage nicht optimal, weit entfernt vom Arbeitsplatz, 40min zu Fuss, mit ÖV schlecht zu erreichen).
- 2 - Monatskarte für den öffentlichen Verkehr (Athens-Card) ist zu empfehlen (Athens-Card, für alle Verkehrsmittel im Grossraum Athen exkl. Flughafen, 27 Euro).
- Gratis-Shuttle im inneren der Hafenanlage mit Halt vor dem Arbeitsplatz.

Verstöße / Rechtsverletzungen:

Am 26.06.2021 ereignete sich nachfolgender Zwischenfall:

Das für Frontex im Einsatz stehende Patrouillenboot der [REDACTED] Küstenwache teilte 4 mit, dass sich am 26.06.2021, während der planmäßigen Patrouille um 15:27 Uhr, ein türkisches Militärboot mit hoher Geschwindigkeit seiner Position nahe der Grenzlinie in den territorialen griechischen Hoheitsgewässern ([REDACTED]) näherte und eine Gefahr 2 für die Sicherheit der Navigation darstellte.

Nach Rücksprache zwischen dem Operational Team Poseidon (OT) und der Besatzung des Patrouillenbootes wurde festgestellt, dass das Verhalten des türkischen Militärbootes nicht im Einklang mit den internationalen Navigationsregeln stand, wobei der Annäherungswinkel als Kollisionskurs angesehen wurde, weshalb das Patrouillenboot der [REDACTED] Küstenwa- 4 che gezwungen war, die Motoren zu stoppen um die Geschwindigkeit zu reduzieren und dem türkischen Marineschiff auszuweichen und damit eine Kollision zu vermeiden. Darüber hinaus verursachten die Geschwindigkeit der Annäherung und die ständigen Belästigungsmanöver des türkischen Militärboots grosse Wellen, die sowohl die Besatzung des Patrouillenbootes der [REDACTED] Küstenwache als auch das Boot selbst in Gefahr brachten und eine unsi- 4 chere und instabile Sicherheitslage schufen. 1. The following information is provided for the year ended 31 December 2014:

Spezielle Feststellungen / Modus Operandi:

Vermeehrt werden versuchte illegale Migrationsbewegungen von Griechenland nach Italien mit Fähren registriert. Patra und Igoumenitsa sind die beiden wichtigsten Häfen mit entsprechenden Fährverbindung nach Italien. Die Ausreise erfolgt dabei unter Verwendung von gefälschten Dokumenten oder in Verstecken in Transportmitteln. Es sind nur wenige Vorfälle mit Beteiligung von Fahrervermittlern bekannt. In einigen Fällen konnten jedoch mit Zustimmung des Fahrers speziell angefertigte Verstecke innerhalb der Ladung von LKWs festgestellt werden, die sich sowohl für den Transport von Drogen oder Schmuggelgut als auch Migranten eignen. Die Verwendung von teuren Autos für den Transport von Migranten wird ebenfalls registriert. Bei den Migranten handelt es sich hauptsächlich um Personen aus Afghanistan (im Zusammenhang mit dem allgemeinen Anstieg der Anlandungen von Afghanen).

Vendredi le 2 juillet lors de notre service de nuit nous avons été contacté par la CET Nord afin de savoir si un de nos agents Frontex était déployé à la frontière Gréco-turc. Après consultation de la liste nous avons pu leur dire que ce n'était pas le cas. Il s'agissait d'une recherche de personne. 1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

In questa settimana, abbiamo cercato di fare uno sforzo nel controllare i passeggeri dei Bus che vanno in direzione Albania. Molti dei passeggeri che sono in Over stay o che fanno di essere ripresi nelle banche dati, cercano di evitare il controllo di Polizia scendendo dal Bus e scappando per il confine verde a 10 m della dogana.

La Polizia, per via del numero di agenti, non è in grado di evadere tutte le pratiche. Gli Over stay vengono trattati, perché le multe sono ingenti arrivando a 1200 Euro.

Operation / Location: ² [REDACTED] (GRC)

Profile: ³ FOA Land as [REDACTED]

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

- ² Dans la zone de compétence qui nous est attribuée rien de nouveau est à relever. Au BCP de [REDACTED], il a été constaté que lorsque les bus à destination de l'Albanie quittent le territoire Grec, quelques'un de ces derniers s'arrêtent en amont du BCP pour laisser sortir des migrants sans papiers. Ces derniers contournent le poste par de petits chemins forestiers, puis remontent dans le bus plus loin sur territoire Albanais.

2. Situation Forged Documents (only [REDACTED])

Special cases, special forgeries, etc.

³

3. Health and General Safety Situation

Covid-19, etc.

Comme partout en Europe le variant Delta est en recrudescence dans le pays. Des mesures ont été remises en place. Pour s'asseoir à l'intérieur des commerces respectivement bars et restaurants et pour la pratique de certains sports il est nécessaire d'être vacciné. Pour voyager sur les îles, un certificat de vaccination ou un test antigène est nécessaire.

- ² La province de [REDACTED] est au niveau 3/5 en terme de danger de contamination. L'état grec a commencé à vacciné les 15-17 ans et 45% de la population est désormais vaccinée.

4. Others Phenomenon

Concerning Switzerland

- 2 Au vu de la situation citée plus haut à [REDACTED], nous avons été engagé durant un service de nuit au BCP de [REDACTED]. Notre objectif était de contrôler que personne ne descende du bus avant le passage de ce dernier au BCP. Durant cette nuit l'équipe FRONTEX [REDACTED] 7 [REDACTED] à repérer 9 personnes au total aux abords du BCP afin de tenter de sortir illégalement du territoire.

Notre collègue Grec en charge de notre groupe a perdu son papa ce qui a provoqué certaines incertitudes dans la planification de nos services.

FEEDBACK FROM PARTICIPANT

The participants of the operational activity are invited to fill in this template and submit to Frontex on a voluntarily basis within 7 calendar days after their deployment in the respective location of the operational activity, thus complementing the operational debriefing. The requested feedback is of high importance for the improvement, evaluation, further development and implementation of future operations. The feedback should be submitted via e-mail at [\[Address of respective operational activity\]](#).

I. PLANNING PHASE

What are the strong and weak points of the planning phase arrangements? (Operational Plan, information about deployment, financial arrangements, access to Frontex information systems, such as JORA, FOSS, etc.)

STRONG → Information was efficient and good communicated

WEAK → Nothing special

II. PRE-DEPLOYMENT ACTIONS

How helpful was the pre-deployment on-line training for performing your duties? What kind of additional topics would you suggest to be added in order to improve the performance of the Standing Corps members during Frontex coordinated activity?

We do not have any on-line training prior the deployment.

Which parts/topics of the Operational Briefing did you find most important as a participant? What kind of information was missing from your perspective, which you deem relevant to be included?

* Participating MS refers to the MS of origin deploying the Standing Corps officer or other participant.

7

Briefing was done through [REDACTED] and we miss some parts due to bad connexion that was not so efficient. But we got the main needed information.

III. LOGISTICS/PRACTICAL ARRANGEMENTS

What were the logistical challenges prior to and during your deployment? (*accommodation, working conditions, health and safety, others*)

For sure to follow all rules regarding Covid restrictions (test, cover few, restriction area, mask, announcement for every exit...

Please assess the suitability of the technical equipment provided by Frontex for the tasks assigned during your deployment. Is there any other type of equipment that you would find useful for your duties?

Exception of mask and gel we do not get any equipment provided by Frontex.

Only for Standing Corps Category 1 (if applicable)

Please present pros and cons as regards the elements of Frontex uniforms, personal equipment, weapons (*lethal and non-lethal*) or other equipment provided for performing your duties within that operational activity.

-

IV. COORDINATION STRUCTURE

Was the communication with Frontex Coordinating Staff and national authorities of the host countries regular and sufficient for an effective cooperation? How do you assess the overall coordination of the activity in which you were involved (*the strongest and the weakest points*)? What are your suggestions to achieve better results?

All was OK, our FTSO was always reachable and answer quickly in case of question.

Nevertheless, through GRC Police officer colleague we do not get any information. If nothing appear in the area they do not get any information from Police Station... we got more news by talking with other colleague or through Frontex Daily situation reports.

Otherwise, with the poor activity in the area were we have been deployed, a reaction from Frontex would be appreciated. Especially on the way to engaged the [REDACTED] in a varied environment. This was the weak point of the deployment because we never have any occasion to use the [REDACTED]. Finally this one was only staying in car all days like us.

Please assess your integration within your respective team (*border management team, migration management team, return team*).

Everything's was fine, GRC colleagues were nice and friendly with a good level of English.

V. FUNDAMENTAL RIGHTS

How do you assess the fundamental rights compliance within the operational activity you were deployed to (*identifying and referring vulnerable persons to the competent authorities, including those in need of international protection; respect of the Code of Conduct; information of the migrant about Frontex complaints mechanism*)?

We had no case.

VI. ADDITIONAL INFORMATION

Are there any comments/suggestions you would like to add? What developments (solutions) would you propose to the operational activity?

3 Maybe just take more attention of where the staff is deployed. For example, we came with a good 4x4 patrol car and a [REDACTED] but unfortunately, we did not have the opportunity to use our skills and equipment. That was absolutely the opposite of last year where we got so many cases (in [REDACTED] - GRC).

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

Durante il periodo del reporting abbiamo eseguito tre turni presso la BCU di [REDACTED]. ²
Secondo le informazioni ricevute al briefing ed in base al feedback del Team uscente, la situazione è piuttosto calma.

Il pattugliamento del confine con la Macedonia del Nord viene eseguito saltuariamente secondo le disposizioni dell'autorità ospitante, nello specifico quando viene comunicato dal collega GRE assegnatoci per il turno.

² Attualmente il numero di pattuglie è piuttosto esiguo. Il resto del servizio viene svolto presso la BCU [REDACTED] in attesa di istruzioni da parte dei colleghi GRE.

I movimenti di migranti nella zona d'impiego riguardano prevalentemente cittadini AFG, TUR di etnia KRD, PAK e SYR. Trattasi principalmente di piccoli gruppi composti da nuclei familiari, regolarmente registrati in GRE, che cercano di attraversare il confine con la Macedonia del Nord, autonomamente o con l'ausilio di passatori, allo scopo di raggiungere la rotta dei Balcani (Secondary Movements) e proseguire verso Paesi del nord d'Europa. Questi migranti, una volta intercettati e controllati, vengono rilasciati in quanto generalmente legalmente residenti sul suolo GRE.

Durante il periodo del reporting, in collaborazione con i colleghi GRE, abbiamo eseguito i seguenti fermi:

- 09.09.2021 / 11 citt. AFG

- Covid -19

Attualmente è possibile recarsi in bar, e ristoranti che offrono la possibilità di consumare all'aperto senza restrizioni mentre all'interno viene richiesto il Certificato Covid. Per quel che concerne il luogo di lavoro non vi sono, attualmente, disposizioni particolari oltre alle normali precauzioni che comprendono il porto della mascherina e la distanza sociale all'interno dei locali chiusi.

A partire da lunedì 13.09.21 è previsto un inasprimento delle restrizioni. Per l'accesso a bar, ristoranti, teatri, manifestazioni sportive o culturali, palestre, ecc., bisognerà esibire il Certificato Covid che dimostri di essere stati vaccinati o di aver contratto il SARS-COV-2 negli ultimi 6 mesi e di esserne guariti. In alternativa, per i non vaccinati, entrerà in vigore l'obbligo di eseguire un Test antigenico rapido che sarà valido per 48 ore.

Per quel che concerne l'attività lavorativa, sia nel settore pubblico che privato, gli impiegati non vaccinati dovranno esibire la prova di essersi sottoposti ad un Test antigenico rapido due volte alla settimana. Il test sarà a carico dei lavoratori ed avrà un costo di EUR 10.00.

Disposizioni per la Polizia Ellenica verranno emanate da parte del Comando centrale nelle prossime ore mentre per quanto attiene al personale Frontex non vi sono, al momento, aggiornamenti in merito. Le stesse non dovrebbero tardare.

Probabilmente anche gli agenti di Polizia e, di conseguenza, il personale Frontex non vaccinato sottostarà alle nuove inasprite disposizioni.

- 1 Per quel che concerne il Team CHE, [REDACTED] vaccinato non deve intraprendere alcuna misura. [REDACTED] non vaccinato, in attesa di disposizioni del Comando centrale della Polizia Ellenica e di Frontex. Come detto probabile obbligo di Test antigenico rapido da ripetersi ogni 48 ore.

- La tessera di legittimazione Frontex non è ancora stata distribuita, durante il Briefing il Frontex Technical Support Officer (FTSO) ci ha comunicato che non è dato di sapere quando le tessere arriveranno dal Comando centrale di Varsavia.
- La BCU ² [REDACTED] è ubicata in un vecchio stabile in cattive condizioni, in termini di logistica tutto è obsoleto. Stesso discorso per la flotta veicoli che, a parte un Pick-up di recente fornitura, conta di veicoli vecchi ed in cattive condizioni. Sulla base di esperienze precedenti in GRE, possiamo comunque dire che le condizioni sono parificabili a quelle di altre regioni e negli standard del Paese.

- Veicolo a noleggio

Nei casi dove il veicolo a noleggio non viene consegnato dall'agente che firma il contratto al momento del ritiro del veicolo, sarebbe auspicabile che una scansione della licenza di condurre di chi ritorna il veicolo sia trasmessa a chi firma il contratto in modo che il secondo autista possa venirne incluso. Questo permette di non essere confrontati con spiacevoli problemi burocratici in caso di incidente.

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

Il giorno 13 durante il turno [REDACTED] è stato avvistato un gruppo di persone che si aggiravano nei dintorni del BCU di [REDACTED]. Alle ore [REDACTED] presso la piazza del paese, abbiamo fermato in collaborazione con gli agenti GRC un sedicente citt. Pakistano. 5
2/5

La persona è stata accompagnata presso il BCU di [REDACTED], per gli accertamenti di Polizia. 2
Abbiamo eseguito anche una ricerca del resto del gruppo, ma senza risultato.

Il giorno 17 durante il turno [REDACTED] su segnalazione di terze persone, abbiamo fermato 5
25 migranti nella zona di [REDACTED] vicino Hotel [REDACTED]. Il gruppo di fermati (composti da 11 maroc- 2
chini, 10 afgani e 7 pakistani), dichiara di volere andare in Serbia per poi procedere verso la
destinazione finale Germania.

Assieme al gruppo di migranti è stato fermato un sospetto trafficante di esseri umani,
un sedicente citt. Tunisino che si legittimava con una carta d'identità ITA contraffatta
(con procedimento stampa termosublimazione) n° [REDACTED] 1

[REDACTED], documento e [REDACTED] 1
[REDACTED]. (Perizia del documento da parte del gruppo CHE [REDACTED]). 1

La persona dichiarava in lingua italiana di essere lì per caso e di volere andare in Serbia a trovare un amico.

Tutte le persone sono state portate via dalla Polizia GRC, per gli eventuali accertamenti del caso.

Nella settimana dal 13 al 19 settembre 2021 sono stati fermati e controllati 30 migranti e 2 passatori 1 GRC e 1 sedicente ITA / TUN.

In questa settimana, i movimenti di migranti nella zona d'impiego riguardano prevalentemente cittadini AFG, PAK e SYR. Trattasi principalmente di piccoli gruppi di maschi, giovani (da 5 a 20 persone), regolarmente registrati in GRC, che cercano di attraversare il confine con la Macedonia del Nord, autonomamente o con l'ausilio di passatori, allo scopo di raggiungere la rotta dei Balcani (Secondary Movements) e proseguire verso Paesi del nord d'Europa. Questi migranti, una volta intercettati e controllati, vengono rilasciati in quanto generalmente legalmente residenti sul suolo GRC.

- Covid -19

Il giorno 13.09.21, il FTSO informa che é entrato in vigore il nuovo regolamento COVID-19 in Grecia.

Per chi é vaccinato o contratto il SARS-COV-2 negli ultimi 6 mesi e di esserne guariti non esistono restrizioni, per chi non é vaccinato deve sottoporsi al test rapido di 48h per ogni volta che vuole entrare in una struttura chiusa (bar, ristoranti, teatri, manifestazioni sportive o culturali, palestre, ecc...).

Per quel che riguarda il lavoro gli agenti che non sono vaccinati devono sottoporsi al test rapido 48h una volta alla settimana.

Profile: [REDACTED] ³

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

Durante il periodo del reporting abbiamo eseguito sei (6) turni presso la BCU [REDACTED] di [REDACTED] ²
[REDACTED].

Malgrado i numeri restino contenuti, si nota un incremento costante di fermi, tendenza iniziata con la prima settimana (30) che si è confermata nel periodo di reporting attuale (254).

La ragione dell'incremento potrebbe essere dovuta all'arrivo imminente della stagione fredda ed alla volontà dei migranti di uscire illegalmente dal territorio Schengen sfruttando il passaggio del confine in questa zona fintanto che la meteo ancora lo permette.

Il pattugliamento del confine con la Macedonia del Nord viene eseguito saltuariamente secondo le disposizioni dell'autorità ospitante, nello specifico quando viene comunicato dal collega GRC assegnatoci per il turno.

Attualmente il numero di pattuglie è piuttosto esiguo. Il resto del servizio viene svolto presso la BCU Paionias di Idomeni in attesa di istruzioni da parte dei colleghi GRC.

I movimenti di migranti nella zona d'impiego hanno riguardato prevalentemente cittadini AFG, SYR, BGD e PAK. Trattasi principalmente di gruppi da 05 a 30 persone composti da soli maschi di età fra i 20 e 40 anni. In base alle verifiche eseguite dai colleghi Ellenici, i migranti generalmente, risultano regolarmente registrati in GRC. Gli stessi cercano di attraversare il confine con la Macedonia del Nord, autonomamente o con l'ausilio di passatori, allo scopo di raggiungere la rotta dei Balcani (Secondary Movements) e proseguire verso Paesi del nord d'Europa. Questi migranti, una volta intercettati e controllati, vengono rilasciati in quanto generalmente legalmente residenti sul suolo GRC.

Per quel che concerne il supporto che le pattuglie Frontex offrono ai colleghi GRC, si limita alla fase di intercettazione e fermo dei migranti. In un secondo tempo i migranti vengono presi a carico dai colleghi GRC, trasportati in un non definito luogo all'interno del paese dove verrebbero eseguiti gli approfondimenti ed in seguito, se regolarmente residenti su suolo GRC, rilasciati. Nel frattempo le pattuglie Frontex coinvolte nel fermo fanno rientro alla BCU [REDACTED] 2 di [REDACTED]. 2

Durante il periodo del reporting, in collaborazione con i colleghi GRC ed altre pattuglie Frontex, abbiamo eseguito i seguenti fermi: (stato 04.10.2021 / 06:00)

- 30.09.2021 / 01 evento / (totale 54 persone, tra cui 4 donne, 16 SYR, 10 BGD, 10 PAK, 10 AFG, 5 SOM, 3 CUB)
- 01.10.2021 / 02 eventi / 3 + 11 (totale 14 persone, 3 SYR, 11 PAK)

Altri casi senza la partecipazione del Team CHE:

- 27.09.2021 / 03 eventi / 12 +22 +15 (totale 49 persone, 49 PAK) fermate nel terreno.
- 28.09.2021 / 04 eventi / 12 +15 + 3 +10 (totale 40 persone, 34 PAK, 5 SOM, 1 AFG) fermate nel terreno.
- 29.09.2021 / 02 eventi / 2 + 7 (totale 9 persone fermate, 2 BGD, 7 SYR)
- 30.09.2021 / 04 eventi / 54 +18 +3 +3 (totale 78 persone fermate, 27 SYR, 8 SOM, 43 PAK)
- 03.10. 2021 / 01 evento / 10 persone (PAK) e 1 passatore.

Al momento non esistono indicatori che lascino presagire ad un incremento sostanziale di arrivi ai confini Sud della CHE. Di fatto, i migranti che riescono nell'intento di attraversare il confine GRC ed entrare in Macedonia del Nord, una volta inseriti nella Rotta dei Balcani, proseguono verso Nord ma, generalmente, i confini CHE vengono coinvolti marginalmente da migranti provenienti da questa rotta che prediligono evitare la CHE durante il percorso verso i Paesi del Nord d'Europa. Stesso discorso per i confini Est della CHE. Nel contesto attuale dei flussi migratori, l'uso del condizionale è d'obbligo in quanto la situazione piuttosto dinamica è sempre soggetta a cambiamenti repentini imprevedibili e va pertanto monitorata costantemente.

2. Health and General Safety Situation

Covid-19, etc.

- Covid -19

Dal 30.09.2021, tutta la zona del Centro Macedonia comprendente (Thessaloniki, Larissa, Kil-kis, Halkidiki) è diventata zona rossa / livello 4, con nuove restrizioni (coprifuoco dalle 01:00 alle 06:00 e niente eventi musicali), per il resto rimane tutto uguale.

Per l'accesso a bar, ristoranti, teatri, manifestazioni sportive o culturali, palestre, ecc., è necessario esibire il Certificato Covid che dimostri di essere stati vaccinati o di aver contratto il SARS-COV-2 negli ultimi 6 mesi e di esserne guariti. In alternativa, per i non vaccinati, vige l'obbligo di esibire un Test antigenico rapido non più vecchio di 48 ore.

Per quel che concerne l'attività lavorativa, sia nel settore pubblico che privato, gli impiegati non vaccinati devono esibire la prova di essersi sottoposti ad un Test antigenico rapido 1 volta alla settimana. Il test che aveva un costo iniziale di 10 EUR poi ridotto a EUR 07.00, è a carico dei lavoratori.

Come già comunicato via E-mail, anche gli agenti di Polizia e, di conseguenza, il personale Frontex non vaccinato sottostà alle nuove inasprite disposizioni. La copertura dei costi viene sostenuta da Frontex che effettuerà il rimborso anche ai membri di Cat 3.

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

Durante il periodo d'impiego abbiamo eseguito diciotto (18) turni come da pianificazione inoltrata precedentemente.

Malgrado il numero di pattuglie al confine limitato, in termini numerici, i fermi di migranti eseguiti durante la sorveglianza 24/7, in collaborazione con altre pattuglie Frontex e con i colleghi GRC, sono esponenzialmente aumentati settimana dopo settimana da undici (11) nella prima, a trenta (30) nella seconda, a cento trenta (130) nella terza per finire con due cento cinquanta quattro (254) nella quarta per un totale di quattro cento venti cinque (425).

I passatori identificati ed arrestati sono stati in totale due (02).

I fermati, in base alle indicazioni fornite dai colleghi GRC, erano prevalentemente registrati regolarmente in GRC e tentavano di uscire dalla zona Schengen per raggiungere la Macedonia del Nord e proseguire seguendo la rotta dei Balcani verso i Paesi del Nord d'Europa (Secondary Movements all'interno della zona Schengen). Questi migranti, dopo essere stati fermati, venivano trasportati all'interno del Paese in luogo a noi sconosciuto ed in seguito rilasciati.

Pochi i casi di entrata o soggiorno illegale a conferma di un flusso migratorio che in questa zona GRC al confine con la Macedonia del Nord riguarda quasi esclusivamente l'uscita illegale dal territorio Schengen.

Da parte nostra abbiamo comunque constatato alcuni casi di soggiorno illegale di migranti in provenienza dalla Macedonia del Nord. Questi migranti, se non in casi sporadici, non vengono generalmente trattati dai colleghi GRC come tali ma allontanati all'interno del Paese come per coloro regolarmente registrati in GRC.

I Paesi di provenienza dei migranti sono stati prevalentemente PAK, SYR, BGD ed AFG, in minor misura IRQ, SOM e TUR. Generalmente si trattava di maschi (solo 04 le donne fra i fermati) di età fra i 20 ed i 40 anni che si spostavano sempre in gruppi composti mediamente da una decina di persone o più.

Particolarità la presenza di alcuni cittadini CUB fra i migranti, nel periodo d'impiego due (02) i casi accertati. Questi migranti raggiungono la Macedonia del Nord con visto turistico per poi cercare di entrare illegalmente nel territorio Schengen. Per quel che concerne il disbrigo dei casi dove abbiamo collaborato al fermo, 1 persona è stata arrestata per entrata illegale mentre altre 3, un nucleo familiare, allontanati all'interno del Paese come per i migranti regolarmente registrati.

In base ai timbri nei passaporti ed alle domande poste ai migranti, risulta che i cittadini CUB siano entrati in Macedonia del Nord dapprima per la via aerea atterrando a Belgrado e Mosca, destinazioni per le quali non è apparentemente richiesto un Visto d'entrata, per poi procedere verso la Macedonia del Nord con mezzi pubblici.

Conclusione:

Malgrado l'incremento di fermi nelle ultime settimane, allo stato attuale, non esistono indicatori che facciano presagire ad un incremento di arrivi in massa di migranti, provenienti dalla Rotta dei Balcani, ai confini interni della CHE maggiormente confrontati con flusso migratorio in arrivo dalla Rotta del Mediterraneo Centrale.

Tenendo comunque presente la situazione migratoria attuale piuttosto dinamica, l'uso del condizionale è d'obbligo in quanto la situazione potrebbe cambiare repentinamente. Per questo motivo resta necessario monitorare costantemente la situazione.

3. Health and General Safety Situation

Covid-19, etc.

Il 13.09.2021 le autorità Greche hanno deciso di inasprire le misure di contenimento atte a limitare il propagarsi del virus SARS-COV-2. Queste misure, di cui abbiamo fornito i dettagli nei Rapporti settimanali, mi hanno parzialmente condizionato in quanto non essendo vaccinato ho dovuto sottopormi a Test antigenici rapidi a scadenze regolari. Questo non solo per poter lavorare ma anche per svolgere altre attività come frequentare una palestra o andare al ristorante.

Durante l'impiego non sono stati riscontrati casi di positività al virus né fra i colleghi locali né fra quelli di Frontex.

Frontex ha fornito regolarmente materiale di protezione adatto alla situazione.

4. Others Phenomenon

5. Working conditions

Issues, working with local authorities and with Frontex

Le condizioni di lavoro sono state influenzate dalle misure di prevenzione ed impedimento del propagarsi del Virus come il porto della mascherina al chiuso e nei veicoli e la distanza sociale. Misure oramai diventate di routine che non incidono particolarmente sullo svolgimento del lavoro.

Le condizioni dell'immobile che ospita la stazione di Polizia a Idomeni, così come l'arredamento ed una parte dei veicoli di servizio è precaria ma nello standard per il Paese, talvolta il numero di agenti Grechi e dei rinforzi Frontex impiegati contemporaneamente faceva sì che non vi fosse spazio a sufficienza in ufficio per tutto il personale.

L'ambiente, per quel che mi concerne, è stato generalmente piacevole, peccato che i colleghi locali lavorino seguendo una rotazione diversa dai Team Frontex. Questa situazione, se da un lato permette di conoscere più persone, dall'altro impedisce di trovare l'affiatamento che caratterizzerebbe l'impiego costante nel contesto della medesima squadra.

In generale non sono stato confrontato con problemi di alcun tipo sia con i colleghi locali che con quelli di Frontex. L'approccio corretto che includa, oltre alla professionalità anche disponibilità e flessibilità, si è dimostrato una volta di più la chiave del successo per un risultato nel complesso positivo.

È bene soffermarsi sul fatto indiscutibile che la qualità del lavoro, l'impegno e la professionalità non sono quelle che ci si auspica da un organo di controllo dei confini esterni di Schengen. Sarebbe comunque sbagliato far rimarcare queste lacune ai colleghi GRC durante lo svolgimento del servizio in quanto non va dimenticato di essere ospiti in un Paese che ha chiesto il nostro supporto ma che è responsabile di definire i dettagli del nostro impiego. Sconsigliato anche fare dei paragoni con il nostro Paese in quanto non disponiamo di conoscenze culturali ma non solo, sufficienti da permetterci di criticare un sistema solo perché si differenzia dal nostro. Credo quindi sia buona cosa, in fase di briefing, sensibilizzare su questa tematica personale dell'AFD senza o con poca esperienza internazionale in modo da evitare di commettere errori che pregiudichino uno svolgimento collaborativo della Missione.

Eventuali critiche possono poi venir esposte in sede di Debriefing AFD con il Coordinatore agli impieghi, valutate, ed eventuali misure intraprese d'intesa con il NFPoC ed il Capo impieghi.

6. Personal Evaluation

6.1 Equipment and Training

(Insufficient, good, sufficient and with explanations)

Normalmente lo standard generale della preparazione ad un impiego Frontex da parte dell'AFD risponde appieno alle esigenze. Le informazioni sono trasmesse puntualmente all'agente da parte del Coordinatore agli impieghi. Le pagine Weiak dedicate forniscono un ulteriore apprezzato supporto didattico mentre l'assistenza durante l'impiego è garantita in tempi brevi.

L'impiego come [REDACTED] da parte di agenti dell'AFD armati e con formazione gcf non comporta problemi particolari in quanto i compiti da svolgere rientrano nel mandato prestazionale per il quale gli agenti sono formati. 3

L'equipaggiamento IT è completo e performante.

6.1 Accommodation and Transport

(Insufficient, good, sufficient and with explanations)

Buono, l'alloggio al [REDACTED] Hotel Suites di [REDACTED], albergo 3 stelle che soddisfa a pieno 2 le esigenze per un impiego di breve durata. Le stanze sono pulite e spaziose ed includono un piccolo angolo cottura. Nella struttura è possibile organizzare autonomamente il bucato, Il personale è cortese e disponibile. Unico neo l'offerta di canali TV internazionali piuttosto limitata.

Il veicolo di servizio è in buone condizioni malgrado a breve dovrà essere eseguito il servizio di controllo ordinario.

Personalmente non ho avuto bisogno di usare il veicolo fuori servizio. Mi sono quindi accordato con il collega che ne ha fatto uso, per lasciarlo posteggiato c/o appartamento a partire dal 17.09 data del suo trasloco dall'albergo all'appartamento.

7. Personal Evaluation

7.1 Operational experiences

(positive/negative)

Positivo

L'agente impiegato in favore della JO FOA Land21 nella funzione [REDACTED], impara a comportarsi in ambiente lavorativo internazionale, sia con i colleghi del Paese ospitante che con quelli di Frontex. impiegati nel controllo del confine verde. Elemento non trascurabile nell'AFD orientata sempre più verso la collaborazione con partner interni ed esterni. 3

Il personale dell'AFD impiegato temporaneamente nel contesto della JO FOA Land21 permette di acquisire informazioni ed aggiornamenti costanti sul flusso migratorio al confine esterno di Schengen nella zona d'impiego e di fare delle previsioni su possibili scenari al confine interno della CHE.

Negativo

Nel contesto attuale di riforma dell'AFD, assenze di lunga durata impediscono di restare aggiornati sull'evoluzione di programmi e progetti operativi. Tale situazione comporta uno sforzo supplementare da parte dell'agente costretto a colmare eventuali lacune al rientro dall'impiego.

7.1 Conclusion

A breve concluderò il 23esimo anno consecutivo di collaborazione in ambito internazionale di cui 11 al servizio del Pool Frontex.

Malgrado ciò è sempre stimolante ed interessante poter partecipare in Operazioni di questo genere sia dal punto di vista professionale che privato.

In ragione della menzionata fragilità del dispositivo di controllo del confine verde in questa zona d'impiego è auspicabile l'invio anche in futuro di personale dell'AFD.

8. Remarks and suggestions

Essendo stato per me il primo impiego gestito dal nuovo Coordinatore agli impieghi internazionali, un feedback sull'impiego in relazione alle aspettative del Coordinatore è benvenuto.

FEEDBACK FROM PARTICIPANT

The participants of the operational activity are invited to fill in this template and submit to Frontex on a voluntarily basis within 7 calendar days after their deployment in the respective location of the operational activity, thus complementing the operational debriefing. The requested feedback is of high importance for the improvement, evaluation, further development and implementation of future operations. The feedback should be submitted via e-mail at foa.land@frontex.europa.eu.

I. PLANNING PHASE

What are the strong and weak points of the planning phase arrangements? (Operational Plan, information about deployment, financial arrangements, access to Frontex information systems, such as JORA, FOSS, etc.)

Within the Swiss Border Guards Pool to Frontex the Planning phase works properly, without any problem, both the NFPoC and a dedicated Coordinator take care of the details of the deployment of any single border guard without any delay. A dedicated Briefing is organized prior departure.

II. PRE-DEPLOYMENT ACTIONS

How helpful was the pre-deployment on-line training for performing your duties? What kind of additional topics would you suggest to be added in order to improve the performance of the Standing Corps members during Frontex coordinated activity?

I do not know I belong to Cat. 3 personnel therefore I was not involved in the training.

4/6

* Participating MS refers to the MS of origin deploying the Standing Corps officer or other participant.

[REDACTED]

Which parts/topics of the Operational Briefing did you find most important as a participant? What kind of information was missing from your perspective, which you deem relevant to be included?

The National Operational Briefing is the most important part because it refers to the real working situation in the country, area and field of deployment.

The most important topic, use of weapons and coercive means.

III. LOGISTICS/PRACTICAL ARRANGEMENTS

What were the logistical challenges prior to and during your deployment? (*accommodation, working conditions, health and safety, others*)

The furniture and equipment in general at BCU [REDACTED] in [REDACTED] is worn out and need to be changed, The accommodation at Hotel [REDACTED] was good, bearing in mind the present Pandemic situation, we must be ready to face some difficulties when deployed in the field. This is why we have to show flexibility and availability.

2
2
2

Please assess the suitability of the technical equipment provided by Frontex for the tasks assigned during your deployment. Is there any other type of equipment that you would find useful for your duties?

Frontex provided a part from "The welcome kit", no technical equipment during the deployment. As CHE [REDACTED] Team, we brought our own equipment and Patrol vehicle to the service and to support of the Hellenic Police.

3

Only for Standing Corps Category 1 (if applicable)

Please present pros and cons as regards the elements of Frontex uniforms, personal equipment, weapons (*lethal and non-lethal*) or other equipment provided for performing your duties within that operational activity.

IV. COORDINATION STRUCTURE

Was the communication with Frontex Coordinating Staff and national authorities of the host countries regular and sufficient for an effective cooperation? How do you assess the overall coordination of the activity in which you were involved (*the strongest and the weakest points*)? What are your suggestions to achieve better results?

The GRC Local Coordinator was included in the Team Chat Group as well as The Frontex FTSO and both were always sharing info of interest and Daily Overview Reports. Briefing and debriefing were carried out meticulously.

Please assess your integration within your respective team (*border management team, migration management team, return team*).

The cooperation with Frontex colleagues of all Categories and with the GRC colleagues was outstanding.

V. FUNDAMENTAL RIGHTS

How do you assess the fundamental rights compliance within the operational activity you were deployed to (*identifying and referring vulnerable persons to the competent authorities, including those in need of international protection; respect of the Code of Conduct; information of the migrant about Frontex complaints mechanism*)?

During by daily activities over the entire period of deployment, I did not face any situation of this kind, which involve Frontex employed personnel to take actions.

VI. ADDITIONAL INFORMATION

Are there any comments/suggestions you would like to add? What developments (solutions) would you propose to the operational activity?

There is always room for improvement to enhance both effectiveness and performance. In the contest of this JO, more patrols could be carried out over the shift and the tactical measures to intercept and stop migrants could be discussed in a short briefing on a case-by-case basis.

Profile: [REDACTED] ([REDACTED]) ³

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

Il valico autostradale di [REDACTED] non è generalmente toccato dal fenomeno migra- ²
zione. Secondo quanto dichiarato dai capi turno, in sporadiche occasioni nel corso
dell'anno vi sono stati dei fermi nel confine verde dove sono stati intercettati dei pas-
satori che aveva precedentemente sfruttato il valico di [REDACTED] per entrare su suolo ²
HRV per poi recuperare migranti entrati illegalmente in HRV attraverso il confine verde.
Non trovandosi questa zona sull'asse di nessuna rotta principale sfruttata dai flussi
migratori per spostarsi verso nord, il fenomeno resta molto limitato.

2. Situation Forged Documents (only [REDACTED]) ³

Special cases, special forgeries, etc.

Durante il periodo d'impiego ho eseguito delle perizie sia su richiesta dei colleghi HRV
che su mia iniziativa. In ragione della scarsità di traffico dovuto alle restrizioni Covid in
HRV e nella confinante BIH, e tenendo conto della tipologia di traffico, prevalentemente
locale o di nuclei familiari di transito verso i Paesi di residenza o di origine, La
priorità dei controlli è stata data alla qualità piuttosto che alla quantità.

L'unico fenomeno di interesse è da collegare a veicoli e persone ALB presentatesi
generalmente in orari notturni intenzionati a raggiungere prevalentemente ITA e DEU.
In buona parte questi viaggiatori, malgrado disponessero dei documenti di viaggio ne-
cessari per entrare sul suolo Schengen, sono stati respinti in quanto non erano in grado
di fornire documentazione attendibile inerente alle ragioni per le quali si volevano re-
care nei Paesi di destinazione dichiarati. Inoltre, molti di questi viaggiatori, durante i
controlli approfonditi di seconda linea, hanno fornito dei certificati PCR contraffatti. Le
verifiche sui veicoli per il sospetto di occultamento di sostanze stupefacenti e la ricerca

di ricettacoli, effettuate dai colleghi HRV con l'assistenza degli specialisti Frontex, sono sempre risultati negativi.

Durante il periodo d'impiego tutti i documenti periziati, elencati nel dettaglio del reporting settimanale, si sono dimostrati essere autentici e validi. Per quel che concerne i Certificati PCR periziati come contraffatti dal Team [REDACTED], gli indizi regolarmente presenti ossia, timbri a umido, firme autografe, codice QR e tipologia di stampa uguale ad altra documentazione "sospetta" hanno portato i colleghi HRV a decidere per il respingimento. 3

3. Health and General Safety Situation

Covid-19, etc.

Dal punto di vista operativo tutto l'impiego è stato condizionato dalle misure restrittive adottate sia dalla HRV che dalla confinante BIH. In aggiunta alle sempre vigenti misure atte ad impedire l'ulteriore propagarsi del Virus in vigore in questi Paesi, le condizioni per poter viaggiare piuttosto dinamiche con frequenti aggiornamenti fanno sì che anche il traffico internazionale sia di diaspora che turistico risulta molto ridotto.

Ne consegue che la situazione, anche al valico esterno di [REDACTED], è molto simile a quella che si può osservare ai confini interni della CHE. 2

Il Team Frontex non ha subito assenze dovute a malattia causata dal Virus durante il mio periodo d'impiego. Malgrado ciò, due colleghi hanno fatto rientro in Patria per essere vaccinati e sono stati assenti per diversi giorni. Rimasti in tre agenti operativi, abbiamo praticamente lavorato soli durante buona parte del mese di aprile.

Il distretto Dubrovnik-Neretva, di cui fa parte [REDACTED], è sempre in "mini lockdown" con scuole, bar e ristoranti chiusi. In BIH continua il coprifuoco dalle 2100 alle 0500. 2

4. Others Phenomenon

Re-ingresso in CHE

Le condizioni di re-ingresso in CHE sono state chiarite con il Cantone.

Sulla base della dichiarazione da voi emessa all'attenzione del Medico cantonale, l'esonero dalla quarantena è garantito secondo la Sezione 4, art. 8 dell'Ordinanza sui provvedimenti per combattere il coronavirus nel settore del traffico internazionale viaggiatori. Secondo l'autorità cantonale, non è necessaria la notifica al Cantone, il datore di lavoro si assume la responsabilità in caso di controlli dell'autorità a posteriori.

Per il re-ingresso in CHE ho effettuato l'annuncio online all'Ufficio federale della sanità pubblica e mi sono sottoposto al Test CPR risultato negativo. Il test è stato necessario in quanto in ITA non ho effettuato il transito diretto avendo pernottato per una notte. Come ulteriori misure preventive atte a confermare la negatività al Virus, mi sottoporro a Test rapidi prima del Debriefing del 29.04 e della ripresa del lavoro in Ticino.

Arma di servizio

Come da vostra richiesta è stato [REDACTED] 7
[REDACTED] nel periodo dalla mia partenza all'arrivo del collega [REDACTED]. La 7/1
stessa, unitamente al resto dell'equipaggiamento, verrà depositata in cassaforte
nell'ufficio del Coordinatore HRV presso la BPU di [REDACTED] e verrà rilevata dal collega 2
in occasione del Briefing; come da informazione dettagliata trasmessavi separata-
mente.

5. Working conditions

Issues, working with local authorities and with Frontex

Come già riportato sopra e nel Reporting settimanale, la situazione pandemica attuale
condiziona ampiamente la mole di traffico sia in entrata che in uscita che transita at-
traverso il valico di [REDACTED]. Di 5 corsie per senso di marcia, attualmente, solo 1 è 2
aperta 24/7. Il coprifuoco in BIH inoltre riduce ulteriormente il traffico nelle fasce se-
rale/notturna.

I colleghi HRV lavorano seguendo una [REDACTED] 4/5/6
[REDACTED].

Dopo la richiesta da parte di Frontex di adattare i turni agli orari dei colleghi HRV, la
pianificazione di aprile è stata aggiornata e trasmessa alla vostra attenzione. [REDACTED] 4/5/6
[REDACTED] II
totale delle ore sul mese d'impiego inclusi Travel, Briefing e Debriefing days corri-
sponde in grandi linee alla pianificazione in PEP.

Dopo la mia partenza l'attuale composizione del Team di [REDACTED] di 1 agente [REDACTED] 2/4
della cat. I, 1 [REDACTED] e 1 [REDACTED] della cat. II e di 1 [REDACTED] della cat. III è pianificata fino ad 4
agosto. A fine aprile è previsto un agente [REDACTED] mentre non sono al corrente di ulteriori 4
arrivi prima del collega [REDACTED]. 1

Buono è stato il rapporto sia con il coordinatore HRV [REDACTED] che con i capi turni 1
ed i loro collaboratori durante i servizi svolti al valico.

6. Personal Evaluation

6.1 Equipment and Training

(Insufficient, good, sufficient and with explanations)

Normalmente lo standard generale della preparazione ad un impiego Frontex da parte dell'AFD risponde appieno alle esigenze. Le informazioni sono trasmesse puntualmente all'agente da parte del Coordinatore, le pagine Weiak forniscono un ulteriore apprezzato supporto didattico mentre l'assistenza durante l'impiego è garantita in tempi brevi.

In generale l'equipaggiamento IT in dotazione con [REDACTED]

[REDACTED] 7
Sarebbe interessante per agenti con profilo [REDACTED] frequentare corsi Frontex per questi 3
specialisti in quanto viene spiegato come creare delle schede "Alert" ed altre informazioni utili sul Reference Manual e le ultime novità in ambito di falsificazioni.

Nota negativa [REDACTED] che si dimostra una soluzione non ideale nella ver- 7
sione attualmente a disposizione sul profilo BA. Comunque il Debriefing Frontex è
stato organizzato con il supporto [REDACTED] apparentemente preferito a 7
[REDACTED] 7

6.1 Accommodation and Transport

(Insufficient, good, sufficient and with explanations)

La soluzione in albergo va bene ma non per impieghi oltre il mese. L'opzione appartamento da prediligere, specialmente fino a quando restano in vigore le restrizioni Covid con ristoranti chiusi.

Veicolo a noleggio niente da dire, come già comunicato, da sapere che in caso di noleggio dalla CHE, in base alle prescrizioni come da contratto di noleggio, non è possibile recarsi in BIH con il veicolo a noleggio.

7. Personal Evaluation

7.1 Operational experiences

(positive/negative)

Positivo

L'agente impara a comportarsi in ambiente lavorativo internazionale, con i colleghi Frontex e quelli del Paese ospitante, elemento non trascurabile nell'AFD orientata sempre più verso la collaborazione con partner interni ed esterni.

Il personale dell'AFD impiegato temporaneamente nel contesto della JO Focal Points amplia il proprio portfolio di contatti ed ottimizza la possibilità di risalire ad informazioni operative utili per la lotta alla criminalità transfrontaliera organizzata.

La funzione [REDACTED] permette all'agente di rinfrescare le proprie nozioni in materia di falsificazione dei documenti. Lo specialista si occupa unicamente di controllo e verifica dei documenti ed effettua perizie con l'ausilio del materiale a disposizione nel [REDACTED] ed altri simili supporti specialistici.

[REDACTED]

Negativo

In tempi normali non vi dovrebbero essere dei punti negativi legati ad un impiego in questo contesto. Tenendo però conto della riforma in corso all'AFD, per gli agenti con funzioni quadro o ambizioni di carriera, nella fase attuale, potrebbe rivelarsi negativo l'essere assente per impieghi all'estero.

In questa fase di frequenti cambiamenti, potrebbe rivelarsi difficoltoso restare aggiornato in particolar modo sui cambiamenti operativi a livello locale.

7.1 Conclusion

Malgrado anche Frontex stia vivendo una fase ri-organizzativa con l'impiego del primo contingente dello Standing Corps e con la gestione degli agenti di cat. II, e le conseguenti e giustificate sfide organizzative che ne derivano, resta sempre interessante poter partecipare alle JO ai confini esterni.

8. Remarks and suggestions

Tenendo conto dell'attuale situazione Pandemica e della minor richiesta da parte di Frontex di personale della cat. III in ragione del dichiarato effettivo sufficiente proveniente dalle cat I e II, mi sono posto la domanda su come far fronte al problema all'interno del Pool dell'AFD.

Frontex ha da poco dispiegato nel terreno la sua prima forza di 500 uomini appartenenti allo Standing Corps, nel breve/medio termine è previsto l'impiego di altri 1000 agenti attualmente in formazione.

Avendo avuto modo di lavorare con agenti appartenenti a questa categoria, mi sono reso conto dell'operatività limitata che li contraddistingue.

[REDACTED]

Se compatibile con le dinamiche di negoziazione degli impieghi con Frontex, mi sono quindi detto che una soluzione per il Pool dell'AFD per evitare che impieghi della cat.

III vengano cancellati o ridotti potrebbe essere trovata nell'impiego dei nostri agenti là dove il profilo richieda non solo il servizio in uniforme ma anche l'impiego armati.

In fase di Debriefing, un'opinione sull'argomento, se ritenuto da parte vostra interessante, è ben venuta.

1. Situation Illegal Migration

Il fenomeno migrazione tocca solo marginalmente il BCP [REDACTED] in quanto la maggioranza **2**

della BCU [REDACTED]. Il fenomeno resta comunque molto contenuto rispetto a quanto accade sulla rotta balcanica al confine Nord della HRV con la BIH.

Per quel che concerne il BCP [REDACTED], i respingimenti effettuati al valico non rientrano nel **2**
contesto dei flussi migratori ma concernono prevalentemente cittadini di alcuni Paesi dell'area
balcanica in transito verso il nord d'Europa non in regola. Il trend attuale riguarda citt ALB che
presentato test PCR contraffatti o senza documentazione appropriata che giustifichi l'entrata
o il transito su territorio HRV.

Tutti i documenti si sono dimostrati essere autentici ed in corso di validità.

Il Team Frontex in totale ha periziato come contraffatti 3 Test Covid PCR e 3 contratti di lavoro presentati da altrettanti citt. ALB che volevano transitare in HRV, destinazione finale DEU.

Il 07.04 parteciperò ad un corso online per [REDACTED] organizzato dal Centre of Excellence for Comating Document Fraud. Il corso viene organizzato in quanto la qualità dei Frontex Document Alert prodotti in questi primi mesi dalla JO FP Land21 è scarsa. 3

3. Health and General Safety Situation

Covid-19, etc.

La situazione sul posto di lavoro è buona, nessun caso di COVID-19 segnalato fra i colleghi del team Frontex. Per quel che concerne i colleghi HRV, fra l'effettivo di circa 300 agenti del Livello Locale della stazione di Polizia di frontiera di [REDACTED], vengono sporadicamente segnalati dei casi che, ad oggi, si sono tutti risolti con qualche giorno di convalescenza. 2

In termini più ampi, il distretto Dubrovnik-Neretva, di cui fa parte [REDACTED], è attualmente in "mini lockdown" con scuole, bar e ristoranti chiusi in ragione di un aumento dei casi constatato nelle ultime settimane. Non è al momento chiaro fino a quando questo stato verrà mantenuto. La situazione nella confinante BIH non è migliore con Sarajevo a fungere da epicentro pandemico ed attualmente in lockdown. La pressione sulle strutture sanitarie in BIH è molto elevata, situazione che ha costretto le autorità ad imporre il coprifuoco dalle 2100 alle 0500. 2

Il centro "Checkpoint COVID" e l'ospedale di [REDACTED] si trovano a pochi passi dall'albergo dove risiedo, in caso di bisogno farò quindi capo a queste strutture. 2

In E-Gate la mia Richiesta di viaggio NON è ancora stata approvata. (stato 28.03.21 / 1300)

In occasione del Briefing Frontex, svoltosi online riscontrato nuovamente problemi a partecipare alla riunione esterna all'Amministrazione. Stessi problemi avuti anche dal collega [REDACTED] collegato dalla GRE. In modo da poter seguire le presentazioni ho dovuto scaricare [REDACTED] su laptop privato e partecipare come ospite. Da laptop di servizio vengono richiesti dati a me sconosciuti per poter partecipare. Da cellulare risultato impossibile visualizzare le presentazioni.

- 2 L'opzione con sistemazione in albergo al [REDACTED] è soddisfacente ma non indicata per periodi di permanenza oltre il mese. Nella stagione primavera-estate consigliata, anche per un solo mese d'impiego, la variante appartamento. In questo senso il collega [REDACTED] al Debriefing fornirà i dettagli di alcuni appartamenti ubicati lungo la costa a distanza ragionevole dal BCP di [REDACTED] 1
2 [REDACTED].

L'opzione di noleggiare un veicolo direttamente in CHE è interessante ma occorre informare i colleghi delle restrizioni imposte dalla Europcar in merito ai Paesi nei quali si è autorizzati a viaggiare. Infatti, in base alle Condizioni di contratto, per la HRV è previsto un supplemento sul canone assicurativo mentre la BIH non rientra nella lista dei Paesi autorizzati. Ne consegue che visite/gite nel tempo libero in BIH non sono possibili con il veicolo a noleggio.

Le condizioni di re-ingresso in CHE in provenienza dalla Croazia sono state definite. L'autorità Cantonale è stata contattata dal sottoscritto due volte per mezzo Email alla Hotline. Nel primo caso sono stato informato che spetta al singolo individuo di definire se facente parte delle categorie esonerate dalla quarantena e, di conseguenza, che non devono, secondo la legge, annunciarsi al Cantone. Nella seconda occasione ho trasmesso la vostra lettera, indirizzata al Medico cantonale, senza ricevere feedback. Da parte mia, se vi trova d'accordo, ne conseguo che non devo più fare niente a livello Cantonale.

L'annuncio all'Ufficio Federale della Sanità Pubblica è già stato fatto per il rientro, in ogni caso, il 24.04.21.

Il 22.04.21 effettuerò il Test CPR in quanto necessario visto il pernottamento in ITA. Il viaggio di rientro con il veicolo a noleggio inizierà il 23 dopo il Debriefing per proseguire il 24 fino a destinazione.

Le attuali date inerenti all'impiego inclusi il giorno di compensazione e di Debriefing attualmente in PEP sono di conseguenza confermate.

Prima del Debriefing e della ripresa del lavoro in Ticino mi sottoporro a Test rapidi gratuiti a conferma della negatività al virus.

Reporting della settimana dal 19 al 25.04.2021

La settimana prossima effettuerò 1 solo turno di servizio, gli altri giorni saranno dedicati ai Debriefing, giorni di libero (2) ed al Travel Day.

I. PLANNING PHASE

What are the strong and weak points of the planning phase arrangements? (Operational Plan, information about deployment, financial arrangements, access to Frontex information systems, such as JORA, FOSS, etc.)

To be filled in by the participant

Within the Swiss Pool to Frontex the Planning phase works properly, without any problem, both the NFPoC and a dedicated Coordinator take care of the details of the deployment of any single border guard without any delay.

II. PRE-DEPLOYMENT ACTIONS

How helpful was the pre-deployment on-line training for performing your duties? What kind of additional topics would you suggest to be added in order to improve the performance of the Standing Corps members during Frontex coordinated activity?

access to police databases. Any action aimed to allow Cat 1 personnel to [REDACTED] would enhance the efficacy of the Standing Corps.

6

Which parts/topics of the Operational Briefing did you find most important as a participant? What kind of information was missing from your perspective, which you deem relevant to be included?

To be filled in by the participant

The National Operational Briefing is the most important part because it refers to the real working situation in the country, area and field of deployment.

The Frontex Briefing is also useful but, taking into consideration that it was organized via [REDACTED], it was too long. This is because it is difficult to keep focused for hours not because it was not interesting. The risk is that because of not being always fully concentrated some key points could get lost.

I personally would skip the introduction of every single participant especially if we talk about more than 50, it has no added value to the briefing.

III. LOGISTICS/PRACTICAL ARRANGEMENTS

What were the logistical challenges prior to and during your deployment? (*accommodation, working conditions, health and safety, others*)

To be filled in by the participant

Everything was ok, bearing in mind the present Pandemic situation we must be ready to face some difficulties when deployed in the field. This is why we have to show flexibility and availability.

Please assess the suitability of the technical equipment provided by Frontex for the tasks assigned during your deployment. Is there any other type of equipment that you would find useful for your duties?

To be filled in by the participant

As [REDACTED] I took my personal equipment with me. I have seen in the Frontex office that few items to support the check of travel documents were available but did not use them.

Only for Standing Corps Category 1 (if applicable)

Please present pros and cons as regards the elements of Frontex uniforms, personal equipment, weapons (*lethal and non-lethal*) or other equipment provided for performing your duties within that operational activity.

To be filled in by the participant

IV. COORDINATION STRUCTURE

Was the communication with Frontex Coordinating Staff and national authorities of the host countries regular and sufficient for an effective cooperation? How do you assess the overall coordination of the activity in which you were involved (*the strongest and the weakest points*)? What are your suggestions to achieve better results?

To be filled in by the participant

The Local Coordinator was included in the Team Chat Group and was always sharing info of interest or asking for our support to provide professional opinions on suspected forged or counterfeit travel document. Briefing and debriefing were carried out meticulously.

Please assess your integration within your respective team (*border management team, migration management team, return team*).

To be filled in by the participant

The Frontex Team at Nova Sela was a mix of border guards belonging to all categories of personnel. The working atmosphere was great. Unfortunately, I did not have the chance to work longer with them because of my 1-month

deployment and due to the vaccination of two of the colleagues who have been authorized to travel back to their countries in order to be vaccinated.

V. FUNDAMENTAL RIGHTS

How do you assess the fundamental rights compliance within the operational activity you were deployed to (identifying and referring vulnerable persons to the competent authorities, including those in need of international protection; respect of the Code of Conduct; information of the migrant about Frontex complaints mechanism)?

To be filled in by the participant

Due to the Pandemic situation, the flow of vehicles and passengers throughout the [REDACTED] BCP over my entire 2 stay was from low to very low. Therefore, I did not face any situation of this kind, which involve Frontex employed personnel to take actions.

VI. ADDITIONAL INFORMATION

Are there any comments/suggestions you would like to add? What developments (solutions) would you propose to the operational activity?

To be filled in by the participant

Again, it is my modest opinion cat 1 personnel, The Standing Corps needs to be better equipped in order to improve its operational capacity and least but not last to enhance the self-security and the security of the colleagues they work with.

Report from Participant

All participants of the joint operation are kindly requested to fill in this template and to revert it to Frontex via email account within 7 calendar days after termination of the deployment.

The aim of the report is to gather feedback from the participants in order to support improvements for future operational activities.

Data about deployment

1. Did you receive and acknowledge OPLAN of the JO and if yes, was it in time and who provided it to you?

Yes, all in time, provided by NFPOC and local Greek authorities.

2. Did you receive enough information about JO from Frontex during General Briefing?

Yes it was sufficient for all aspects of my mission.

3. Did you receive enough information about JO from Host MS during the National Briefing?

Yes it was sufficient for all aspects of my mission.

4. Have you been satisfied with the organization and timelines of JO and if not, why?

Yes.

5. Was communication with Frontex and local authorities regular and sufficient for effective co-operation? Have you had sufficient feedback during the course of implementation of the JO?

Yes, seamless communication.

6. Did you have the opportunity to generate ideas and contribute to the JO during the implementation phase?

Yes, my ideas were assessed and if possible implemented.

7. What in your opinion were the strong and weak points of the JO?

Our designated local officers were experienced and know the operational area very well but there is not enough resources, both human and technical.

8. If you have a power what would you change in this JO in order to achieve bigger added value for EU?

Provide better and more equipment to effectively observe the border. Furthermore, BCP [REDACTED] needs a ² better regime to control it's close surroundings since there is a lot going on in terms off illegal crossings by foot.

9. Have you participated in any of the specific EBGT Profile training ([REDACTED] ³ [REDACTED].) organized by Frontex Training Unit?

No.

10. What kind of training subjects you would like to propose / should be covered to improve your job performance during Frontex coordinated activity in future?

Document forgery.

11. Did you observe any procedure or practice that raises concerns about fundamental rights compliance during JO?

No.

12. Are you satisfied with your performance during the JO?

(Please make a self-assessment and describe in few words the pros and cons of your participation)

My performance was good. I good prevent illegal migration on my own initiative in one case and also support the local authorities in their daily duties.

13. Would you like to participate again in Frontex coordinated JO and if yes, why?

Yes, it provides an interesting insight into procedures in other countries and cultures than my home country, which can be used to improve mutually.

14. Are there any comments/suggestions you would like to add?

No.

1. Did you receive and acknowledge OPLAN of the JO and if yes, was it in time and who provided it to you?

I had access to FOSS

2. Did you receive enough information about JO from Frontex during General Briefing?

Yes. Briefing was very comprehensive

3. Did you receive enough information about JO from Host MS during the National Briefing?

Yes. Briefing was very good.

4. Have you been satisfied with the organization and timelines of JO and if not, why?

We were in theatre for a period of 1 month. Unlike during previous deployment in February working conditions and working hours were clear. Wishes and requirements were respected.

5. Was communication with Frontex and local authorities regular and sufficient for effective co-operation? Have you had sufficient feedback during the course of implementation of the JO?

Yes. We received regular updates on the situation as well as timely updates of any extraordinary situations (e.g. [REDACTED] Lake Run, Covid)

2

6. Did you have the opportunity to generate ideas and contribute to the JO during the implementation phase?

No

7. What in your opinion were the strong and weak points of the JO?

(+) National teams with their own equipment, which was known to them.

We were only active in the theatre for 1 month. However, we would have welcomed a change of our assigned sector for variety (e.g. [REDACTED]).

2

8. If you have a power what would you change in this JO in order to achieve bigger added value for EU?

9. Have you participated in any of the specific EBG Profile training ([REDACTED] [REDACTED]) organized by Frontex Training Unit?

11. Did you observe any procedure or practice that raises concerns about fundamental rights compliance during JO?

No

12. Are you satisfied with your performance during the JO?
(Please make a self-assessment and describe in few words the pros and cons of your participation)

We unfortunately had no results in our op. area. The only migrants we sighted were when driving to and from our op. area up to the town of [REDACTED]. An occasional deployment outside our op. area to [REDACTED] or

2 [REDACTED] would have been welcome.

1 Il giorno 02.10.2021 alle ore 1530 in uscita dalla Grecia, si controllava il torpedone Mercedes immatricolato [REDACTED]. Il bus si fermava al valico di confine di [REDACTED] GRC. I passeggeri erano scesi per il controllo passaporti. L'autista risaliva sul torpedone per assicurarsi che fossero scesi tutti. In accordo con il team leader chiedevo al collega Rumeno di ispezionare il veicolo. Durante il controllo ho scoperto un sedicente cittadino ALB nascosto nella ultima fila sotto a delle giacche. Poi ho fatto aprire la toilette dal autista, la stessa era chiusa dall'interno intimavo l'apertura identificandomi come polizia di frontiera, scoprivo un ulteriore sedicente ALB. Entrambi privi di documenti. Nel controllo delle persone in uno di essi rinvenivo 9500 Euro. Informavo le autorità locali, le due persone irregolari con i due autisti venivano arrestati. Il Bus sequestrato e condotti presso il posto di Polizia a Delvinaki GRC. 2
Sono stato chiamato a deporre presso lo stesso posto di Polizia dove un ufficiale ha redatto un rapporto sulla base della mia dichiarazione.
FTSO informato e inviato il mio verbale di interrogatorio per conoscenza.

Il giorno 28.10 ero di riposo, mi chiamano dal BCP Kakavia perché avevano fermato un sedicente Afgano con un permesso di residenza GRC falso, mi chiedevano la verifica tramite foto inviate del passaporto AFG che portava seco.

Ho deciso di recarmi al BCP per una verifica di persona. Giunto sul posto il permesso di soggiorno era palesemente falso, supporto plastico con tecnica di stampa in getto di inchiostro. Verificato il passaporto, riscontravo una falsificazione del contenuto. Si cercava di intervistare la persona, la stessa non parlava altro che la lingua Farsi.

Ho potuto capire che i documenti sono stati acquistati in Atene per il costo di Euro 300 per il permesso di residenza e Euro 500 per il passaporto.

Informato le autorità sul posto, la persona veniva presa in carico dalla Polizia di Delvinaki per ulteriori accertamenti.

Reporting time:	23.03. – 28.03.2021
Operation / Location:	JO FP Western Balkan 2021 / BCP [REDACTED] 2
Profile:	[REDACTED] 3

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

Am BCP [REDACTED] ist die Migrationslage zurzeit sehr ruhig. Es konnten in den letzten Wochen keine Migranten festgestellt werden. Gemäss dem Postenchef ([REDACTED]) **1** ist die Lage seit Beginn des Lockdown in Griechenland, also rund 6 Monaten, ruhig. Vor einigen Jahren war die irreguläre Migration von ALB STANG ein grosses Problem der Region. Mittlerweile hat sich dies gelegt, viele Albaner arbeiten mittlerweile in Griechenland und haben entsprechende Aufenthaltstitel. [REDACTED] **6**

[REDACTED]

[REDACTED] **2**

[REDACTED] **2**

Bedingt durch die Covid Pandemie sind die Zeiten anders als sonst. Einreisen werden nur Griechischen Staatsangehörige gewährt oder Personen, welche einen geregelten Aufenthalt oder eine Arbeitsbewilligung für Griechenland haben. Die Einreise wurde auf maximal 400 Fahrzeuge herabgesetzt. Weiter ist ein Grenzübertritt nur zwischen 0700 Uhr morgens bis ca. 2000 Uhr abends [REDACTED] für genannte Personen möglich. 4 Der Güterverkehr wurde nicht beschnitten, so dürfen LKW's Ein- und Ausreisen unabhängig von deren Anzahl. Was sie aber auch betrifft ist die nächtliche Schliessung der Grenze. Die Ausreise kann beliebig gemacht werden, ist nicht kontingentiert denn wer weg ist, ist weg. Für uns vor Ort heisst dies: durch den Tag läuft schon nicht viel; nach der Schliessung der Grenze gar nichts mehr.

An der Griechischen Grenze zu Albanien gibt es 4 Übergänge, welche besetzt sind und Einreisen zulassen. Dies sind:

- [REDACTED] 2
- [REDACTED]
- [REDACTED]
- [REDACTED]

Der Rest der Gegend ist gezeichnet vom Pindus Gebirge welches hier die Region Epirus und Westmakedonien trennt. Die Berge sind teils höher als 2000 M.ü.M. Rein Geographisch ist ein irregulärer Grenzübertritt zwar machbar, aber schwieriger als anderen Orten wie z.B. via Thessaloniki nach Evzoni. Es gibt Bergwege und Strassen im Gebirge, aber das können die 3 [REDACTED] Kollegen wohl besser erläutern wie die Lage im Zwischengelände ist. Auf dem Weg zur Arbeit sah ich dennoch schon Gruppen von Migranten im Raum [REDACTED] 2 [REDACTED] zu Fuss auf der Hauptstrasse.

Gemäss dem General Operation Briefing suchen sich die Migranten auf allen erdenklichen Wegen, vor allem aber im Strassenverkehr einen weg nach Norden. Oft in kleinen Gruppen oder einzeln zu Fuss, als Passagiere in Motorfahrzeugen oder via LKW. Vom Modus Operandi her gibt es nichts Neues zu berichten. Fälschungen, welche festgestellt wurden bei den Personen sind oft von schlechter Qualität, vorwiegend ITA Dokumente (Identitätskarten / Aufenthaltstitel)

2. Situation Forged Documents (only [REDACTED]) 3

Special cases, special forgeries, etc.

Bedingt durch die COVID Situation sind nur genannte Personen mit entsprechenden Dokumenten unterwegs. Es gibt keinen internationalen Verkehr und keine Personen oder Dokumente, ausser Dokumente aus GRC, ALB und dazugehörige Aufenthaltstitel.

In «normalen» Zeiten kann es sein, dass touristisch bedingt Menschen von fast der ganzen Welt (Aussage GRC Kollegen) hier ein- oder Ausreisen.

Der langen Rede kurzer Sinn: NTR

3. Health and General Safety Situation

Covid-19, etc.

Die Covid Pandemie erschwert das Leben für Alle vor Ort. Das Gesundheitssystem ist am Anschlag und es fehlt in manchen Gegenden an Spitalbetten. Aufgrund dessen befindet sich Griechenland seit Monaten im Lockdown. Neben Beschränkungen zur Ein- und Ausreise in allen Verkehrsarten gilt eine nächtliche Ausgangssperre. Die Geschäfte sind zu, ausgenommen jene welche Güter für den täglichen Bedarf liefern. Take Away von Kaffee oder Speisen ist erlaubt. Im öffentlichen Raum und in Gebäuden gilt eine Maskentragpflicht.

Das Haus darf ausser dem Arbeitsweg nur unter gewissen Gründen verlassen werden:

- 1 Apotheke oder Arztbesuch (nach Absprache mit dem Arzt)
- 2 Einkaufen in einem Geschäft, das nicht liefert (z.B. Supermarkt; Einzelhandelsgeschäft: Genehmigung ist 2 Stunden gültig)
- 3 Bank (wenn keine elektronische Transaktion möglich ist) und Behördengänge mit schriftlicher Terminbestätigung
- 4 Hilfe für Menschen in Not oder Begleitung minderjähriger Schüler zur/von der Schule
- 5 Teilnahme an einer Zeremonie (z. B. Beerdigung, Heirat, Taufe o. ä.) sowie Besuche zur Wahrnehmung des Sorgerechts

Für den Arbeitsweg sowie die Ausnahmen sind Formulare (A oder B) nötig [Link](#), oder eine SMS von den Behörden als Bestätigung. Die Polizei führt Kontrollen durch, ich selbst wurde bereits 2-mal angehalten und kontrolliert. In Uniform erledigt sich die Kontrolle rasch. Besonders durch die Nachtstunden ist die Polizei aktiv. Auch darf die Wohngemeinde nicht verlassen werden, es gilt ein 2km Bewegungsradius ab dem Wohnort. Je nach Region können die Massnahmen verschieden sein.

Die Massnahmen gelten vorerst bis zum 05.04.2021. Was danach kommt, ob gelockert wird oder nicht bestimmen die Infektionszahlen sowie die Durchhaltefähigkeit der Gesundheitsinstitutionen. Für ausführliche Informationen verweise ich auf meine Quelle:

Die Aufnahme vor Ort klappte sehr gut. Unsere Ansprechpartnerin [REDACTED] gibt sich grosse 1 Mühe, sendete im Vorfeld hilfreiche Informationen und ist quasi immer für alle Fragen und Anliegen offen. Die Accreditation Card lag bereits für mich bereit und es scheint gut organisiert dieses mal.

Die Infrastruktur hier am BCP ist okay im Vergleich zu anderen Griechischen Bauten für Grenzkontrollen oder Polizeistationen. Dies zeigen Einsätze in der Vergangenheit.

Aufgrund der nächtlichen Schliessung der Grenze wurden unsere Schichten angepasst. Zum Weekly sende ich euch den neuen Schichtplan für April.

Waffentransport: Ich bin mir nicht sicher ob ich der erste AdGWK ist, welcher mit einer Waffe und Munition direkt nach Athen reist. Für kommende Missionen als Info: Wer vor dem gepäckband steht und auf seine Koffer oder Taschen wartet, wartet vergeblich. Gepäck, welches mittel «Firearm» Etikette markiert ist, läuft nicht auf das Band. Es kann am Baggage Tracing Schalter abgeholt werden. Dieser befindet sich in der Ankunftshalle gleich beim Gepäckband Nr. 7. Die freundliche Dame am Schalter erklärte mir, dass es nicht erwünscht sei, dass «gefährlich» gekennzeichnetes Gepäck auf dem Band mitläuft um Diebstahl zu verhindern. Also rein Informativ für euch in Bern und zum Weitergeben als Reisehinweis.

Weiter ist ein Griechisches Formular für die Waffe, wie in der Vergangenheit nicht mehr nötig. Was nach wie vor Gültigkeit hat: die Waffe bleibt auf dem Übergang oder der Polizeistation.

Das General Briefing erfolgte via [REDACTED] Wie zu erwarten funktionierte das Ganze nicht wie gewünscht. X Teilnehmer hatten Schwierigkeiten da verschiedene Programme und Browser von den Mitgliedstaaten verwendet werden. 7

Frontex wollte das Briefing via [REDACTED] durchführen. Klappt dies nicht wie in meinem Fall bestand die Möglichkeit, via [REDACTED] Jedenfalls hatte ich keinen 7

Ton und Anfangs kein Bild. Via verschiedene Browser konnte ich alles bis auf das Tonproblem lösen. Dies führte dazu, dass ich Ton via Smartphone (Tel Nr. und Sitzungsnummer waren im Mail ersichtlich) und die Bilder via Laptop hatte. [REDACTED] und [REDACTED] hier hatten ähnliche Probleme. Gemäss [REDACTED] in [REDACTED] funktionierte das Briefing über das «normale» 1

7 [REDACTED], wenn man einen privaten Laptop dabei hat. Ein Nachfragen bei meinem [REDACTED] Kollegen (Der auf der ALB Seite von [REDACTED] arbeitet) ergab das gleiche Resultat. 4 2

Frage: Kann da mal jemand von euch beim BIT nachfragen, ob man ein reguläres, ganz übliches normales [REDACTED] auf die Laptops herunterladen kann bzw. darf? Es wird wohl nicht das letzte [REDACTED] Briefing gewesen sein. Da ich aber ein Idiot bin was EDV angeht kann es auch ein Anwenderproblem sein... ☺ 7

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

Es gibt eine illegale Migration vor Ort. Quasi täglich auf dem Arbeitsweg sind Migranten in Gruppen von 5-10 Personen auszumachen, welche sich am Strassenrand bewegen. Aus dem Monthly Report für Frontex konnte ich zudem erfahren, dass sich anfangs März 2 Migranten in einem TUR LKW befanden und vom Zoll hier am BCP festgestellt wurden.

Unterhalb des BCP befindet sich ein grösseres Feld mit einem Flusslauf. Der Fluss fliesst direkt nach Albanien, das Feld ist mit Feldwegen gut erschlossen. Vom Übergang her konnten wir 2 Gruppen von Migranten beobachten, 16 Personen total, welche genanntes Feld überquerten und so illegal nach Albanien einreisen. Die GRC Polizei vor Ort war nicht an dieser Meldung interessiert, da sie nur für die Strasse zuständig ist. Ein Telefon an meine mobilen Kollegen brachte auch nichts, da dies nicht der Sektor ist in welchem Sie zuständig sind. Das einzige was ich machen konnte war meinem Frontex Kollegen aus [REDACTED], welcher 4 sich zurzeit auch in [REDACTED] befindet aber auf der Albanischen Seite, zu kontaktieren. Dieser 2 veranlasste das Senden einer Patrouille. Ob die Gruppen angehalten wurden kann ich nicht sagen.

Am Übergang selbst konnte ich ebenfalls Personen feststellen, welche die Grenzkontrolle umgingen. Es handelte sich, dem Aussehen nach, um Albaner. Sie reisten mit dem Bus bis an die Grenze. Nach dem Stopp umgingen Sie im unteren Bereich des BCP, ausser Sicht der Griechen, zu Fuss die Passkontrolle. Ein Trampelpfad ist gut sichtbar und im Zaun gibt es Lücken. [REDACTED] Die genannten Busse fahren je- 4
weils am Morgen vom Übergang weg und am späteren Nachmittag bringen Sie Passagiere, die meisten sind Albanische Arbeiter, wieder zurück. Die Anzahl der Einreisen für die Arbeit hat nun zugenommen, da die Landwirtschaft jetzt im Frühling in den Startlöchern steht. Es reisten am Dienstag viele Personen ein, welche bis 3 Monate bleiben werden und in diesem Wirtschaftssektor eingesetzt sind. COVID bedingt dürfen Sie nur in gewissen Regionen arbeiten gehen.

Covid-19, etc.

Eine grosse Lockerung der Covid Massnahmen ist vorläufig noch nicht in Sicht. Es sind mehr und mehr Öffnungen von einzelnen Bereichen vorgesehen, wann diese eintreffen kann uns niemand so genau sagen. Der grobe Plan sieht aber zum Osterfest (Anfangs Mai / Griechisch Orthodox) eine Aufhebung von einigen Restriktionen vor. Abgesehen davon wird Griechenland nicht darum herumkommen, zu diesem Zeitpunkt wieder Touristen ins Land reisen zu lassen aufgrund der sonst schon miserablen Wirtschaftslage.

Es sind weiterhin keine spürbaren Änderungen eingetreten. Auch ist die Situation vor Ort sehr undurchsichtig, da niemand zu Wissen scheint was genau gilt und was nicht. Im Grunde genommen darf man den Wohnort nur unter bestimmten Bestimmungen verlassen, dennoch sind die Strassen voll von Menschen. Ich beobachte dies laufend auf dem Weg zur Schicht.

4. Others Phenomenon

Concerning Switzerland

Vor etwa 2 Wochen erhielt ich die Meldung via [REDACTED] dass vermehrt Personen mit Reiseausweisen Abk. 51 von GRC via Flugzeug in die Schweiz einreisen. Dass sie danach wieder nach Griechenland zurückkehren ist eher unwahrscheinlich. Zielland ist nach wie vor wohl vorwiegend Deutschland. ([REDACTED]) 6

Anlässlich eines Onlinemeetings mit Frontexkollegen erhielt ich die Bestätigung dieses Phänomens. Ein [REDACTED] Kollege meinte, dass sie massiv mit dem gleichen Problem zu kämpfen 4 haben. Ebenfalls Österreich. Es kam gemäss dem [REDACTED] Kollegen vor, dass in einem Flieger 4 welcher in Wien ankam, ca. 80% der Passagiere genanntes Klientel mit dem «51er» Pass waren.

Das Phänomen hat wohl folgenden Ursprung: die Griechen werden in Zukunft (Termin kann ich nicht genau sagen, aber bald) einige Flüchtlingslager schliessen. Es wäre jetzt sicher verwerflich, dass zu behaupten aber alle denken das gleiche: [REDACTED] 4

Vor einigen Jahren, so ein [REDACTED] Kollege, hatten sie den gleichen Modus Operandi mit SYR STANG, welche über 51er Pässe von Bulgarien verfügten. Das Problem konnte wie folgt gelöst werden: 4

- Bedingt durch die Terroranschläge hatte Frankreich bekanntlich die vorübergehende Wiedereinführung von Grenzkontrollen an der Binnengrenze
- Die Personen wurden eingehend kontrolliert bei der Einreise (Analog Aussengrenze)
- Falls sie nicht über genügend finanzielle Mittel verfügten, wurden sie zurückgeschickt.
- Das Vorgehen der Franzosen machte schnell die Runde und innert kurzer Zeit hatte man die Lage wieder im Griff

Habe mich kurz schlau gemacht. Gemäss Ziff. 3.2.5. WGK können Flüchtlinge wie Drittstaatsangehörige kontrolliert werden, Sprich; sie müssen die in Ziff. 3.3. WGK genannten Voraussetzungen erfüllen. Heisst für mich: Die Franzosen machten dies mit Hand und Fuss, sprich eine rechtliche Grundlage war gegeben was ich anfangs nicht geglaubt habe. Gemäss Weisung Visum Liste 2 Ziff. 2.4.2. müsste zudem streng genommen mittels Aufenthalt der Nachweis vom Wohnsitz geltend gemacht werden (Binnengrenze hin oder her). Die RAA Zoll Nord ([REDACTED]) habe ich mit der Info bereits bedient. Es ist jedoch nicht davon auszugehen, 1 dass die Schweiz aktiv wird (humanitäre Verantwortung) ohne Druck vom Ausland.

Gemäss «Weekly Overview» im FOSS konnte in Bulgarien, BCP [REDACTED], ein 2 Schweizer Fahrzeug mit CHE Fahrzeuglenker angehalten werden. Beifahrer war ein Tunesier. Im Fahrzeug konnten 3 weitere Tunesier festgestellt werden welche sich darin versteckten. Die Migranten wurden verhaftet. Mangels Zugriffen (FOSS nur rudimentäre Informationen/ JORA Leseberechtigung beantragt, jedoch noch nicht erhalten) weiss ich noch nicht mehr. Ich versuche aber via anderen Quellen weitere Informationen über den Fall zu sammeln.

5. Working conditions

Issues, working with local authorities and with Frontex

Am 07.04. wurde ein Online Seminar für die [REDACTED] der Operation durch Frontex 3 durchgeführt. Für einen AdGWK war nicht viel Neues zu lernen aufgrund unserem Ausbildungsstand. Spannend waren lediglich die Informationen über den genannten Modus Operandi. Auch konnten wir via Chat und Video miteinander diskutieren. Es stellte sich heraus, dass die Lage zurzeit für die [REDACTED]s überall gleich ist, es mangelt an Arbeit. Der 3 Frust scheint recht gross zu sein und viele sind unzufrieden mit der momentanen Lage. Frontex ist somit informiert über die Situation im Feld.

6. Remarks and suggestions

Issues, organizational, other messages

Verfügt ihr in Bern über die Möglichkeit, mehr über den Fall in Bulgarien zu erfahren? Ich gehe davon aus, da der Lenker CHE STANG ist, wären Informationen zu der Angelegenheit relevant um allfällige Schleppertätigkeit in der Schweiz zu überprüfen.

1. Situation Illegal Migration

Overview, Modus Operandi, Violations, other observations (law and fundamental rights)

Die Migrationssituation ist am BCP nach wie vor auf einem sehr tiefen Level. Neben den bereits genannten Personen, welche mir auf dem Arbeitsweg begegnen stellten wir keine Migranten am BCP fest. Eine Ausnahme war der Samstag, 17.04.:

Eine Gruppe von 17 Migranten, mutmasslich 5 aus Nepal und 12 aus Bangladesch, versuchten die Grenzkontrolle oberhalb des Überganges bzw. der Umzäunung zu umgehen. Wir sahen dies und meldeten es den Griechen. 14 Migranten konnten am Ende des Zauns angehalten werden. 3 weitere Personen fanden wir kurz darauf rund 200 Meter hinter dem Übergang.

Ein Nepalese sprach recht gut Englisch und wir hatten Zeit zum Reden. Die Gruppe sei seit rund 10 Tage zusammen unterwegs. Sie alle kamen aus Griechenland und suchten einen Weg nach Norden. Angebliches Reiseziel, zumindest für die Gruppe aus Nepal sei Frankreich, wo sie in die Fremdenlegion eintreten wollten. Sie wurden aber schliesslich von den albanischen Behörden aufgegriffen, dann aber wieder freigelassen. Die Behandlung sei eher schlecht gewesen und nun wollen Sie zurück nach Athen. Was alles wahr ist an der Geschichte lässt sich nicht bestätigen. [REDACTED] 6

[REDACTED]

Interessant ist einfach für mich, dass Sie über die grüne Grenze kamen und hier offensichtlich keine reguläre Rückübernahme stattfinden. Auch fiel mir auf, dass die meisten mutmasslichen Migranten welche ich auf dem Arbeitsweg antreffe, sich von der Grenze wegbewegen,

also in Richtung Ioannina. Es gibt also wohl viele solche Fälle.

6

Des Weiteren haben wir, also die Frontexleute vor Ort, angefangen etwas gegen das umgehen des Grenzzaunes zu unternehmen. Wie beschrieben umgehen meist Albaner die Grenze direkt am Übergang. Es handelt sich vorwiegend um Personen, welche mit den Reisebussen ankommen. Nun versuchen wir, wenn die Busse ankommen und die Personen aussteigen, jeweils vor Ort zu sein zu diesem Zeitpunkt und stellen uns vor den uns bekannten Trampelpfaden auf. Das Resultat: Bei quasi jedem Bus werden so Personen der regulären Grenzkontrolle zugeführt, welche Overstay haben. Kostenpunkt für diese Leute; bis 1 Monat EUR 600.--, alles was darüber ist EUR 1'200.—Wie lange die Griechen uns gewähren lassen kann ich nicht sagen. Bisher haben die aber nicht herausgefunden, dass wir wohl unseren Beitrag dazu leisten.

1

Die Gruppe vom 17.04.

1'200 EUR für 1 Jahr Overstay, ALB STANG

2. Situation Forged Documents (only [REDACTED]) 3

Special cases, special forgeries, etc.

Gemäss den «weekly overview» im FOSS sind immer wieder gefälschte PCR Tests aufgefunden worden im Operationsbereich. Da für die Griechen aber Ihr PLF Formular wichtiger ist und nur diese angeschaut werden, kriege ich keine PCR Tests zu Gesicht.

Also→ NTR

3. Health and General Safety Situation

Covid-19, etc.

Ab Montag fällt in Griechenland die Quarantänepflicht für Touristen. Ob und wie sehr dies meinen Dienst vor Ort tangiert kann ich heute noch nicht sagen da ich nicht weiss, ob die Grenze weiterhin geschlossen bleibt. Jedenfalls sieht man, trotz Lockdown meiner Meinung nach immer mehr Leute auf der Strasse, wenn man sich in Ioannina bewegt. Die Läden sind offen, will man etwas einkaufen (z.B. Kleider) muss man vorgängig einen Termin abmachen mit dem Geschäft. Dies erfolgt via SMS und man erhält eine Nachricht mit einer Terminbestätigung. Dies geht aber nur, wenn man eine Griechische Telefonnummer hat. Das System ist in meinen Augen sowieso ziemlich unnütz, denn stehe angenommen ich vor dem Laden

und sage der Belegschaft, ich wolle etwas kaufen wären sie ja dämlich, mich nicht hineinzulassen. Es geht ja darum, Geld zu verdienen...
Ausserdem stellten die Behörden eine Öffnung der Restaurants, zumindest im Aussenbereich in Aussicht.

4. Others Phenomenon

Concerning Switzerland

Der Modus Operandi mit den 51er Pässen ist gemäss meinen Quellen nach wie vor brandaktuell. Sollte es passieren, dass Massnahmen eintreffen welche das Reisen auf dem Luftweg unterbindet kann ich mir gut vorstellen, dass die Personen im Strassenverkehr anzutreffen sein werden. Stand heute weiss ich aber über keine Änderung Bescheid und vorläufig ist nicht damit zu rechnen.

5. Working conditions

Issues, working with local authorities and with Frontex

[REDACTED] Dieser Übergang
interessiere niemanden so wirklich. Sie sind ausserdem personell geschwächt aufgrund von Covid. [REDACTED] 4
[REDACTED] Am 4/6
kommenden Wochenende sind Wahlen in Albanien und es ist mit einem hohen Verkehrsaufkommen in der Ausreise zu rechnen. Selbst da erhalten Sie keine Unterstützung. Es sei auch ein Problem, dass viele der Polizeikollegen welche nicht an der Grenze Dienst tun, hier nicht eingesetzt werden können da Ihnen das Wissen über Ein- und Ausreisebestimmungen fehlt.
Je nachdem, welche GRC Kollegen im Dienst sind kann man sich auch gerne mal in der Kabine für Ein- oder Ausreisekontrollen aufhalten und ein paar Worte wechseln. Viele sind aber einfach nur froh, wenn wir im Büro bleiben.

Für den Transit durch Kroatien braucht man kein Corona Zertifikat, für den Transit hat man 12 Stunden Zeit.

02.10.2021, Ausreise, 3 DEU (Familie), mit DEU Wohnmobil, kroatisches Grenzsystem zeigte eine Warnung an, das die Familie die vorgeschriebenen 12-Stunden Transitgrenze überschritten haben. Bei der Einreise wurden keine PCR Test vorgelegt.

Busse von 1600.00 EUR wurde erhoben und eingezogen, Personen konnten ihre Reise fortsetzen.

Normalerweise beträgt das Bussgeld für die Überschreitung der vorgeschriebenen 12-Stunden-Transitgrenze für die Durchquerung des HRV-Gebiets ohne Vorlegen eines negativen PCR-Tests bei der Einreise rund 1100.00 EUR pro Person. Bei sofortiger Zahlung an Ort und Stelle wird die Strafe um 30% reduziert.
